

Acquiring Staff IDs for Non-Payroll Staff

The steps outlined below are the process by which you will add and edit non-payroll staff to the UID Staff system to retrieve a Staff ID. This is only to be used for staff who are not included in the LEA's payroll system and who need to be issued a Staff ID. Staff loaded through the payroll file to UID should not be edited and updated using this process.

It is recommended that you maintain a listing of staff that has been added into the UID Staff system for tracking purposes. If any of these staff have changes to the data entered, it is recommended that the data be updated in the UID Staff system.
