Frequently Asked Questions
Transition Plan for Competency and Computer Skills

1. How has Senate Bill 202/S.L. 2009-451 changed graduation requirements for students?

When the General Assembly passed Senate Bill 202/S.L. 2009-451, it ended the graduation requirements for the North Carolina Competency Tests in Reading and Mathematics, the North Carolina Computer Skills Tests, and their corresponding alternate assessments.

2. What is the effective date of S.L. 2009-451?

The law went into effect July 1, 2009.

3. What guidance is the NCDPI providing LEAs on procedures to follow for students who have failed to meet the competency and/or computer skills proficiency standards and are either currently enrolled or not enrolled?

A transition plan for competency and computer skills was developed for LEAs with procedures to follow.

4. Who is covered under the transition plan for competency and computer skills?

The competency testing program was initiated in 1978 (for students enrolled at grade 10), effective with the graduating class of 1981. Effective with the class of 2001, the North Carolina Computer Skills Test was added as a graduation requirement under Feature C of the Quality Assurance Program. The transition plan covers all students that were under the competency and computer skills requirements regardless of the graduation year (i.e., the plan covers the graduating class of 1981 through the class of 2009).

5. How does the transition plan apply to students who are currently enrolled in school?

Effective July 1, 2009, all currently enrolled public school students who entered the ninth grade prior to 2006–07 and have not met proficiency on the North Carolina Reading and/or Mathematics Competency Test(s) and/or the North Carolina Computer Skills Test(s) and/or their alternate assessment(s) are no longer required to take these tests or be concerned about them as graduation requirements.

In order to receive a high school diploma, these students’ school records and/or documentation must show that all state and local board requirements have been met. If these students’ school records and/or documentation show that all state and local board requirements have been met, these students may be granted diplomas with their graduating class (e.g., class of 2010).

Please be reminded that students who entered the ninth grade for the first time in 2006–07 and beyond are subject to meeting the standards of proficiency outlined in State Board policy GCS-N-003.
6. **How will the transcripts of students who are currently enrolled be affected?**

Computer skills and competency scores will not appear on transcripts of students who are currently enrolled. The computer skills and competency scores for students who are currently enrolled have been removed from the students’ transcripts.

7. **How does the transition plan apply to students who are not enrolled in school? Can these testing requirements be waived retroactively?**

Effective July 1, 2009, students who entered the ninth grade for the first time prior to 2006–07 and are *not currently enrolled* in a public school but have met all state and local graduation requirements except for achieving proficiency on the North Carolina Reading and/or Mathematics Competency Test(s) and/or the North Carolina Computer Skills Test(s) and/or their alternate assessment(s) are no longer required to meet the competency or computer skills standards. These students may petition their former school for a diploma. In order to receive a high school diploma, these students’ school records and/or documentation must show that all state and local board requirements have been met. If these students’ school records and/or documentation show that all state and local board requirements have been met, these students may be granted diplomas.

---

**The following questions and answers refer to students who entered the ninth grade prior to 2006–07 and are not currently enrolled in school.**

8. **What if the student was enrolled in a school that is no longer in operation? How does he/she petition for a diploma?**

If a student was enrolled in a school that has since been closed or consolidated, the student may contact the school district’s (or school system’s) central office where the school was located.

9. **What if the student was enrolled in a charter school that is no longer in operation? How does he/she petition for a diploma?**

If a student was enrolled in a charter school that is no longer in operation, the student may petition the school district’s (or school system’s) central office of the student’s residence at the time of the school closing.

10. **May the student’s North Carolina Certificate of Achievement suffice as documentation that shows all State and local board requirements have been met?**

Yes. The North Carolina Certificate of Achievement (i.e., not a Certificate of Attendance) suffices as documentation that shows all State and local board requirements have been met.

11. **What if the student cannot produce a North Carolina Certificate of Achievement?**

If the student does not have his or her North Carolina Certificate of Achievement, then other forms of documentation must be used (e.g., transcript). The student may contact his or her high school or local school system to determine if a transcript still exists.
12. If a student is deceased, can his/her parents, guardians, or next of kin petition the LEA for the diploma?

Yes. If the student’s school records and/or documentation show that all state and local board requirements have been met, the parents/guardians should be awarded the student’s diploma.

13. What is the deadline for filing a petition?

Students’ petitions for diplomas will be honored only during a five-year window spanning from July 1, 2009 through July 1, 2014.

14. In order to receive a diploma, these students’ school records and/or documentation must show that all state and local board requirements have been met. What are the SBE policy numbers that contain the state’s graduation requirements for students graduating prior to 2010?

In order to receive a diploma, students will have to show that they met the requirements in place at the time that they entered ninth grade (i.e., except for proficiency on the Competency Reading and Mathematics Tests, the Computer Skills Test(s), and/or their corresponding alternate assessments). The state’s graduation requirements are located in State Board of Education policies GCS-N-004 and GCS-N-003. In addition, a copy of the 1980–81 through 2008–09 graduation requirements is posted online at http://www.ncpublicschools.org/accountability/testing/competency/competency2.

If a student presents his or her North Carolina Certificate of Achievement (i.e., not a North Carolina Certificate of Attendance), this will suffice as documentation. If the Certificate of Achievement is not available, other forms of documentation (e.g., transcript) should be used.

15. How are students notified about this opportunity?

To help ensure that students, parents, and other stakeholders receive information concerning the elimination of the competency and computer skills proficiency standards, the NCDPI has sent letters to LEA superintendents and charter school directors to inform them of the elimination of the graduation requirements for competency and computer skills and the procedures students must follow for obtaining diplomas. The NCDPI asks that LEAs use this information and develop a local plan that includes reviewing and processing students’ petitions and recording diploma changes in the archive. The NCDPI does not expect LEAs to go through school records from 1981 through 2009 to locate and contact all students who qualify for a diploma.

16. What form(s) must be completed by the student when applying for consideration for a high school diploma?

The local school system may provide a form for students to complete. The NCDPI has provided a sample form that LEAs may use or adapt for use. This form may be found at http://www.ncpublicschools.org/accountability/testing/competency/competency2.
17. **What other documentation may students need to present to district or school officials when they petition for their diplomas?**

Students’ identification information must be verified. Therefore, students may be asked to produce a valid picture ID, their Social Security number, and their current address and contact information. This list is not all inclusive.

18. **Who is responsible for making the decision and notifying the petitioning student about whether he or she will receive a diploma?**

The local school, school system, or charter school is responsible for making the decision and notifying the petitioning student. Each local school, school system, or charter school should designate a person to process these requests. The designee is responsible for verifying if the student is eligible to receive a diploma. In some cases, where transcripts are no longer available, schools may have documentation/records of students that received a certificate and indicated in these records the reason(s) why a certificate was granted (e.g., met all requirements except competency reading, met all requirements except computer skills, etc.). If such records are available at the school, the school designee may use this documentation as proof of eligibility.

19. **Can the decision be appealed to the State?**

No State appeals are provided. All local decisions are final.

20. **What graduation year should be on the diploma, the current year or the year the student would have graduated?**

The year the petition is approved must be the year printed on the diploma. No diploma issued to these students should be dated prior to July 1, 2009 (i.e., the date the General Statute eliminated the competency/computer skills proficiency requirements). It is inappropriate to back date the diplomas. LEAs should **not** use diplomas that were stored in students’ cumulative folders that are dated with the year that the students should have graduated. These students do not officially graduate until the students’ petitions have been approved by the LEA that all state and local board requirements have been met.

21. **Is there any cost to students?**

It is a local decision as to whether to incur the expense of having new diplomas printed or to ask students to pay a fee to have them printed.

22. **If a student requests an updated transcript, how is the transcript amended?**

A signed note (see question 23) must be attached to the student’s transcript and a copy kept on file. One copy of the transcript with the attached note should go to the student, and another copy of the transcript with the attached note should be kept in the diploma archive. This is a stand-alone process; diploma/transcript information for these students is **not** to be entered into NC WISE (see questions 27–29).
23. **Will a standardized note from the NCDPI be provided to superintendents and charter school directors to attach to transcripts requested by students?**

Yes. The NCDPI is providing the following note to LEA superintendents and charter school directors to attach to students’ transcripts. This note must be signed by the superintendent or the superintendent’s designee. The LEA may elect to have the principal also sign the transcript note.

Effective July 1, 2009, per Senate Bill 202/S.L. 2009-451, the North Carolina Competency Tests of Reading and Mathematics and the North Carolina Computer Skills Tests and/or their alternate assessment(s) are no longer required in order to receive a high school diploma. As such, (Student’s Name) has fulfilled all state and local board requirements and is granted a diploma on (Date of Issuance).

24. **Does the transition plan affect the 2008–09 data?**

No. Senate Bill 202 S.L. 2009-451 went into effect July 1, 2009, and the transition plan was received by the State Board on September 3, 2009. Therefore, 2008–09 data must not be changed because of the elimination of the competency and computer skills assessments. Data reporting should be conducted in a fair and ethical manner; LEAs must refer to the North Carolina Testing Code of Ethics regarding modifying data.

---

25. **May students who were enrolled as 12th graders in 2008–09 and graduated in 2009–10 as a result of Senate Bill 202 S.L. 2009-451 be included in the 5-year graduation cohort for the 2009–10 reporting year?**

Yes. Students who were enrolled as 12th graders in 2008–09 and graduated in 2009–10 as a result of Senate Bill 202 S.L. 2009-451 will be included in the 5-year cohort rate for the 2009–10 reporting year.

---

26. **Does the transition plan affect the dropout rate? For example, if a student met the graduation requirements except for proficiency on the computer skills test and dropped out of school, if the student petitions the school and is approved, is the student removed from the dropout list?**

No. Regardless of the year the student dropped out of school, the dropout list must not be changed. LEAs must refer to the North Carolina Testing Code of Ethics regarding modifying data. Recipients of diplomas due to S.L. 2009-451 are not to be removed from dropout lists and/or counted in graduation rates (except for these students included in the 5-year cohort rate for 2009–10 as noted in question 25). Graduates in this process will not be used in any state-rate publications.

---

27. **Does the transition plan affect data collection during the five-year student petition window (i.e., July 1, 2009 through July 1, 2014)?**

Students who should have graduated in spring 2009 but did not because of the competency or
computer skills test(s) may be counted as graduates in the 5-year cohort rate for the 2009–10 reporting year. All other former students are not to be counted in any graduation rates, and therefore, will not be used in any state rate publications.

28. **What data concerning these students who are not enrolled needs to be entered into NC WISE?**

LEAs are not to put this information into current data systems (i.e., NC WISE). No data regarding recipients of diplomas due to S.L. 2009-451 are to be entered into NC WISE. The LEA’s diploma archive should be a separate listing (i.e., not in NC WISE).

29. **Currently LEAs may not have records in NC WISE for students who left school without a diploma (e.g., 1981, 1983, etc.) or whose information was entered into SIMS. Are LEAs required to enter this information into NC WISE?**

LEAs are not to put this information into current data systems (i.e., NC WISE). No data regarding recipients of diplomas due to S.L. 2009-451 who are not currently enrolled are to be entered into NC WISE. The LEA’s diploma archive should be a separate listing (i.e., not in NC WISE).

30. **How should LEAs manage this data since NC WISE is not to be used?**

LEAs must create a diploma archive. The diploma archive must consist of (1) an offline paper system and (2) an electronic system that includes at least the following data:

- a. Name of student as it appears on the student’s records
- b. Race/ethnicity
- c. Gender
- d. Year student was issued a certificate/or last school year of attendance
- e. Reason diploma was originally withheld because of testing deficiency (i.e., competency and/or computer skills)
- f. Date diploma was issued (i.e., date information from petition was verified and approved)
- g. Course of study
- h. A copy of revised transcript, if applicable (see question 22)

An electronic diploma archive template has been provided at [http://www.ncpublicschools.org/accountability/testing/competency/competency2](http://www.ncpublicschools.org/accountability/testing/competency/competency2).

31. **Will LEAs be required to submit to the NCDPI any data about the number of diplomas that are issued possibly disaggregated by competency versus computer skills, the year the student entered the 9th grade, etc.?**

Yes and No. The same data elements for the regular graduates will be requested from the graduates under S.L. 2009-451 (e.g., race, gender, course of study) with the addition of a few other data elements. The LEAs will provide a reason the diploma was originally withheld (i.e., competency or computer skills), but will not need to provide the year the student entered 9th grade. However, the LEA will need to provide the last year that the student attended school. See question 30 for a link to the form. This shows all data elements required.
32. How will schools/LEAs report these graduates to the Division of School Business? Will it be included with the other graduate data?

The diploma archive data will be submitted separately from the regular graduation data. LEAs are required to submit the Electronic Diploma Archive by the deadline date established for the annual data collection of high school graduates. See question 30 for link to form.

The Electronic Diploma Archive spreadsheet should be faxed to:
The North Carolina Department of Public Instruction
