

### **Acknowledgements**

The development of a comprehensive document that contains student and school system performance on Grade 3 Pretests, End-of-Grade, High School Comprehensive tests, and End-of-Course tests requires the skill and efforts of many individuals. We would like to thank Mildred Bazemore and Stephen Blackwelder for their assistance in preparing all phases of this publication; George Stubblefield and Betty Marsh for supplying the statistical data; Karen Eller, for creating the tables and figures, and Andrea Barefoot, Anthony Wells, and Katie McCann for verifying accuracy of the numbers and editing.

### **Notice**

The performance results presented in this report are based on **preliminary data**. The reader is referred to the notes accompanying each table or figure. These notes indicate the revision date of the data used for that table or figure. Further corrections may be made to school system data after the date of this report's release. The North Carolina Department of Public Instruction will release a more complete report of State Testing Results (the "Green Book"), after data have been finalized.

## Abstract

### The 1998-99 North Carolina Preliminary State Testing Results Grade 3 Pretest, End-of-Grade, High School Comprehensive, and End-of Course Multiple-Choice Tests

#### Background

- Beginning in the 1992-93 school year, the North Carolina State Board of Education authorized administration of North Carolina-developed end-of-grade tests aligned with the *Standard Course of Study*. These state-normed tests were administered to over 568,000 students in grades 3 through 8 at the end of the 1998-99 school year.
- End-of-course tests measure achievement on curricular goals and objectives with an emphasis on higher-order thinking skills. Multiple choice tests were administered in Algebra I; Algebra II; Biology; Chemistry; Economic, Legal and Political Systems (ELP); English I; Geometry; Physical Science; Physics and U.S. History to over 630,000 students during the 1998-99 school year.
- Grade 3 Pretest in reading and mathematics was administered to more than 98,000 students in the beginning of the 1998-99 school year. This is the third year of the administration of this test which provides pre-scores for third graders for use in the ABCs Accountability Program. The Pretest at grade 3 measures the knowledge and skills specified for grade 2. Student scores on this test are used to measure student growth in performance during the third grade year in the areas of reading and mathematics.
- The high school comprehensive test in reading and mathematics was first administered in 1997-98 to all students in grade 10. The test is used to measure student growth in achievement in reading and mathematics since completion of grade 8. It was administered to more than 75,000 students during the 1998-99 school year.

#### Grade 3 Pretest Findings

- These preliminary results show that 67.5 percent of students entering third grade scored at or above Achievement Level III on the *reading* pretest while 75.0 percent scored at or above Achievement Level III on the *mathematics* pretest. The percent of students scoring at or above Achievement Level III on the Grade 3 Reading Pretest in 1998-99 increased 2.2 percentage points from 1997-98. The percent of students scoring at or above Achievement Level III on the Grade 3 Mathematics Pretest in 1998-99 increased 3.5 percentage points from 1997-98.
- Disparities in performance among subgroups were noted in these preliminary results. In *reading*, the American Indian (53.3%), Black (54.0%), and Hispanic (55.0%) subgroups had lower percentages performing at Achievement Level III or above than the Multi-Racial (71.3%), Asian (73.1%) and White (74.9%) subgroups in these preliminary data. In *mathematics*, the American Indian (60.9%), Black (61.0%), and Hispanic (65.8%) subgroups had lower percentages

performing at Achievement Level III or above than the Multi-Racial (77.8%), White (82.4%), and Asian (84.3%) subgroups.

### **End-of-Grade Findings**

- Preliminary data from 1998-99 suggest the percentage of students in grades 3-8 performing at Achievement Level III and above in reading and mathematics combined continues to grow, from 52.9 percent in 1992-93 to an estimated 69.1 percent in 1998-99.
- In these preliminary data, mean scale scores for reading increased at least slightly from 1997-98 to 1998-99 at every grade level except grade 5 (remained the same). Preliminary mean scale scores for mathematics increased somewhat at every grade level. On average, student performance increased on end-of-grade testing every year.
- A higher percentage of females (72.1%) than males (66.2%) scored at or above Achievement Level III in these preliminary data. This follows a consistent trend established with the 1992-93 school year's testing.
- Disparities in performance were present among subgroups. The Black (48.5%), Hispanic (55.5%), and American Indian (55.6%) subgroups had lower percentages performing at Achievement Level III or above than the Multi-Racial (70.4%), Asian (75.0%) and White (79.2%) subgroups in these preliminary data.

### **High School Comprehensive Findings**

- These preliminary results show that 61.1 percent of students taking the high school comprehensive test scored at or above Achievement Level III in *reading* while 61.4 percent scored at or above Achievement Level III in *mathematics*. The percent of students scoring at or above Achievement Level III on the high school comprehensive test in reading in 1998-99 increased 5.5 percentage points from 1997-98. The percent of students scoring at or above Achievement Level III on the high school comprehensive test in mathematics in 1998-99 increased 6.5 percentage points from 1997-98.
- Disparities in performance among subgroups were noted in these preliminary results. In *reading*, the Black (38.4%), American Indian (42.8%), and Hispanic (48.5%) subgroups had lower percentages performing at Achievement Level III or above than the Asian (60.2%), Multi-Racial (65.8%), and White (71.1%) subgroups in these preliminary data. In *mathematics*, the Black (36.8%), American Indian (45.0%), and Hispanic (50.2%) subgroups had lower percentages performing at Achievement Level III or above than the Multi-Racial (60.5%), Asian (70.7%), and White (71.9%) subgroups in these preliminary data.

**End-of-Course Findings**

- A higher percentage of females than males performed at Achievement Level III or above in Algebra I and English I in these preliminary data. More males than females scored at or above Achievement Level III on Algebra II, Biology, Chemistry, ELP, Geometry, Physical Science, Physics, and U.S. History end-of-course testing.
- Performance among subgroups varied while tending to be relatively consistent across subjects in these preliminary data. The Asian subgroup had highest performance on Algebra I, Algebra II, Chemistry, and Physics. On Biology, ELP, English I, Geometry, and Physical Science, the White subgroup had the largest percentage scoring at Achievement Level III or above. On U.S. History, the Multi-Racial subgroup had the largest percentage scoring at Achievement Level III or above. On most of the end-of-course tests the Hispanic, American Indian, and Black subgroups had the lowest percentages of students performing at or above Level III. The Hispanic subgroup had somewhat better performance than the American Indian subgroup, which in turn had somewhat better performance than the Black subgroup.

**Students with Limited English Proficiency**

- Among students meeting the Limited English Proficiency requirement, the highest average performance was on Physics, with 68.8 percent scoring at Achievement Level III or above. Performance on Algebra I was very similar, with 68.3 percent scoring Level III or above. Algebra II (59.3%), Chemistry (46.0%), Geometry (38.9%), U.S. History (26.0%), ELP (25.0%), Biology (24.3%), English I (23.7%) and Physical Science (23.0%) saw lower percentages of these students scoring at Level III or above in these preliminary data.

## Introduction

*The 1998-99 North Carolina Preliminary State Testing Results* provides information on student performance at the state, and limited school system levels on grade 3 multiple-choice pretest (reading and mathematics), end-of-grade (grades 3-8 in reading and mathematics) multiple-choice tests, high school comprehensive multiple-choice test (reading and mathematics), and end-of-course (high school subjects) multiple-choice tests administered in 1998-99 as components of the North Carolina Testing Program. The figures and tables in this document were generated using preliminary student test data from the grade 3 pretest fall 1998 test administration, the end-of-grade spring 1999 test administration, the high school comprehensive spring 1999 test administration, and from the end-of-course summer 1998, fall 1998, and spring 1999 test administrations. (These preliminary test data are in the process of being reconciled with school systems' test data for the 1998-99 school year.)

The general focus of the *Preliminary State Testing Results* is on student *performance* on multiple-choice tests administered during the 1998-99 school year. However, many data are reported across years in order to show gains in student performance. Student *performance* and *growth* are the key components of the State Board of Education's ABCs of Public Education school-level accountability program. School-level accountability results are found in the *State Report Card*, which is published annually.

Preliminary state and system-level results contained within this document may be used to make grade-to-grade, subject-to-subject, and year-to-year comparisons. In addition, comparisons of developmental scale scores of cohort groups as they move through grades 3-8 in reading and mathematics can be made. A variety of statistical descriptions, test scores, and formats have been used to present the aggregate preliminary student data using mean scores, the percent of students identified at the four achievement levels, and the percent of students identified as Achievement Level III or above on the grade 3 pretest, end-of-grade tests in grades 3-8, the high school comprehensive test, or end-of-course multiple-choice tests.

In addition to the summary statistics, this document contains disaggregated preliminary test results for subgroups for the grade 3 pretest, end-of-grade tests, high school comprehensive test, and end-of-course multiple-choice tests. The state-level goal summary reports serve as a curriculum reference of student performance on the curriculum goals across grades and subjects. These results represent average student performance on the curriculum competencies measured in the revised North Carolina *Standard Course of Study*. The frequency distributions provide preliminary state-level summary statistics for 1998-99.

The purpose of this publication is to provide a timely report on student performance on the grade 3 pretest, end-of-grade tests in grades 3-8, high school comprehensive test, and end-of-course multiple-choice tests from 1991 to 1999 with a focus on preliminary reports of 1998-99 school year performance. The *State Testing Results*, to be released in the near future, will serve as the authoritative and comprehensive compendium of student performance on grade 3 pretest, end-of-grade tests, and high school comprehensive test, increasing in particular this document's summary treatment of end-of-course multiple-choice tests.

<b>105-117</b>	<b>118-125</b>	<b>126-134</b>	<b>135-154</b>

Notes: Percents are rounded to the nearest tenth. Due to rounding, data may not add to 100%.  
Data received from LEAs after July 26, 1999 are not included in this table.

**Figure 1. 1997-98 to 1998-99 Grade 3 Pretest Multiple-Choice Results** **PRELIMINARY**

**Percent of Students at or above Level III in Reading**

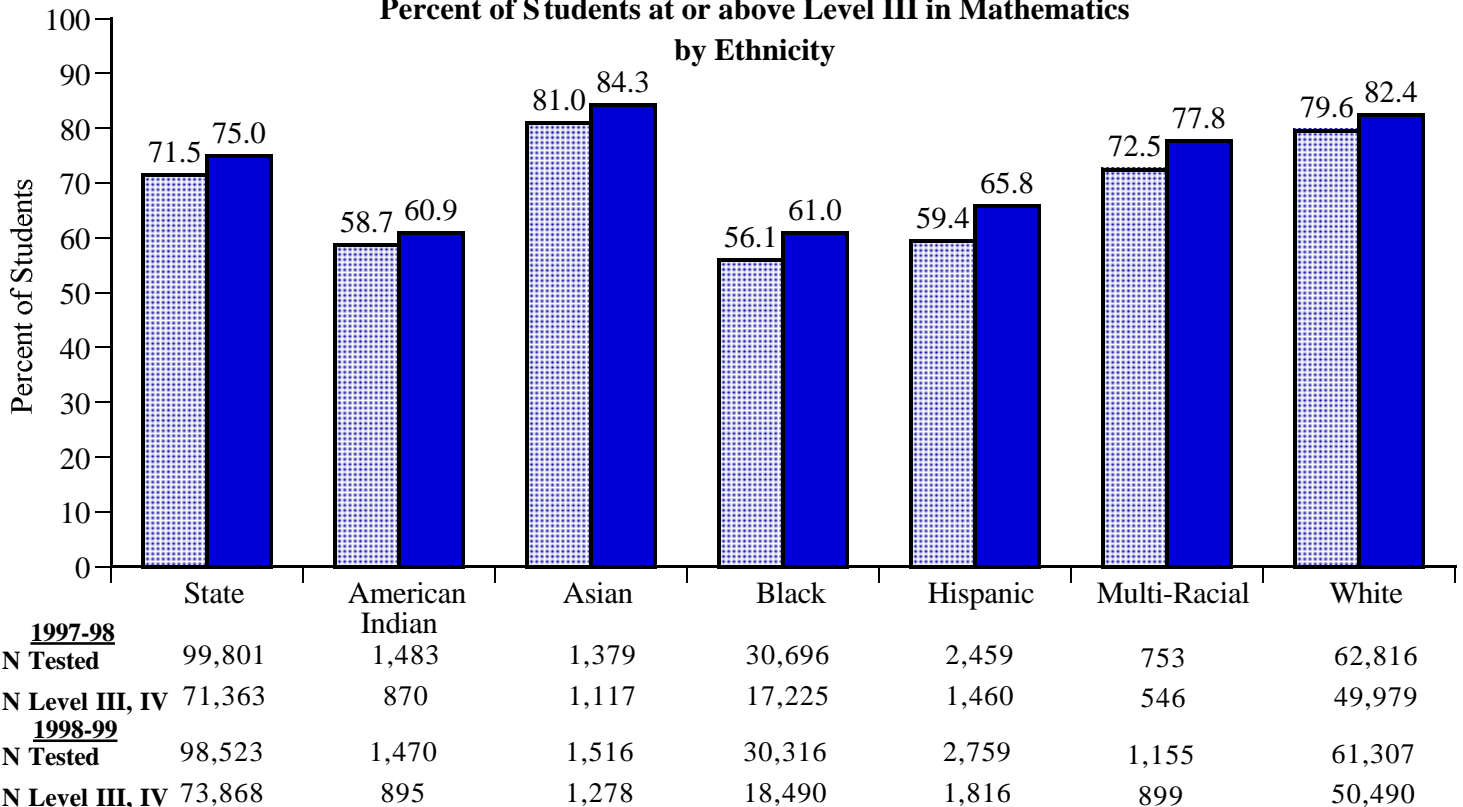

**by Ethnicity**

**Figure 2. 1997-98 to 1998-99 Grade 3 Pretest Multiple-Choice Results**

**Percent of Students at or above Level III in Mathematics**

**by Ethnicity**

Notes: "N Tested" and "N Level III, IV" for the ethnicity categories do not sum to the "N Tested" and "N Level III, IV" for the state because some students did not report their ethnicity and therefore were reported in the state data only.  
Data received from LEAs after July 26, 1999 are not included in these figures.

**Table 4. 1998-99 Grade 3 Pretest Goal Summary Report****PRELIMINARY  
RESULTS**

	Developmental Score Mean	Number of Observations*	# of Items	Percent Correct**
READING (Average of Averages)	138.1	99,897	28	
GOAL 1: Use strategies and processes that enhance control of communications skills development.				0
GOAL 2: Use language for the acquisition, interpretation, and application of information.			70	51.3
OBJ 2.1: Identify, collect or select information and ideas.			31	55.3
OBJ 2.2: Analyze, synthesize, and organize information and ideas and discover related ideas, concepts or generalizations.			33	49.2
OBJ 2.3: Apply, extend, and expand on information and concepts.			6	41.7
GOAL 3: Use language for critical analysis and evaluation.			14	34.3
MATHEMATICS (Average of Averages)	130.9	100,140	40	
Math Computation			15	84.7
Math Applications			105	53.7
GOAL 1: Identify and use numbers to 100 and beyond.			24	68.1
GOAL 2: Understanding and use of geometry.			9	69.5
GOAL 3: Understanding of classification, pattern, and seriation.			18	49.2
GOAL 4: Understand and use standard units of metric and customary measure.			18	57.3
GOAL 5: Use mathematical reasoning and solve problems.			18	39.2
GOAL 6: Understand data collection, display, and interpretation.			11	39.8
GOAL 7: Compute with whole numbers.			22	72.1
NUMBER OF STUDENTS TAKING FORM	A ----- 33,434	B ----- 33,280	C ----- 33,183	

Notes: \*\*"Number of Observations" includes students who attempted at least one item on the test.

\*\*\*"Percent Correct" is the number of correct responses to an item divided by the number of students who took that item summed over all items for a goal or objective divided by the number of items for that goal or objective.

Data received from LEAs after August 4, 1999 are not included in this table.

Preliminary  
End-of-Grade Results

**Figure 1. 1992-93 to 1998-99 End-of-Grade Multiple-Choice Test Results**  
**Percent of Students at or above Level III in Both Reading and Mathematics**  
**Grades 3-8 Combined**

**Figure 2. 1992-93 to 1998-99 End-of-Grade Multiple-Choice Test Results**  
**Percent of Students at or above Level III in Both Reading and Mathematics**  
**Grades 3-8 Combined, for Black and White Students**

Notes: The inclusion of Black and White ethnic groups in this figure reflects their status as the largest ethnic groups in the state.  
 \*N counts equal the number of students at or above level III in both reading and mathematics for 1998-99. Previous years are comparable.  
 Data received from LEAs after July 16, 1999 are not included in these figures.

**Figure 3. 1992-93 to 1998-99 End-of-Grade Multiple-Choice Test Results  
Percent of Students at or above Level III in Both Reading and Mathematics  
Grades 3-8 Combined, By Ethnicity**

**PRELIMINARY  
RESULTS**

Notes: Asian and Hispanic results were not reported in 1992-93. Multi-Racial results were not reported in 1992-93, 1993-94, and 1994-95.  
\*N counts equal the number of students at or above Level III in both reading and mathematics for 1998-99. Previous years are comparable.  
Data received from LEAs after July 16, 1999 are not included in this figure.

Limited English Proficient	1,272	1.3	37.0	142.0	147.0	

Notes: \*No scores are reported for groups with fewer than thirty students.

<sup>1</sup>Percent for "Not Exceptional" through "Other Exceptional Classifications" is based on the sum of the students in those categories.

Percent for "Limited English Proficient" and "Section 504" is based on the number tested in the "All Students" category.

<sup>2</sup>The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics.

The "All Students" and "Not Exceptional" categories are added for the purpose of comparison.

All data rounded to the nearest tenth, therefore exceptional categories may not sum to 100%.

"Number Tested" is the number of students who took the end-of-grade test in reading.

Data received from LEAs after July 16, 1999 are not included in this table.

<sup>1</sup>The standard for grade-level proficiency is a test score at Level III or above on end-of-grade tests in reading and mathematics. Modifications are available for students with disabilities, limited English proficiency, or temporary disabilities.

All data rounded to the nearest tenth, therefore modification categories may not sum to 100%.

"Number tested" is the number of students who took the end-of-grade test in reading.

Data received from LEAs after July 16, 1999 are not included in this table.

	Developmental Score Mean	Number of Observations*	# of Items	Percent Correct**
READING (Average of Averages)	146.4	100,414	56/55 <sup>†</sup>	
GOAL 1: Use strategies and processes that enhance control of communications skills development.			0	
GOAL 2: Use language for the acquisition, interpretation, and application of information.			131	66.1
OBJ 2.1: Identify, collect or select information and ideas.			62	68.0
OBJ 2.2: Analyze, synthesize, and organize information and ideas and discover related ideas, concepts or generalizations.			50	63.8
OBJ 2.3: Apply, extend, and expand on information and concepts.			19	66.2
GOAL 3: Use language for critical analysis and evaluation			36	55.5
MATHEMATICS (Average of Averages)	142.9	100,909	80	
Math Computation			36	86.4
Math Applications			204	67.9
GOAL 1: Identify and use numbers to 1000 and beyond.			24	64.9
GOAL 2: Understand and use of geometry.			24	73.1
GOAL 3: Understand classification, pattern and seriation.			24	66.4
GOAL 4: Understand and use standard units of metric and customary measure.			36	70.2
GOAL 5: Use mathematical reasoning and solve problems.			36	60.8
GOAL 6: Understand data collection, display, and interpretation.			24	66.5
GOAL 7: Compute with whole numbers.			72	79.6
NUMBER OF STUDENTS TAKING FORM	O ----- 33,519	P ----- 33,617	Q ----- 33,278	

Notes: <sup>†</sup>Reading forms O and Q contain 56 questions. Form P contains 55 questions.

\*\*"Number of Observations" includes students who attempted at least one item on the test.

\*\*\*"Percent Correct" is the number of correct responses to an item divided by the number of students who took that item summed over all items for a goal or objective divided by the number of items for that goal or objective.

Data received from LEAs after July 30, 1999 are not included in this table.

**Table 18. 1998-99 End-of-Grade Grade 4 Goal Summary Report**

	Developmental Score Mean	Number of Observations*	# of Items	Percent Correct**
READING (Average of Averages)	149.5	97,911	65	
GOAL 1: Use strategies and processes that enhance control of communications skills development.			0	
GOAL 2: Use language for the acquisition, interpretation, and application of information.			159	64.6
OBJ 2.1: Identify, collect or select information and ideas.			68	70.3
OBJ 2.2: Analyze, synthesize, and organize information and ideas and discover related ideas, concepts or generalizations.			67	62.5
OBJ 2.3: Apply, extend, and expand on information and concepts.			24	54.5

Behaviorally-Emotionally Handicapped	360	0.5	16.4	15.0	153.3	161.8
Hearing Impaired	76	0.1	21.1	27.6	157.4	165.5
Educable Mentally Handicapped	688	0.9	2.2	1.9	148.9	157.4
Specific Learning Disabled	3,163	4.2	22.6	27.8	155.3	166.2
Speech-Language Impaired	53	0.1	26.4	26.0	156.5	164.6
Visually Impaired	27	0.0	*	*	*	*
Other Health Impaired	437	0.6	32.5	30.7	158.1	166.6
Orthopedically Impaired	40	0.1	25.0	30.0	158.2	167.1
Traumatic Brain Injured	22	0.0	*	*	*	*
Other Exceptional Classifications	164	0.2	44.5	44.7	160.6	172.5
Section 504	418	0.6	44.3	45.0	161.2	171.9
Limited English Proficient	482	0.6	16.6	33.5	154.7	168.2

Notes: \*No scores are reported for groups with fewer than thirty students.

<sup>1</sup>Percent for "Not Exceptional" through "Other Exceptional Classifications" is based on the sum of the students in those categories.

Percent for "Limited English Proficient" and "Section 504" is based on the number tested in the "All Students" category.

"Not Exceptional", "Academically Gifted", and "Students with Disabilities" do not sum to "All Students" because some students did not indicate whether or not they were classified exceptional. The "All Students" and "Not Exceptional" categories are added for the purpose of comparison.

All data rounded to the nearest tenth, therefore exceptional categories may not sum to 100%.

"Number Tested" is the number of students who took the end-of-grade test in reading.

Data received from LEAs after July 16, 1999 are not included in this table.

Notes: \*No scores are reported for groups with fewer than thirty students.  
 Modifications reported may have been implemented only for reading, only for mathematics, or for both portions of the test.  
 Modifications are available for students with disabilities, limited English proficiency, or temporary disabilities.  
 All data rounded to the nearest tenth, therefore modification categories may not sum to 100%.  
 "Number tested" is the number of students who took the end-of-grade test in reading.  
 Data received from LEAs after July 16, 1999 are not included in this table.

Notes: "N" is the number of students who took the end-of-grade test in reading.  
Data received from LEAs after July 16, 1999 are not included in this table.

**Table 7. 1998-99 North Carolina High School Comprehensive Test  
Goal Summary Report**

	Developmental Score Mean	Number of Observations*	# of Items	Percent Correct**
<b>READING (Average of Averages)</b>	164.8	75,498	71	
GOAL 1: Use strategies and processes that enhance control of communications skills development.			18	64.6
GOAL 2: Use language for the acquisition, interpretation, and application of information.			163	55.5
OBJ 2.1: Identify, collect or select information and ideas.			54	59.4
OBJ 2.2: Analyze, synthesize, and organize information and ideas and discover related ideas, concepts or generalizations.			72	53.2
OBJ 2.3: Apply, extend, and expand on information and concepts.			37	54.2
GOAL 3: Use language for critical analysis and evaluation.			32	59.5
OBJ 3.1: Assess the validity and accuracy of information and ideas			4	
OBJ 3.2: Determine the value of information and ideas			13	67.0
OBJ 3.3: Develop criteria and evaluate the quality, relevance, and importance of the information and ideas			15	53.3
<b>MATHEMATICS (Average of Averages)</b>	176.3	75,365	70	
GOAL 1: Numerical Relationships			21	58.4
OBJ 1.1: Perform operations with real numbers			3	
OBJ 1.2: Solve problems involving number theory			9	60.2
OBJ 1.3: Solve problems using ratios, proportions, and percents			9	49.8
GOAL 2: Growth and Measurement			63	44.6
OBJ 2.1: Geometric problems using two and three-dimensional shapes			18	51.3
OBJ 2.2: Solve problems using properties of angles, lines, and planes			9	55.8
OBJ 2.3: Solve problems using perimeter, area, and volume formulas			15	32.6
OBJ 2.4: Solve problems using right triangle relationships			12	38.6
OBJ 2.5: Transform polygons in the coordinate plane			9	47.9
GOAL 3: Algebraic Concepts			72	48.7
OBJ 3.1: Use the language of algebra and formulas to solve problems			13	55.2
OBJ 3.2: Demonstrate an understanding of relations and functions			12	54.5
OBJ 3.3: Graph and use linear equations and inequalities			14	47.7
OBJ 3.4: Solve problems that involve nonlinear equations			14	43.4
OBJ 3.5: Use an appropriate method to solve problems involving systems of equations and inequalities			14	39.4
OBJ 3.6: Perform operations with polynomials			5	61.1
GOAL 4: Data Analysis			54	43.7
OBJ 4.1: Solve real world problems using statistics			23	55.5
OBJ 4.2: Solve real world problems using probability			21	37.7
OBJ 4.3: Fit a line or curve to a set of data			10	29.5
	A	B	C	
NUMBER OF STUDENTS TAKING FORM	----- 25,242	----- 25,136	----- 25,120	

Notes: \*\*"Number of Observations" includes students who attempted at least one item on the test.

\*\*\*"Percent Correct" is the number of correct responses to an item divided by the number of students who took that item summed over all items for a goal or objective divided by the number of items for that goal or objective.

Data received from LEAs after August 4, 1999 are not included in this table.

87

Notes: The year of implementation is listed below the subject. Beginning in 1993-94, where possible, scores for the entire accountability year are reported. The 1995-96 data are based on all cycles of testing for the July 1 to June 30 accountability year. Algebra I was scaled in 1993-94, and U.S. History, English I, and Biology in 1994-95 and 1995-96. Bold vertical lines between years indicate that the scores changed from mean raw core scores to mean scale scores and therefore, are not comparable across years separated by the bold vertical lines. Numbers to the left of these lines are mean raw core scores and numbers to the right are mean scale scores. From 1995-96 to 1997-98, five tests were administered statewide in the five high school subject areas. Other end-of-course multiple-choice tests were administered as a local option and are not depicted in this report. In 1998-99 the ten tests in the table above were mandated statewide. Data for 1995-96 through 1997-98 are not available for Algebra II, Chemistry, Geometry, Physical Science, and Physics as these tests were not mandated during this period.

<sup>1</sup>Participation Index is the number of students enrolled in the course, divided by the number of students who were in the eighth grade the year in which typical students in the course were in grade eight.

For example, since English I is typically a ninth-grade course, the eighth grade membership for the previous year is the denominator.

<sup>2</sup>The Algebra I score in 1993-94 and the Biology, English I, and U.S. History scores in 1994-95 are the mean scale scores.

<sup>3</sup>Average core score is the mean raw score on the common items for all students.

Data received from LEAs after July 16, 1999 are not included in this table.

**PRELIMINARY  
RESULTS**

**Table 2. 1998-99 End-of-Course Multiple-Choice Test Results  
Performance of Exceptional Students and Students with Limited English Proficiency  
by Subject**

<b>Subject</b>	<b>Category</b>	<b>Number Tested</b>	<b>Percent**</b>	<b>Percent at or above Level III</b>	<b>Mean Scale Score</b>
