

NCEXTENDI—Grade 11

Student Report for School Year 2012–2013

The *NCEXTENDI* Grade 11 Alternate Assessment is a performance-based alternate assessment designed to assess students with significant cognitive disabilities. *NCEXTENDI* Alternate Assessment items are grade-level performance items that measure the standards specified in the North Carolina Extended Common Core and Essential Standards. These Extended Content Standards are available for download at <http://www.ncpublicschools.org/curriculum/ncecs>.

The NC READY *NCEXTENDI* Student Report is divided into three columns. The first column on the left contains your student's achievement level descriptor. The second column in the middle lists your student's scores, and the third column on the right provides a comparison of your student's total score.

Column 1: Student's Achievement Level Descriptor

The **achievement level descriptor** indicates what knowledge, skills, and abilities your student demonstrated based on his or her level of achievement on the test. This report contains a partial description of your student's achievement level. A complete listing of the achievement level descriptions can be found at the North Carolina Department of Public Instruction/Accountability Services Division website at <http://www.ncpublicschools.org/accountability/>.

Column 2: Student's Scores

- Your student's grade level is the **assessed grade**.
- There are 15 items (i.e., 5 English language arts items, 5 mathematics items, and 5 science items) on the *NCEXTENDI* Grade 11 Alternate Assessment. Students are provided up to two opportunities to respond to each item, and items are scored on a 0–2 point scale. The number of questions your student answered correctly is reported as the **total score**. Your student received a combined score for English language arts/reading, mathematics, and science.
- There are four **achievement levels** reported (i.e., 1, 2, 3, and 4). Your student is assigned an achievement level based on his or her total score. Proficiency is a test score at achievement level 3 or 4.

Column 3: Total Score Comparisons

The **student** bar shows your student's total score compared to the total range of possible scores (i.e., 0-30).
