Foreign Language in the Elementary School

Task 3

Songs

Your class has been singing songs in the language you're learning. Choose one of the songs (song, rhyme, or chant) that you have learned in class and pair it up with a song, rhyme, or chant that you know in English.

Your Task:

Compare the two songs that you chose. In the language you're learning, write a report to share your comparison with the class.

In your report, be sure to include:

- Similarities between the foreign language song and the English song that you chose, and
- Differences between the foreign language song and the English song that you chose.

Your report should not be longer than two pages.
