<sup>1</sup> Federal and state policies require that all K-12 students identified as language minority students through the Home Language Survey process upon initial enrollment be assessed for limited English language proficiency. The state instrument for identification of Limited English Proficient (LEP) students is the WIDA ACCESS Placement Test (W-APT™). The identification and the subsequent placement of LEP students in ESL services are guided at the state level by the NCDPI K–12 Curriculum, Instruction & Technology Division. All students identified as limited English proficient (based solely upon W-APT™ or ACCESS scores) must be administered the ACCESS for ELLs® during the annual English language proficiency testing window in the spring.

<sup>2</sup> The North Carolina End-of-Grade (EOG) Tests of Science at grades 5 and 8 are required to meet the federal *No Child Left Behind Act* (NCLB) of 2001. In addition, the North Carolina End-of-Course (EOC) Test of Biology is administered to meet the high school science test requirement under NCLB.

<sup>3</sup> A writing assessment aligned with curriculum expectations as specified in the North Carolina *Standard Course of Study* is administered at grade 10. Results are used in combination with English I to comply with the NCLB requirements.

**Note:** End-of-course tests are given at the end of the course regardless of the grade in which the course is taken. The chart shows the grade in which students typically take the course.
