I. MISSION, PURPOSES and EDUCATIONAL FOCUS (G.S.115C-238.29A)

MISSION:

The mission of the proposed charter school is as follows:

The mission of the Bear Grass Charter School, Inc. in partnership with family and community, is to enhance the quality of life of all students by ensuring they possess the competencies to achieve academic success in a technological world. Our collaboration with East Carolina University will strengthen the focus on mathematics and science throughout the curriculum.

EVIDENCE FOR NEED OF THE PROPOSED SCHOOL WITH THE SELECTED MISSION:

The Bear Grass Charter School, Inc. will prepare students to enter and become successful in a diverse and technological society. We seek to actively engage all learners with “learning by doing” educational opportunities and experiences that will be unique to our comprehensive instructional program of study.

With our association with the School of Education at East Carolina University, our teachers and students will be given unique and diverse opportunities designed to strengthen and enhance the educational program for each individual learner associated with our scholastic community.

National educational studies reference the critical shortage of high school and college graduates proficient within the areas of science and math. Our school will focus on the math and science curriculum areas to help meet the demand for a well trained and skilled labor force to serve northeastern North Carolina by initiating students with the occupational and employment opportunities and the criteria needed for those experiences throughout the middle grade curriculum. We believe students who are motivated to learn more and naturally apply themselves at an earlier age will promote and actively involve themselves within their individual program of study incorporating project based learning and peer mentoring throughout all instructional areas.

Martin County, like much of eastern North Carolina, is economically depressed. In our area of the county, 41.7% of individuals under the age of 18 and 44.4% of individuals over the age of 64 live below the poverty level. These statistics speak directly to lack of job opportunities for our high students and the need for resources that overcome the barriers to educational opportunities that expand and/or create greater potential for quality, sustainable employability. Bear Grass is located about 20 miles from Greenville, which has the most vigorous economy in our region. Greenville has considerable job opportunities for college graduates with degrees in math and science which include a thriving pharmaceutical industry, engineering positions with manufacturers, and medical and scientific research positions with the East Carolina University Medical School, just to name a few. It is well documented that our state, along with our entire nation, has a serious shortage of students who pursue education in math and science. Math and science test scores among our high school students continue to drop while opportunities for careers in these areas continue to grow. Our goal will be to produce more students pursuing college degrees in STEM fields in an effort to address the shortages in these areas and to raise the potential for quality, sustainable employment.
PURPOSES OF PROPOSED CHARTER SCHOOL:

State the relationship between the six legislated purposes, as specifically addressed in the NC charter school statute GS 115C-238.29A, and the proposed school’s operations.

1. IMPROVE STUDENT LEARNING

The teaching methodologies to be used have been proven through research as the most effective teaching practices in terms of positively impacting student learning for all students regardless of level of performance, learning style, or type of exceptionality. Those best teaching practices are basic to student learning. Those to be incorporated into daily lesson plans will be designed to be consistent with the principles of child and adolescent growth and development. They include, but are not limited to the following:

- Use measurable data for planning;
- Use multiple representations and multiple intelligences to enhance student learning;
- Implement Thematic/Interdisciplinary Teaching Units
- Employ concrete, experiential learning
- Create a community-centered environment
- Help students make connections
- Create learning environments that are interconnected
- Encourage students to think about thinking
- Ask students questions that probe understanding, routinely
- Design instruction so that students engage in routine practice in internalizing and applying the concepts they are learning
- Use Socratic/seminar teaching
- Implement process evaluation
- Employ direct and indirect assessment
- Increase learning opportunities for all students, with special emphasis on expanded learning
- Create meaningful experiences for students who are identified as at risk of academic failure or academically gifted

2. INCREASE LEARNING OPPORTUNITIES FOR ALL STUDENTS, WITH SPECIAL EMPHASIS ON EXPANDED LEARNING EXPERIENCES FOR STUDENTS WHO ARE IDENTIFIED AS AT RISK OF ACADEMIC FAILURE OR ACADEMICALLY GIFTED

The following instructional practices, in addition to those cited above, will be used on a regular basis and provide for expanded learning opportunities for at risk and academically gifted students:

- Project Learning;
- Portfolio Assessment (Quality Work Products);
- All teachers actively teaching through the theories of multiple intelligences;
- Extended afternoon hours for the library;
- One-on-one tutoring during school and after school;
- One-on-one teacher/parent academic planning;
- Participation in local, district, and state math and science competitions;
- Peer mentorship;
- On-line college courses;
• All teachers utilize the ideas of multiple representations to express ideas;
• Partnerships with parents and community.

3. **ENCOURAGE THE USE OF DIFFERENT AND INNOVATIVE TEACHING METHODS**

In addition to the different and innovative teaching methods delineated above, mathematics and science will be infused throughout all subject areas. Through collaboration with East Carolina University, innovative teaching methods will be implemented with a focus on mathematical and scientific applications.

Staff development will focus on curriculum integration, the development of rigorous, relevant, and meaningful tasks, multiple intelligences, and the use of multiple representations to explore similar concepts.

Character Education will serve as a focal point for instructional activities in each core academic area. Opportunities will be provided within each curriculum area and through a unique student government structure to reinforce and foster the principle traits that made this nation and state such great places to live and work.

4. **CREATE NEW PROFESSIONAL OPPORTUNITIES FOR TEACHERS, INCLUDING THE OPPORTUNITIES TO BE RESPONSIBLE FOR THE LEARNING PROGRAM AT THE SCHOOL**

For students to succeed, teachers and support staff must be allowed to succeed. Teachers and support staff selected for the school will both understand and be committed to implementing the instructional practices essential for successful student performance. These will be provided through pre-employment and continuing professional development programs that challenge them to model the importance of lifelong learning to their students. Through participation in a personal professional growth program, each staff member will maximize his or her skills on a continuous basis and serve as a valued team member for their colleagues. Each teacher will also be provided a laptop computer and a choice of employment incentives to reinforce the importance of total responsibility for the learning program of the school.

5. **PROVIDE PARENTS AND STUDENTS WITH EXPANDED CHOICES IN THE TYPES OF EDUCATIONAL OPPORTUNITIES THAT ARE AVAILABLE WITHIN THE PUBLIC SCHOOLS**

Parents of each child enrolled in the school will be asked to sign an agreement with the school indicating that they are willing to serve in one or more committee capacities as a volunteer. In addition to involvement in a minimum of one school related activity, parents will be encouraged to take advantage of one or more of the following activities:

• Enrollment in short courses designed to assist them in better understanding activities in which students are participating at school;
• Computer applications at school, home and work;
• How to assist your child with homework;
• Other programs of interest designed to specifically address needs identified by parents;

Students would have an opportunity to participate in:

• Expanded course offerings currently not available to them;
• Advanced Placement and Honors Courses;
• Internships;
• Community Service or Research Project in a designated area of study.
6. ACCOUNTABILITY FOR MEETING STUDENT ACHIEVEMENT RESULTS AND PROVIDING THE SCHOOLS WITH A METHOD TO CHANGE FROM RULE-BASED ACCOUNTABILITY SYSTEMS

Each student enrolled in the school will be evaluated using the State required end of grade and end of course tests, Vocational Competency Tracking System and other testing measures which may, from time to time be required by the State. In addition, all students enrolled in Advanced Placement and honors will take tests in these areas. All teachers will utilize pretests and benchmark tests to adjust student instruction.

Annually, parent, student and employee Climate or Satisfaction Instruments will be administered and reported to all constituents so as to facilitate providing an optimal quality environment. All test results will be compared with other charter schools and public schools within the county, region and state.

EDUCATIONAL FOCUS:

Describe briefly, limited to one page, the focus of the proposed charter school. This description will be used in public releases of information to interested parties, such as: the media, the State Board of Education, parents, school systems, and in various documents produced by the Office of Charter Schools. It must be concise and relate directly to the mission of the school.

The Bear Grass Charter School, Inc. will capitalize on our relatively small size, expected level of parental involvement, and the high level of support from a very close knit community alongside an established partnership with East Carolina University to offer a unique learning opportunity to all learners. Our school will focus on science and mathematics education; in an effort to increase the number of students pursuing careers in these areas, particularly teaching careers. East Carolina University will correlate successful teaching methods and pedagogy with our faculty and professional staff within these respective program areas through our articulation between the two schools which are approximately twenty-miles apart.

In our grades 6 through 12 school, an early focus will be developed for the 6, 7, and 8 grades to make math and science more fun, more exciting, and more relevant to their world. Students will have hands-on laboratory time in science to create interest. We believe that children simply do not get “turned on” to science and math at this formative age. Once they get the desire to learn more, we hope they will take the college prep classes in high school. In high school, other than the standard science classes, junior and senior students will have the options to take a special topics/seminar science class for a semester that will be broken into three mini-courses. Outside lecturers from ECU will participate in these classes. We will attempt to offer this once per year. We also hope to offer advanced classes in chemistry, biology, and calculus. The plan would be to make these classes available to other Martin County students. To make this focus on science and math possible, recruitment of high quality teachers will be a major challenge. The fact that we are a small school with a focus on science and math, close to Greenville, will make that challenge easier to attain. The teachers will have more than the typical opportunity to be role models in this focused environment.

(l) The Board of Directors reserves for itself all other duties, responsibilities, and powers, not inconsistent with Chapter 115C or the regulations of the State Board of Education.

6. Explain the decision-making processes the board will use to develop school policies.

The Bear Grass Charter School, Inc. Board of Directors is committed to the dissemination of knowledge, the engendering and development of skills, competencies and understandings, and to the nurture of sound and enduring personal and intellectual habits and attitudes. To that end, it shall be the purpose of the Board of Directors at all times to ensure that all employees of all classifications in the Charter School shall be of such character, habits, philosophy, qualifications, experience, and competence that their influence upon students, each other, and upon the various publics of the Charter School is wholesome and constructive.
Members of the Board of Directors will encourage development of policies designed to maintain this environment and to further excellence and quality in charter school education, recognizing that all policy decisions should reflect this commitment, enhance the school environment and accomplish the school’s stated mission. All policy decisions will be made only after presentation of any proposed policy and full discussion of said policy at publicly announced Board meetings. Board members will render all their decisions based on the available facts and their independent judgments, refusing to surrender that judgment to individuals or special interest groups who might wish to exert undue influence upon a member of the Board or the entire Board. The Board will protect the students and the school from any undue intrusion or influence upon its policies from political, religious, or other external bodies.

7. **Describe the organization’s performance-based goals for the charter school.** Organizational goals and measurable objectives should describe and measure the effectiveness and viability of the organization.

The Board of Directors of the Bear Grass Charter School, Inc. recognizes the success of our school lies in the success of our students. The success of our students is dependent upon the success of all the stakeholders in adhering to and fulfilling the mission, goals and objectives we have defined within the educational program, the professional development program and the parent/community involvement initiative. To that end, it is our intent to:

- create a community of learners who support each other in the educational endeavors and feel a sense of identity within the community. The school will be a “community of learners”.
- teach students how to actually use the knowledge they acquire.
- have students demonstrate attitudes and skills that support self-directed lifelong learning, personal pursuits, productivity, and conflict resolution.
- provide opportunities for students to develop the habits and values that result in concerned, confident and caring citizens.
- have teachers, as well as the school, engage in rigorous experimentation coupled with frequent self-assessment with the intent for these experimental ventures to become innovations in education.
- make parental/caregiver involvement with the school and with each other a prime attribute of the Bear Grass Charter School, Inc.
- seek to have one-hundred percent (100%) of our graduates complete their high school program of studies within a four year period of time and to graduate with a minimum of eighteen semester hours of college credit.

There will be various, comprehensive assessments (formative and quantifiable) and academic testing to measure achievements and progress of each student and our school as a whole. However, the ultimate evaluation of our success as a school will lie in ongoing assessment of the impact, individually and collectively, on the academic performance and other life outcomes of our students when compared with their counterparts who were not selected to attend the Bear Grass Charter School, Inc.

8. **Describe how the governing board will ensure that current and future board members avoid conflicts of interest.**

The Conflict of Interest Policy for Board members is given below and it is also included in the Proposed Bylaws in Article V, Section 12. The stated commitment to NC Open Meetings Law is included in Article VII, Section 7 of the Proposed Bylaws, and is also given below.
**Article V, Section 12. Majority Action as Board Action and Conflict of Interest.**

Every act or decision done or made by a majority of the directors present at a meeting duly held at which a quorum is present is the act of the Board of Directors, unless these Bylaws, or provisions of law require a greater percentage or different voting rules for approval of a matter by the board.

A member of the Board may have a conflict of interest of his or her vote on a matter before the Board if the vote is adverse to the personal, family or business interests of the Board member. If any member of the Board faces a conflict of interest in a matter pending before the Board- such member shall make full and candid disclosure to the Board of the nature of the conflict.

If one (1) or more directors present at a meeting abstain from voting on a particular motion before the Board, due to a personal conflict of interest with the subject of the motion or due to restrictions contained in these Bylaws, then the remainder of the directors shall still constitute a quorum for that particular vote and a two thirds majority of those voting directors shall be required to approve the motion.

**Article VII, Section 7. Parliamentary Rules and Open Meeting Law.**

All meetings shall be conducted in an open, orderly, and fair manner; and any guidelines established by the Institute of Government shall apply to all deliberations. All meetings of the Board shall be held in compliance with the North Carolina Open Meetings Law, N.C. General Statutes Sections 143-318.9-143-318.19. While the Board may elect not to proceed in full compliance with modified Roberts Rules of Order, those procedures may be invoked at any time for use during part or all of a particular meeting upon motion supported by a majority vote.

2. What other EMO/CMOs were pursued and why did the applicant select this particular one?

4. Explain how the contract includes measurable objectives whereby the charter school board can evaluate annually the performance of the EMO/CMO, and if necessary, terminate the contract without significant obstacles.
E. ADMISSIONS POLICY (G.S.115C-238.29B(b)(4); G.S. 115C-238.29F(d)(1))

Provide a description of the policies and the procedures for admitting students to the proposed charter school, including specific details of the enrollment lottery plan.

Bear Grass Charter School, Inc. Admissions Policy

Purpose
The purpose of this policy is to establish a set of admission requirements that will be followed by both the Bear Grass Charter School, Inc. and all applicants seeking enrollment into the charter school. These requirements were established to ensure that enrollment into the charter school is unrestricted, impartial, and equitable to all applicants.

General Admission Requirements
In accordance with North Carolina Charter School Laws, admission into the Bear Grass Charter School, Inc. is unrestricted to any student who is qualified under the laws of North Carolina for admission to a public school.

The Bear Grass Charter School, Inc. will not discriminate against any student on the basis of ethnicity, national origin, gender, or disability. Furthermore, Bear Grass Charter School, Inc. will not limit admission to students on the basis of intellectual ability, measures of achievement or aptitude, athletic ability, disability, race, creed, gender, national origin, religion, or ancestry.

Admission to the Bear Grass Charter School, Inc. will not be determined according to the school attendance area or to the local school administrative unit, in which the student resides.

During the first year of operation, the Bear Grass Charter School, Inc. will give enrollment priority to children of the initial members of the charter school's board of directors, so long as (i) these children are limited to no more than ten percent (10%) of the school's total enrollment or to 20 students, whichever is less.

The Bear Grass Charter School, Inc. will give enrollment priority to siblings of currently enrolled students who were admitted to the charter school in a previous year.

If multiple birth siblings apply for admission to Bear Grass Charter School, Inc. and a lottery is needed under G.S. 115C-238.29F(g)(6), the school will enter one surname into the lottery to represent all of the multiple birth siblings. If that surname of the multiple birth siblings is selected, then all of the multiple birth siblings will be admitted.

The Bear Grass Charter School, Inc. will give enrollment priority to children of the school's principal, teachers, teacher assistants and staff.

Notwithstanding any law to the contrary, Bear Grass Charter School, Inc. may refuse admission to any student who has been expelled or suspended from a public school under G.S. 115C-391 until the period of suspension or expulsion has expired.

Lottery
The Bear Grass Charter School, Inc. will establish an enrollment period for applications to be submitted. The enrollment period will be communicated to the public through a series of public announcements posted in the local newspaper, on fliers and on the school’s website.

During each period of enrollment, the Bear Grass Charter School, Inc. will enroll all eligible students who submit an application by the enrollment period deadline, unless the number of applications exceeds the number of available openings. When the number of applications exceeds the available openings, the Bear Grass Charter School, Inc. will conduct a lottery. The lottery is a system of random selection of applications that identifies students for enrollment.
The lottery system will be used to determine students for enrollment and to generate a waiting list. The use of the lottery is to ensure that all applicants are provided equal opportunity.

**Lottery Procedure**

1. Bear Grass Charter School, Inc. administration will determine the number of available openings for each grade level prior to the enrollment period. This will be done by requesting currently enrolled students to complete re-enrollment forms.

2. The available openings and the enrollment period will be provided to the public through a series of public announcements.

3. All applications must be received by Bear Grass Charter School, Inc. by the close of business on the deadline date or post marked by 5:00 p.m. on the deadline date.

4. After the enrollment period ends, Bear Grass Charter School, Inc. administration will review each application to:
   - verify it was received by the enrollment deadline
   - total the number of applications per grade level
   - identify applicants that have siblings already attending the charter school
   - identify multiple birth sibling (twins, triplets etc.) applications
   - identify applications with priority such as children of the principle, teachers, teaching assistants, and staff

5. Once the applications are reviewed, the applicants will be entered into a database for further tracking during the application process. A number will be assigned to each applicant. This number along with the corresponding applicant name will be placed on a card and used during the lottery drawing.

6. All applicants will receive notification by Bear Grass Charter School, Inc. that they have been placed in the lottery for enrollment. If the applicant wishes to withdraw his or her application, they must do so in writing prior to the lottery.

7. The lottery will be conducted in a public forum. All applicants will be invited and encouraged to attend the lottery proceedings. Public notice will be provided prior to the lottery proceedings.

8. The lottery drawing will be conducted by a Certified Public Accountant who is unaffiliated with Bear Grass Charter School, Inc.

9. A lottery drawing will be conducted for each grade level that has available openings.

10. Prior to the lottery drawing, the Certified Public Accountant will verify:
    - a card is present for each applicant by grade level
    - each applicant’s name and number are correct on the card
    - the card for each applicant by grade level is placed in the lottery tumbler

11. The Certified Public Accountant will draw applicant cards from the lottery tumbler for each grade level.
12. The Certified Public Accountant will record and verify the lottery results.

13. When the openings for a grade level are filled, all remaining cards in the lottery tumbler will be drawn. These names will be placed on a waiting list according to the order in which they were drawn. As openings become available, applicants will be contacted in order as they appear on the waiting list.

14. A list of applicants selected for enrollment will be available following the lottery proceedings for review by the applicants and the general public.

15. The waiting list will be available following the lottery proceedings for review by the applicants and the general public.

16. Letters are sent offering positions to students selected during the lottery. Parents must respond accepting or declining these offers. Families who are present at the lottery will be directed to pick-up their enrollment/registration packet containing their offer letter. Families who are unable to attend the lottery will receive their enrollment/registration packet in the mail.

17. Each family will be reminded that enrollment confirmation forms are due back to the school during the registration period and by the registration deadline in order to secure their place at Bear Grass Charter School, Inc.

18. Any family failing to submit the required documentation for enrollment/registration by the registration deadline will forfeit their place at Bear Grass Charter School, Inc.

19. Applicants placed on the waiting list will be contacted in order by listing if openings become available.

20. All applications received after the enrollment period deadline will be added to the end of the waiting list in order how they were received by the school.

Appeal Process
Any parent or guardian wishing to contest or appeal the lottery process can do so by contacting the Board of Directors in writing.

Following receipt of the parent’s written appeal, a representative of the Board of Directors will contact the parent to discuss the nature of the concern or objection. Final decisions regarding appeals or complaints about lottery procedures will be made by vote of the Board of Directors in an open meeting.

Audit Process
In order to maintain the integrity of the lottery, Bear Grass Charter School, Inc. will continually audit the process. This will ensure that enrollment into the charter school is unrestricted, impartial, and equitable to all applicants.
III. EDUCATION PLAN

NOTE: Answer all sections completely, include your answers in this section of the application, do not include as an appendices. Do not use “same as LEA” or “whatever the law says”. The State Board of Education shall give priority consideration to the applicants who demonstrate potential for significant, meaningful innovation in education. Give explanations. Lack of proper documentation will jeopardize the application review.

INSTRUCTIONAL PROGRAM: (G.S. 115C-238.29F (d))

Provide a detailed description of the overall instructional program, including the following:

1. Educational theory, foundation of the model, and proposed innovative offerings.

A fully integrated, multidisciplinary curriculum will be the heart of the school. The school is the heart of a community. With the resources available, the teacher is still the single most important factor that affects student performance. Teachers will create “thoughtful places” out of their classrooms where students develop the intellectual habits necessary for a successful life. Classrooms will be places where students are free to explore their ideas about the knowledge they acquire. Thus, the school will provide students with the opportunity to exercise their intellect, to think about the knowledge they are acquiring.

The school will create a community of learners who support each other in their educational endeavors. To be effective, the students must feel a sense of identity within the community. A community of learners should be concerned with the progress of all and take responsibility for each other.

Philosophies of John Dewey’s educational theory, Bill Daggett’s whole school reform, and Krutetskii’s work on mathematical abilities will be expanded upon to create meaningful, applicable, and rigorous educational experiences for all students.

The school will teach children how to actually use the knowledge they acquire. More than just application; it is the application of “thoughtful habits” such as perspective, analysis, imagination, empathy, and communication the students will receive.

Lecturing will give way to guiding and coaching. We believe that students possess multiple intelligences and that only a comprehensive education can teach to all intelligences. Both instructional activities and assessments should allow students to exhibit their strengths while developing their weaknesses. Learning will be promoted by instruction built around large, interdisciplinary units. To achieve this, school will provide substantial time for collective planning. This integrated curriculum will be vastly superior to a modular one, since when separated into distinct disciplines, education becomes disjointed.

We believe that teaching is a reflective practice, not a mere collection of snapshots. Teachers, as well as the school, should be willing to engage in rigorous experimentation coupled with frequent self-assessment. Schools, like students, should not be so afraid of failing that they fail to venture into the unknown. Education is a journey, not a destination. Hence, there will be ample opportunities and room for experimental ventures to become innovations. We believe in the words of Mortimer Adler. "The ultimate goal of the educational process is to help human beings become educated persons. Schooling is the preparatory stage; it forms the habit of learning and provides the means for continuing to learn after all learning is complete...Schools should open the doors to the world of learning and provide the guidelines for exploring it."
2. **Teaching approach, class structure, curriculum design, and instructional methodology, courses of study, etc.**

Every child will be embraced as a multi-talented individual with unique learning styles and needs. Students will be guided in the process of learning, developing creative thinking skills, and become problem solvers with a life-long love of learning. There will be a freedom to innovate beyond the rules required of public school districts, yet there will be strict accountability to meet or exceed state standards. For instance, the school's small size gives it the flexibility to develop and use the most effective teaching practices available, based on the latest and most innovative research.

Instructional methods will be developed with the aid of the versatile Rigor/Relevance Framework. Teachers will also be able to use this framework to measure their progress in adding relevance and rigor to instruction and to select appropriate instructional strategies to meet learner needs and higher achievement goals. By utilizing both the dimensions of the model, teachers will not only examine the more complex ways in which students use knowledge, such as taking several pieces of knowledge and combining them in both logical and creative ways, but will also examine the use of that knowledge to solve complex real-world problems and to create unique project, designs, and other works for use in real-world situations.

The curriculum design will reflect alignment with the North Carolina Standard Course of Study and the proposed charter school will participate in the ABCs Accountability Model and conduct the statewide testing. The curriculum design will be integrated within and across all subject areas. The maximum use of our geographic location will also serve as a tool to integrate resources from local businesses and East Carolina University. The community will serve as an educational resource for each teacher and student. Teachers, students, parents, and all stakeholders will be engaged in the process of developing life-long learning skills.

Student success must be accompanied by the success of all stakeholders. Specifically, teachers and support staff selected for the school will understand and be committed to implementing the instructional practices essential for successful student performance. These will be provided through pre-employment and continuing professional staff development programs that will challenge them to model the importance of life-long learning to their students. Through participation of building this professional learning community, each staff member will maximize his or her skills on a continuous basis and serve as a valued team member for their colleagues. The school will be a “community of learners.” Collaboration, team building, team decision making and support, and celebrations will be the culture of the school.

3. **Compliance with Federal and State regulations for serving exceptional children.**

In keeping with state and federal regulations, it will be the policy of the school to provide appropriate educational services to children with disabilities as they are identified. It is our belief that all children are entitled to a free appropriate public education in the least restrictive environment.

The term “children with disabilities" includes, without limitation, all children who, because of permanent or temporary mental, physical, or emotional disabilities, need special education, are unable to have all their educational needs met in a regular class without special education or related services, or are unable to be adequately educated in the public schools. It includes those who are autistic, behaviorally-emotionally disabled, deaf-blind, hearing impaired, mentally disabled, multi-handicapped, orthopedically impaired, other health impaired, specific learning disabled, speech-language impaired, traumatic brain injured, and visually impaired.

Identification, placement, related services and all programs and operational procedures will be in accordance with the current edition of *Procedures Governing Programs and Services for Children with Disabilities*. 
4. Entrance and exit requirements as well as graduation requirements (if the school is to be high school).

Graduation Requirements

Twenty-six units will be required for graduation from high school. Those courses and units are as follows:

- **English** (4 units): I, II, III, IV
- **Mathematics** (4 units): Algebra I, Algebra II, Geometry, Pre-Calculus (if Algebra I is taken in the 8th grade, then either A.P. Calculus or A.P. Statistics will count as the 4th math requirement)
- **Science** (4 units): from Physical Science, Earth/Environmental, Biology, Chemistry, Physics
- **Social Studies** (4 units): Civics & Economics, U.S. History, World History
- **Foreign Language** (2 units): Two units in the same language
- **Computer Skills** (1 unit): Computer Applications
- **Health and P.E.** (1 unit): Health & Physical Education
- **Electives** (7 units): Career & Technical Education/Arts Education Electives

In addition to the 27 units, seniors must complete and receive a satisfactory review of their senior level project (Capstone).

5. The school calendar (must provide instruction for a minimum of 185 instructional days) (G.S.115C-238.29F(d)(1))

The school will provide instruction for a minimum of 185 days. The calendar will accommodate students wishing to participate in on-line classes and classes taught through Martin Community College and East Carolina University.

The school will follow closely the school calendar for Martin County Schools. The calendar provided is a tentative schedule of the school year,

*Be Gras Charter School, Inc.*
6. A concise description of any evaluation tool or test, if any, that the proposed charter school will use in addition to any state or federally mandated tests and how this data will be used to drive instruction.

The proposed charter school will participate in the ABCs Accountability Model and conduct the statewide testing. All students enrolled in Advanced Placement Courses, such as AP English, AP Calculus, AP Statistics, etc. will participate in the College Board testing in May for students to qualify for college credit. Learning will be documentable, diagnostic, and reflective, providing continuous feedback to students and parents as a tool to develop further teaching and learning strategies. The following assessments in addition to the state End of Grade tests, End of Course tests, and Advanced Placement tests, will also be utilized:

1) Pretests and posttest (provides information about how much a student can demonstrate was actually gained during their time in course as opposed to just producing the learning outcomes)

2) Benchmark testing (administered to determine students growth periodically throughout the semester)

3) Portfolio assessments (provides a reflection of a student’s mastery of a concept or series of concepts as opposed to a snapshot that traditional testing provides and may combine multiple types of evidence and are not necessarily limited to classroom work)

4) Oral presentations

5) Written reports

6) Lab reports

7) Capstone Project/Senior project (includes written report, oral presentation, documentation of services or work, portfolio and draws upon and integrates knowledge, concepts, and skills associated with the entire curriculum of a program)

8) Self-efficacy (an inexpensive tool, such as a simple survey can be constructed which simply asks students to rate their competence in different areas)

9) Other indirect measures of assessment (not based directly on student academic work but rather on what students perceive about their own learning)

Progress reports will be provided to students and parents on the 16th day of each 30-day grading cycle. Report cards will be sent home with students at the end of each 30-day grading cycle. Parent/Teacher conferences will be held at the conclusion of the 1st and 4th grading periods. Teachers will keep cumulative folders of each student’s work during the semester. Cumulative files (to be kept in the counselor’s office), portfolios and IEPs (Individualized Education Program) will be kept for enrolled students.

7. A description of the student achievement goals for the school’s educational program and the method of demonstrating that students have attained the skills and knowledge specified for those goals. These goals should include specific and measurable performance objectives over time. A timeline should be included to highlight how the school proposes to meet its objectives.

The Bear Grass Charter School, Inc. seeks to have one-hundred percent (100%) of our graduates complete their high school program of studies within a four year period of time and to graduate with a minimum of eighteen semester hours of college credit. We also strive to have one-hundred percent (100%) of our students proficient on all end-of-
grade and end-of-course tests to be administered at our school in addition to meeting goals and standards through the administration of the ACT.

**Student achievement goals (academic, social, and civic)**

- Each child has an opportunity to achieve his or her full academic/vocational potential in a safe, orderly school to ensure that each child feels recognized and cared for as an individual
- Students will be proficient in a common core of academic knowledge, concepts and methods of writing, reading, mathematics, speaking, and listening to achieve future success
- Students will take personal responsibility for learning through a demonstrated work ethic
- Students will show personal, school, and community pride in their achievement through public display of academic work for the recognition of achieving high standards
- Each child meets or exceeds required State Performance Standards on academic tests
- Each student is knowledgeable about career choices across a variety of areas
- Students have opportunities for developing the habits of concerned, confident, and caring citizens
- Students are actively engaged and involved in rigorous, relevant learning
- Students understand and apply advanced mathematical and scientific ideas
- Students demonstrate technical knowledge and skills needed to be productive within the context of real life
- Students use technology and other sources of information for a variety of purposes
- Students demonstrate attitudes and skills that support self-directed lifelong learning, personal pursuits, productivity, and conflict resolution
- Students demonstrate attitudes and behaviors that support global understanding, collaboration, diversity, and interdependence

**Methods of demonstrating attainment**

Measurable forms of assessment must be utilized to know when we have attained the skills and knowledge specified in the student achievement goals. In addition to State Testing and College Board Testing (SAT and AP Exams), students will also participate in:

- Pre- and Post-Assessment/Value-added Assessments
  - By assessing students when they first enter a program, a firm benchmark against which to measure growth is established.
  - Pre-testing is especially helpful for measuring cognitive learning.
  - These tests are easily scored and can be relatively easily analyzed using statistical procedures.

- Portfolio of student work
  - Portfolios will provide students with documentation for job applications or applications to college.
  - Students are able to reflect upon their learning and to understand more about what they have and have not yet learned.
  - Portfolios place the responsibility for demonstrating mastery and competence upon the learner.
  - Portfolios assess more rigorous and higher order thinking skills, such as application, synthesis, and evaluation.
Senior Project/Capstone (Assessed by a committee of stakeholders)

- This project allows the student to tie together the key learning objectives that the student is expected to have learned during his/her tenure.
- The project allows the faculty to assess the cumulative abilities of a student.
- Students are given the opportunity to demonstrate how they can integrate the knowledge, abilities, and values that the faculty have been teaching and demonstrating.

Student Performances (include internships, field experiences, musical performances, art shows, oral presentations, media presentations, and other work performed and demonstrated in public) (Assessed with well-constructed rubrics)

- Specific tasks are designed to lead students being able to perform in some fashion, so rubrics for assessment purposes are extremely valuable.
- Performances occur at different stages of a student’s career, so demonstrating value-added is critical.
- Rubrics can be used not only as assessment tools, but as a means to teach students the standards that they are expected to achieve.
- Rubrics designed around the goals of the performance and the academic program makes assessment by a variety of stakeholders (other faculty members, professionals in the field, other students) relatively easy and consistent.

Indirect assessment (Surveys, exit interviews, external reviewers)

- These will be designed to facilitate statistical analysis.
- Indirect assessment can flesh out areas that direct assessments cannot capture.
- Indirect assessment is very useful for ascertaining values and beliefs.
- External reviewers can bring a degree of objectivity to the assessment.
- External reviewers can be guided by either the school or by discipline-based national standards.

An explanation of how the school will provide assistance to students that are not performing at expected levels to ensure the continued progress of student growth. The applicant needs to define their “expected levels” of performance and delineate a plan accordingly.

Students who need additional assistance and/or remediation to meet the performance goals outlined above will be afforded opportunities for assistance through peer and parental tutoring, in addition to participating in a fifth period class as apart of the overall instructional day at the Bear Grass Charter School, Inc. In addition, the Classcape instructional program will be utilized to provide whole class and individual student assessments on a routine basis by all instructional faculty.

Details of the proposed charter plans to involve parents and community members in the school.

Parental involvement will be a prime attribute of the Bear Grass Charter School, Inc. Through the schools’ many advisory and standing committees, parental and community support and involvement will be essential to the ultimate success of our school.
Parents/guardians will sign an agreement with the school indicating their willingness to serve in one or more capacities as a volunteer. Parents/guardians will be encouraged to take advantage of one or more of the following:

- Enrollment in short courses designed to assist in better understanding activities and initiatives in which students are participating.
- Instruction in computer applications at school, home and work.
- How to assist in homework

Parents and local community members will also be asked to serve as mentors to individual students needing support and assistance in meeting our local promotion and graduation standards, in addition to working with our Senior Project Portfolios.

Parents and community members will be asked to participate in fund raising activities. Community members will be used as resources to facilitate and enhance portfolio projects and senior projects.

10. Explanation of how the school will meet the needs of gifted students, English language learners, and other at-risk students. Include details of the school’s process for identification and service of these students.

Academically gifted learners will be given the opportunity to participate in a full range of Advanced Placement and college-level courses offered on the local level in addition to the North Carolina Virtual Public Schools curriculum and East Carolina University.

English language learners and at-risk students will be identified through regular assessments and evaluations conducted by the professional teaching faculty at the Bear Grass Charter School, Inc. Students with existing Individual Education Plans (IEPs) will be assigned appropriate services and interventions based on the students’ IEP. Students new to our school and exhibiting difficulties in meeting the standards and expectations set forth by our academic programs will be referred for additional testing and services based on individual student needs and educational goals.
SPECIAL EDUCATION (G.S.115C-106)

The charter school must accept special needs children under the federal legislation Individuals with Disabilities Education Act (IDEA) (20 U.S.C. 1400 Et seq.) and the state legislation (G.S. 115C-106 Et seq.).

Provide a clear and thorough explanation of the procedures the proposed charter will follow to insure compliance of the above laws.

Bear Grass Charter School, Inc. will work with the Martin County School District to identify the special needs of students and to meet all applicable state and federal requirements including the Individuals with Disabilities Education Act (IDEA) and G.S 115C-238.29F(g)(5). Exceptional students will be provided with programs implemented in accordance with district, federal and state policies and procedures. All students with disabilities, regardless of the nature or severity of their disability, who need special education and related services, will be served in the least restrictive environment possible. A full continuum of delivery models will be available for exceptional students including physical, occupational, and speech/language therapy. If inclusion is not an appropriate setting for the student, the school will provide a program appropriate to the student’s needs within the continuum of placement options. For those students whose special needs are so unique or severe that the needs cannot be adequately addressed at the school, the child will be appropriately referred to another educational setting. Bear Grass Charter School, Inc. will work together with the Martin County School Board to ensure that the needs of all exceptional children are met. An Individualized Education Program (IEP) will be developed for every enrolled student requiring or receiving exceptional education services. The IEP will be utilized to provide services addressing the individual needs of exceptional students. Those who qualify for exceptional student services will be placed in various programs according to their needs. For students with more severe disabilities, the Bear Grass Charter School, Inc. will offer self contained classes and related services as deemed necessary.

Bear Grass Charter School, Inc. will obtain informed parental consent for conducting an evaluation to determine eligibility for exceptional education student needs. We will also obtain consent before providing the services proposed on a student’s IEP. We will ensure that one or both parents of a child are members of any group that makes decisions in the educational placement of their child. Immediately following the development of the IEP and without undue delay, Bear Grass Charter School, Inc. will provide the parents with a copy of the proposed IEP together with the required notice of procedural safeguards and parents’ handbook of rights.

Bear Grass Charter School, Inc. will ensure that all students have access to the general curriculum. We will provide specialized materials and equipment as specified in the IEP.

Exceptional education student services and administrative areas will be regularly evaluated. Bear Grass Charter School, Inc. will develop methods for determining the effectiveness of programs in assisting students to achieve.
STUDENT CONDUCT AND DISCIPLINE (G.S.115C-238.29B(b)(12); G.S. 115C-238.29F(d)(4 and 5))

Provide drafts, included in this section (do not include as an appendices), of student handbooks and other policies governing student conduct and discipline. Include policies and procedures governing suspension and expulsion of students. Specifically address these policies with respect to exceptional children. Also describe how a parent could appeal the decision of a school administrator through a grievance process.

Student Handbook
ATTENDANCE

In accordance with G.S. 115C-378, every parent, guardian or other person in North Carolina having charge or control of a student between the ages of seven and 16 years shall cause such student to attend school continuously for a period equal to the time which the public school to which the student is assigned is in session. No person shall encourage, entice, or counsel any such student to be unlawfully absent from school.

In order to be considered in attendance, a student must be present in the school for the school day or at a place other than the school with the approval of the appropriate school official for the purpose of attending an authorized school activity. Such activities may include field trips, athletic contests, student conventions, musical festivals or any similar approved activity.

A student must be present at least one-half of the school instructional day in order to be recorded present for that day. In grades 9-12, a student must be present at least one half of a class period to be counted.

No student shall leave the school grounds during regular school hours without prior permission from school authorities. A student enrolled in school will attend every day of the prescribed school calendar unless excused. It is important for parents to encourage attendance and to notify school authorities as to the nature of absences. All anticipated unavoidable absences should be reported to the school administration. A student may be excused if satisfactory evidence of the excuse is provided through documentation to the appropriate school official. Such documentation shall be kept on file.

EXCUSED ABSENCES

1. When illness or injury prevents the student from being physically able to attend school.
2. When the local health officer or the State Board of Health orders the isolation of a student.
3. When the student is absent due to the death of a member of the immediate family.
4. When the student has an emergency medical or dental appointment or such an appointment which has been approved in advance by the principal.
5. When the student is a party to or is under subpoena as a witness in the proceedings of a court or administrative tribunal.
6. When the student has obtained prior approval by the principal to be absent due to the observance of an event required or suggested by the religion of the student or the student’s parents.
7. When the student obtains prior approval to take advantage of a valid educational opportunity, such as travel.

UNEXCUSED ABSENCES

Unexcused absences are absences for any reason other than those listed as excused.

Making Up Absences and School Work

The following provisions have been made for “making up” absences and schoolwork.

1. Only four (4) unexcused absences (including “period or class” absences at the high school level) will be allowed to be made up per semester.
2. The student must make provisions to make up absences within two (2) days of returning to school or forfeit the opportunity to do so.
3. Made up absences will not contribute to a “perfect attendance” record.
4. A student may attend Extended Day School to cancel absences. Extended Day School may be scheduled any day, Monday through Saturday, by the principal.
5. The principal will designate the time for Extended Day School.
6. Students making up absences must bring appropriate schoolwork to Extended Day School. Failure to do so will result in dismissal from Extended Day School and therefore, no credit for making up the day.

7. All school work missed as a result of absences, excused and unexcused and as a result of a first suspension (one per semester) will be allowed to be made up. Suspended students shall be provided an opportunity to take quarterly, semester or grading period examinations missed during the suspension period.

SIXTEEN-EIGHT DAY (16/8) FAILURE POLICY

A student who is absent a total of 16 days per class period per school year or 8 days per class in block scheduling for reasons defined as excused or unexcused may receive no credit for the school year/course. If there is any question regarding excused absences, a person designated by the principal shall make contact with the parent or guardian of the child. The Principal shall make the final decision in interpretation of reasons for absences.

Student suspended from school will not have those days counted against them as part of the sixteen-eight day failure policy.

If a student is to be absent for medical or dental appointments, court or administrative proceedings, religious observances, or educational opportunities, prior notice should be given if possible.

TARDY POLICY

1. According to policy, detention can be waived for the first two tardies or early sign outs/returns.

2. Subsequent tardies will result in one or more of the following consequences at that school site based on frequency and intensity of the occurrences:
   - After school detention
   - Lunch detention
   - Break detention
   - Extended day

DISCIPLINE

In accordance with G.S. 115C-1, the administration recognizes its responsibilities to assure an atmosphere which is conducive to teaching and learning which protects the fundamental rights of students. The administration also recognizes that it is the shared responsibility of students, parents, and school personnel to assure a safe and orderly environment for all students and school employees. THE PRINCIPAL SHALL HAVE THE AUTHORITY TO EXERCISE DISCIPLINE OVER THE PUPILS OF THE SCHOOL. Corporal punishment is prohibited at Bear Grass Charter School, Inc. Appropriate student behavior will be encouraged through positive alternatives and interventions. When such interventions are not successful, the student is subject to short-term suspension, long-term suspension, or expulsion. The principal, or his/her designee, is authorized “to suspend for a period of 10 days or less any student who willfully violates policies of conduct established by the Bear Grass Charter School, Inc., provided that the suspended student be given an opportunity to take any quarterly, semester or final grading period examination missed during the suspension period. Suspensions in excess of 10 days require the approval of the Board of Directors. Expulsions require board action.

Simple rules to remember to avoid all the consequences in this booklet:

We honor your right to speak freely. However, your speech should not serve to inflame libel, incite or harm others.
It is your responsibility to put forth your best effort at all times to become the best student you can. We promise to provide the best teachers and classroom situations for you.

Another person’s property is not yours to take, misuse, break or lose.

In all matters speak carefully and in control of your emotions.

Keep your hands, your fingers, your toes and your nose to yourself.

Treat everyone EXACTLY as they would have you treat them..

A student 14 years old or older may be expelled if that student’s behavior indicates a clear threat to the safety of other students or employees.

The board shall suspend for 365 days any student who brings a firearm onto school property.

School administrators will notify law enforcement officers of violations of state and federal laws. They have the authority to call officers to assist with the maintenance of order, and to prosecute offenders.

Exceptional Children: Discipline for all exceptional children will be pursuant to the guidelines found in the 1998 Edition of Procedures Governing Programs and Services for Children with Special Needs.

PROCEDURES FOR ADDRESSING STUDENT BEHAVIOR ISSUES

Student behavior issues will be addressed through the CARE program. CARE is an acronym for The Center for the Advancement of Responsibility in Education. CARE will provide an immediate time-out environment for the students who need time to reassess their behaviors before returning to the learning environment and interaction with others. This program emphasizes student-parent-educator responsibility for education and utilizing resources to address individual student needs.

The school may use surveillance cameras located throughout the campus to monitor activity on the school campus and within the school buildings. Data recorded assists administrators and other officials to determine offenders of inappropriate activity.

The school will encourage appropriate student behavior through classroom management plans and when appropriate, individual student behavior plans that address expectations, interventions, and alternatives. When such plans are not successful, the student will be referred to the school administration or CARE.

Once a student has been referred for disciplinary action, depending on the previous disciplinary infractions, he/she may be assigned after-school, lunch or break detention, school/community service, or Extended Day placement. The exceptional child who is placed in any non-traditional environments must be allowed to receive his/her exceptional children’s services. If assigned detention or Extend Day School, it is the parent’s responsibility to provide transportation. If the student is suspended, it is the parent’s responsibility to contact the school administration prior to the student’s return.

As noted in the following code of Conduct, some infractions warrant more serious consequences than others. Cases involving suspension and/or possible arrest should be referred to the principal or assistant principal. Those involving after school or lunch detention or Extended Day School will be acted upon by the school administration or the CARE personnel.
CELL PHONE USE

Bear Grass Charter School, Inc. allows students to have cell phones so long as they are turned off, concealed, and not used during school hours. If a student has a cell phone where it is visible it may be confiscated. If a student refuses to stop using the phone, or refuses to give the phone to personnel, the student will be suspended. Standardized testing protocol prohibits cell phones in rooms where tests are administered.

The administration shall suspend for 365 days any student who brings a weapon onto school property. (G.S. 115C-391-d1). A weapon defined in G.S. 14-269.2 (b) and (g) is any gun or firearm (excluding BB guns, stun guns, air rifle, or air pistol) or bomb, grenade, or powerful explosive. It is unlawful for any person to possess, whether openly or concealed any weapon on a school campus (G.S.14-269.2). The principal is required by law to report assault involving the use of a weapon or the possession of a firearm or weapon to law enforcement.

31. Breaking into and entering a school building, trespassing on school property. No student shall enter a school building after school hours unless an official school activity is being held and/or school officials have authorized such use.    a. 1st offense: Referral to law enforcement.
b. 2nd offense: Referral to an outside agency.

c. 3rd offense: Referral to an alternative setting.

A violation of this policy may result in suspension for the remainder of the school year. In addition to disciplinary action consistent with the Guidelines of Student Behavior, possession of any amount of illegal drug will result in criminal prosecution pursuant to state laws (G.S. 18B-301). Compliance with the standards of conduct relative to drugs and alcohol is mandatory. The principal is required by law to report possession of a controlled substance to law enforcement.

35. Inciting a riot or disturbance, or encouraging others to disrupt school. No student shall engage in riotous, insubordinate conduct which causes or is intended to cause a disturbance or disruption to school operations and activities. In addition to disciplinary action consistent with the Guidelines for Student Behavior, the student may also be charged criminally. The student may also be required to make restitution for losses and damages.

38. Possession or use of counterfeit money. No student shall possess or use counterfeit money.

Points to Remember

1. All accumulated suspensions are carried by the student the whole year.

2. If a student goes six weeks without being referred to CARE for 1st Level of Options consequences, his/her CARE record will be wiped clean of those consequences and the record will start over at the beginning of the next six weeks. (Interventions do not start over.)

3. Students suspended or expelled from Bear Grass Charter School, Inc. are not to return to the campus at any time during the suspension/expulsion.

4. In certain cases, the principal may determine that alternative or more severe disciplinary action is necessary. A suspension may be split between alternative consequences and out-of-school suspension when in the best interest of the student.

5. Probation – Students may be placed on disciplinary probation at any point that their behavior becomes disruptive. If they break the specified probation, they may be recommended for suspension for the remainder of the school year.

6. Any student suspended from school is not allowed to attend or participate in any school function or athletic event.

7. In addition to disciplinary action consistent with the Guidelines for Student Behavior, a student may also be charged criminally.

The following procedures are recommended for disruptive behaviors. Classroom management plans should be in place in all classrooms. Individual behavior plans should be developed as needed. Teachers should document all interventions and results of the interventions. Principals should keep complete disciplinary records on students. These are suggested strategies for interventions:

1. Isolate within the classroom.

2. Have student write a letter to a parent or guardian concerning misbehavior (with teacher’s supervision).

3. Have student call parent at home or work to explain misbehavior (with teacher’s supervision).

4. Teacher contacts parents to invite their input on changing student behavior (phone and written communication are very important).
5. Withhold privileges. No student will be denied participation in any part of the instructional program or to have a lunch period.
6. Detain student after school, provided adequate prior arrangements have been made with a parent/guardian.
7. Isolate outside the classroom in a location away from the classroom and under supervision, in the CARE room. Consult with principal concerning misbehavior.
8. Refer student to principal for further corrective action.
9. Principal contacts parent to arrange a conference with teacher, parent and principal.
10. After conferring with the teacher, the principal may remove a student from the classroom for periods of time up to the remainder of the school day and may schedule a parent conference.
11. Students may be taken to their parent/guardian for an immediate conference. The student may be left with the parent/guardian for the remainder of the day. This is not considered a suspension from school. Records will be kept of situations handled in this manner.
12. Principals may consult with the Board of Directors to establish a parent conference to determine other alternatives.

POLICY ON SEARCH AND SEIZURE

Student lockers are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers. Periodic general inspections of lockers may be conducted by school authorities for any reason at any time without notice, without student consent, and without a search warrant. School premises may be subject to canine searches at any time. Other searches will be conducted according to the circumstances presented and as allowed by laws.

ADMINISTRATION OF MEDICATION

It is the policy of the Bear Grass Charter School, Inc. that medications should not be administered to a student during school hours or by school personnel unless the health of the student will be adversely affected. If a student is required to take medication during school hours and the parent cannot be at school to administer the medication, school personnel may administer medication with proper documentation from a physician and parent/guardian. Under certain circumstances students may self-administer medications with proper authorization. The intent of this policy is to discourage students from bringing prescription and non-prescription medicines to school for administering such drugs to themselves without the assistance of school officials. Neither the Bear Grass Charter School, Inc. nor any of its employees are responsible for the improper self-administration of prescription or non-prescription drugs at school. This is the responsibility of the student’s parents. Medication administered during school hours by school personnel should be kept to a minimum. Medications should be administered at home, if at all possible. The child in need of medication to sustain his/her maintenance during school is the child who has a chronic health problem, where emergency measures are indicated.

DRIVER’S LICENSE ELIGIBILITY

The North Carolina legislature through House Bill 769 requires that the NC Department of motor Vehicles (DMV) be notified whenever a student (15-17) who has a driver’s permit or license drops out of school, or is not making adequate progress toward a high school diploma or its equivalent. (Adequate progress is defined as passing 70% of course work.) The law became effective August 1, 1998. When a student applies for a driver’s license, a Driving Eligibility Certificate is required. DMV will not issue a driver’s permit or license without the Certificate. This document is generally issued by the school principal or counselor who certifies that the student has demonstrated adequate progress and is a student in school. Adequate academic progress will be evaluated at the end of each semester. Students who do not meet this requirement will be reported to DMV and will have the permit or license revoked. If a student drops out of school, he/she will lose his or her driver’s permit or license.
The principal will be able to provide information to parents who wish to appeal their child’s driving status based on hardship. The specific hardship circumstances are divided into four categories: (1) medical; (2) work related; (3) exceptional child consideration; (4) other. In any case of hardship, documented proof must be submitted. The school will maintain a record of students given Driving Eligibility Certificates.

“Lose Control, Lose your License”
The North Carolina General Assembly has approved the Safe School initiative called “lose control, lose your license”. Any student suspended long term for assaulting school personnel, bringing a weapon to school or possessing or using drugs or alcohol on campus, or committing any other act of comparable severity will now have their driver’s license revoked up to one year.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT – NEWS MEDIA ACCESS
Throughout the school year, there may be occasions when media and/or school personnel will be photographing and/or videotaping classroom and school-related activities to be used in school publications and/or sent to the local media for publishing or to be reviewed by school personnel for educational purposes. If you do not wish for your child to be interviewed or identified in photographs or other types of media, please contact the principal in writing, expressing your child’s restriction.

PROPOSED STUDENT EXPULSION AND EXCLUSION POLICY (115C-238.29B(b)(11) - 115C-38.29F(g)(7))

Notice and Initiation of Proceedings for Long Term Suspension (More than 10 days)

If the Principal, following an investigation, determines that a long term suspension is appropriate, he shall invoke a short term suspension of ten school days and notify the student, parent/guardian, and Board Chair of his recommendation for long term suspension, following the procedure outlined below:

If the student or parent/guardian desires a formal hearing to contest the principal's recommendation, the student or the parent/guardian must notify the Director in writing within three school days following receipt of the notice of suspension. The notice of appeal shall state the issue(s) for the appeal, including concerns regarding the level of suspension, if any

The student shall not return to school unless and until the appeal is resolved in his favor. In appropriate cases, the Director is authorized to waive this rule and allow a student to return to school while an appeal is pending.

No Hearing Requested

If a hearing is not requested within the allotted time, the Director shall provide the student/parent/guardian written notice of his decision whether to allow the student to remain in school. The decision of the Director shall be final.

Appeal to the Board
If the student or parent/guardian is not satisfied with the Director's decision, an appeal may be made to the Board within five school days of the notice of the Director. The appeal shall be in writing and shall be limited to the issues raised at the hearing before the Director.

The Board of Directors shall notify the student/parent/guardian of the date when the Board will hear the appeal, making every reasonable effort to hear the appeal within seven days of the request. The Board of Directors may select two or more board members to hear the appeal on behalf of the entire Board. An official tape recording shall be made of the appeal hearing.

The student/parent/guardian and the Director may attend the hearing to argue their respective positions. The Board of Directors may decide the appeal on record or may receive additional testimony and evidence as needed.

The Board of Directors shall make every reasonable effort to render a written decision within five school days. The decision of the Board shall be final, except an adverse decision by the Board may be appealed by the student to a court of law as provided by statute.

The Board of Directors shall comply with the applicable law in determining whether to permanently expel a student from school.

Suspension of Exceptional Child

In the event that a child with special needs exhibits behavior which, if the child were not a child with special needs, could result in the suspension or expulsion of the child from school for a period of more than ten school days or for consecutive periods that total more than ten school days, the school shall require a multidisciplinary team promptly to review the evaluation already completed for the child and conduct any additional evaluations necessary to determine if the behavior is caused by the child's special needs including:

1. whether the child is presently receiving appropriate education, and
2. whether medication is needed or present medication is appropriate.

If the review establishes no such relationship, the school may initiate its normal disciplinary procedures, but must continue to provide those services that the school based committee finds are necessary to prevent the student from regressing educationally during the suspension. If the review does establish such a relationship, the school may not initiate its normal disciplinary procedures. The findings should be used in determining an appropriate program.

Due Process Rights

In actions involving suspension of a special needs child for more than ten days in a school year, the parties have available all due process rights of North Carolina General Statute 115C-116 and 20 and United States Code 1415.

NEPOTISM

Bear Grass Charter School, Inc. recognizes that there are times when the most qualified candidate for a particular vacant position might be related to a current employee. Bear Grass Charter School, Inc. further recognizes that an educational institution functions best when all staff members are free of situations which might encourage conflicts of interest in the supervision and evaluation of employees. The following guidelines shall be established to eliminate the possibilities of conflicts existing in the direct supervision and evaluation of an employee:

1. No administrator or employee shall directly supervise or evaluate an employee in that administrator’s immediate family. For purposes of this policy, “immediate family” shall refer to father, mother, sister, brother, daughter, son, spouse, daughter-in-law, son-in-law, sister-in-law, brother-in-law, mother-in-law, father-in-law, grandparent, grandchild, stepparent, step-child, step-sister, step-brother, or guardian.

2. No member of an immediate family of an employee will be shown preference for employment in either a temporary or permanent position because of that family relationship. No employee or Board of Director member shall recommend the employment of immediate family without disclosure to the principal.

3. Members of the immediate families of Board of Directors members may be considered for employment in either temporary or permanent positions. Board of Director members must disqualify themselves from discussions or votes related to the employment of immediate family members.

4. This policy does not prohibit the continued employment of individuals who are employed in any position at the time of the initial adoption of this policy.

ADVERTISING VACANCIES

All vacancies occurring during the regular school year shall be advertised a minimum of ten (10) calendar days prior to filling of said vacancies except for hardship and/or circumstances affecting the instruction of students which warrant filling the position sooner.

No one shall be employed for a position until said position has been incorporated in the current budget by the finance officer.

CRIMINAL RECORDS CHECKS

The Board of Directors seek to provide a safe, secure learning and working environment for students and staff by employing individuals who are honorable citizens, who exemplify sound moral character, and who represent the school positive manner.

As a condition of employment, a criminal history check will be conducted on all newly-hired employees (including independent contractors who are being considered for the duties of a school personnel position) and re-hired employees who have a break in service for more than 90 days. Criminal history checks may also be conducted, with reasonable cause, on current employees.
School personnel positions are defined as all positions based in a school, including the following: principal, assistant principal, school administrative staff, certified staff, teaching assistant, coaching assistant and trainer, substitute teacher, custodian, driver training teacher, and bus driver.

A reasonable effort will be made to ascertain whether the employee has any criminal history in the county of residence, employment, or schooling for at least the past five years. The employee will be required to be fingerprinted and to provide any other information necessary to conduct the criminal history check. Any refusal will result in withdrawal of the employment offer or dismissal.

Newly-hired employees will be considered temporary pending a favorable review of the criminal history check. If the employee has a criminal history, there must be written documentation of how the criminal history information was used in the employment decision. It shall include a determination of whether the individual (1) poses a threat to the physical safety of students or personnel or (2) has demonstrated that he/she does not have the integrity or honesty to fulfill the duties of the position.

All criminal history will be confirmed by certified copy of the conviction or other means permitted by State Board rules.

This policy and any procedures established will follow N.C.G.S. 114-19.2 (a) (Criminal Record Checks of School Personnel); N.C.G.S.115C-332 (School Personnel Criminal History Checks); and 16 N.C.A.C. 6C-0300.

HEALTH CERTIFICATES

Any person initially employed in a public school, or re-employed after an absence of more than one school year, shall provide a certificate certifying that he/she does not have any physical or mental disease, including tuberculosis in the communicable form or other communicable disease, that would impair the person’s ability to perform his or her duties effectively.

Any public school employee who has been absent for more than 40 successive school days because of a communicable disease must, before returning to work, provide a certificate certifying that he/she is free from any communicable diseases.

The certificate required by this policy must be prepared by:
1. a physician licensed to practice in North Carolina,
2. a nurse practitioner approved under G.S. 90-18(14), or
3. a physician’s assistant licensed to practice in North Carolina.

In the case of a person initially employed, any of the following who holds a current, unrestricted license or registration in another state may prepare the certificate as long as evidence of the license or registration is on the certificate:
1. a physician,
2. a nurse practitioner, or

CODE OF ETHICS FOR EDUCATORS

PREAMBLE

The purpose of this Code of Ethics is to define standards of professional conduct.

The responsibility to teach and the freedom to learn, and the guarantee of equal opportunity for all are essential to the achievement of these principles. The professional educator acknowledges the worth and dignity of every person and demonstrates the pursuit of truth and devotion to excellence, acquires knowledge, and nurtures democratic citizenship. The educator strives to maintain the respect and confidence of colleagues, students, parents and legal guardians, and the community, and to serve as an appropriate role model. The educator exemplifies a commitment to the teaching and learning processes with accountability to the students, maintains professional growth, exercises professional judgment, and personifies integrity.

To uphold these commitments, the educator:

D. Disciplines students justly and fairly and does not deliberately embarrass or humiliate them.

E. Holds in confidence information learned in professional practice except for professional reasons or in compliance with pertinent regulations or statutes.

F. Refuses to accept significant gifts, favors, or additional compensation that might influence or appear to influence professional decisions or actions.

II. COMMITMENT TO THE SCHOOL AND SCHOOL SYSTEM

A. Utilizes available resources to provide a classroom climate conducive to learning and to promote learning to the maximum possible extent.

B. Acknowledges the diverse views of students, parents and legal guardians, and colleagues as they work collaboratively to shape educational goals, policies, and decisions; does not proselytize for personal viewpoints that are outside the scope of professional practice.

C. Signs a contract in good faith and does not abandon contracted professional duties without a substantive reason.
D. Participates actively in professional decision-making process and supports the expression of professional opinions and judgments by colleagues in decision-making processes or due process proceedings.

E. When acting in an administrative capacity:

1. Acts fairly, consistently, and prudently in the exercise of authority with colleagues, subordinates, students, parents and legal guardians.

B. Takes action to remedy an observed violation of the Code of Ethics for North Carolina Educators and promotes understanding of the principles of professional ethics.

C. Pursues growth and development in the practice of the profession and uses that knowledge in improving the educational opportunities, experiences, and performance of students and colleagues.

GENERAL CODE OF ETHICS

All school employees hold positions of public trust; they are responsible for the education of students and also serve as examples and role models to students. Each employee is responsible for both the integrity and the consequences of his or her own actions. The highest standards of honesty, integrity, and fairness must be exhibited by each employee when engaging in any activity concerning the school, particularly in relationships with vendors, suppliers, students, parents, the public, and other employees. Employee conduct should be such as to protect both, the person’s integrity and/or reputation and that of the school. An unswerving commitment to honorable behavior by each and every employee is expected. Integrity can accommodate the inadvertent error and the honest difference of opinion; it cannot accommodate deceit or subordination of principle.

This policy applies at all times and locations where the employee’s conduct might reflect poorly on the school, the employee’s status as a role model for students, or to the extent otherwise permitted by law.

Employees shall perform their jobs in a competent and ethical manner without violating either the public trust or applicable law, policies, and regulations. It is not practical or possible to enumerate all of the situations that might fall under the guidelines of this policy. Employees must honor other policies, regulations, and approved practices that have been established covering specific areas of activity, such as conflicts and student testing. The absence of a law, policy, or regulation covering a particular situation does not relieve an employee from the responsibility to exercise the highest ethical standards at all times.
Failure to comply with this policy will result in disciplinary action up to and including dismissal.

**RESPONSIBILITIES AND DUTIES**

All employees shall be held responsible for familiarizing themselves with all school policies and shall be held accountable for compliance with those policies, as well as any other rules, plans or procedures.

Each employee is responsible for:

1. The smooth and efficient operation of the school;
2. The growth and development of students;
3. Conducting oneself as a role model for students;
4. Complying with applicable state and federal laws;
5. Performing all duties in a professional and effective manner; and
6. Demonstrating and maintaining the required competence and qualifications for the assigned position.

**PROHIBITION AGAINST DISCRIMINATION, HARASSMENT AND BULLYING**

Bear Grass Charter School, Inc. believes that all employees and students should be free of unlawful discrimination, harassment, and bullying as a part of a safe, orderly, caring and inviting working and learning environment. Bear Grass Charter School, Inc. commits itself to nondiscrimination in all its educational and employment activities. Bear Grass Charter School, Inc. expressly prohibits unlawful discrimination, harassment or bullying on the basis of race, color, ethnicity, national origin, sex, pregnancy, religion, age or disability. This policy is in addition to the Sexual Harassment policy. Bear Grass Charter School, Inc. also prohibits retaliation against an employee or student who has exercised any rights made available through state or federal law, including prohibiting retaliation for reporting violations of this policy. Any violation of this policy is considered a serious violation and appropriate action will be taken in response to a violation.

**Application of Policy**

Harassment is prohibited at all levels: between students, between peers or co-workers, between supervisors and subordinates, between employees and students, or between non-employees, including visitors, and employees and/or students. All persons, agencies, vendors, contractors and other persons and organizations doing business with or performing services for the school must comply with all applicable federal and state laws and regulations regarding nondiscrimination. Visitors also are expected to comply with applicable laws, including the prohibition against harassment and bullying of students or harassment of employees.

This policy will apply in the following circumstances:

1. while in any school building or on any school premises before, during or after school hours;
2. while on any bus or other vehicle as part of any school activity;
3. while waiting at any bus stop;
4. during any school function, extracurricular activity or other activity or event;
5. when subject to the authority of school personnel; and
6. any time or place when the behavior has a direct effect on maintaining order and discipline in the schools.

Definitions
For purposes of this policy, the following definitions will apply.

Discrimination means any act that unreasonably and unfavorably differentiates treatment of others based solely on their membership in a socially distinct group or category, such as race, ethnicity, sex, religion, age, or disability.

Harassment can be a type of unlawful discrimination. Harassment is any pattern of gestures or written, electronic, or verbal communications, or any physical act or threatening communication that places a student or school employee in actual and reasonable fear of harm to his person or damage to his or her property or creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities, or benefits. The hostile environment can be created through pervasive or persistent misbehavior or a single incident of misbehavior, if sufficiently severe, that interferes with a student's ability to participate in or benefit from an educational program or activity, or that alters the conditions of an employee's employment. Hostile environment means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior. Harassing behavior may include, but is not limited to, acts reasonably perceived as being motivated by any actual or perceived differentiating characteristics such as race, color, religion, ancestry, national origin, gender, socioeconomic status, academic status, gender identity, physical appearance, sexual orientation, or mental, physical, developmental, or sensory disability, or by association with a person who has or is perceived to have one or more of these characteristics.

Bullying is a form of harassment. Bullying means the repeated intimidation of others by the real or threatened infliction of physical, verbal, written, electronically transmitted or emotional abuse or through attacks on the property of another. Bullying may include, but is not limited to, verbal taunts, name-calling and put-downs, extortion of money or possessions, implied or stated threats, and exclusion from peer groups.

Bullying or harassing behavior includes, but is not limited to, acts reasonably perceived as being motivated by any actual or perceived differentiating characteristic, such as race, color, religion, ancestry, national origin, gender, socioeconomic status, academic status, gender identity, physical appearance, sexual orientation, or mental, physical, developmental, or sensory disability, or by association with a person who has or is perceived to have one or more of these characteristics.

- No student or school employee shall be subjected to bullying or harassing behavior by school employees or students.
- No person shall engage in any act of reprisal or retaliation against a victim, witness, or a person with reliable information about an act of bullying or harassing behavior.
- A school employee who has witnessed or has reliable information that a student or school employee has been subject to any act of bullying or harassing behavior shall report the incident to the appropriate school official.
• A student or volunteer who has witnessed or has reliable information that a student or school employee has been subject to any act of bullying or harassing behavior should report the incident to the appropriate school official.

Reporting and Complaint Procedures
Any student who believes that he or she has been bullied or harassed in violation of this policy should report such behavior immediately to a teacher or the principal. A school employee who is notified of or otherwise becomes aware of conduct which may violate this policy shall report the matter to the principal, and failure to do so may subject the employee to disciplinary action. All reports of bullying or harassment made by students shall be promptly and thoroughly investigated by the principal. All complaints of harassing or bullying made by employees shall be promptly investigated by the principal and the Board of Directors. If the individual required to investigate a complaint made under this policy is the alleged harasser or bully, the investigation shall be conducted by the Board of Directors.

Any employee who believes that he or she has been bullied or harassed in violation of this policy should report such behavior to the principal. Any supervisor who reasonably believes that an employee has been subjected to harassment in the workplace shall report the information promptly to the principal. Complaints of bullying or harassment may be submitted anonymously and all reports of bullying or harassment shall be promptly and thoroughly investigated. This shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report. This policy also shall not be construed to permit school officials to punish student expression or speech based on an undifferentiated fear or apprehension of disturbance or out of a desire to avoid the discomfort and unpleasantness that always accompany an unpopular viewpoint. Evidence of harassment may result in disciplinary action being taken, up to and including dismissal in the case of employees, or up to and including long-term suspension or expulsion in certain cases for students. Bear Grass Charter School, Inc. specifically prohibits retaliation against any individual who makes a complaint or reports an incident of harassment or who participates in an investigation or grievance proceeding initiated under this policy. Nothing in this policy precludes the school from taking disciplinary action against a student or employee where the evidence does not establish harassment but the conduct otherwise fails to satisfy the school’s high expectations for appropriate conduct. The Board of Directors shall report to the State Board of Education all verified cases of discrimination, harassment or bullying. This policy shall be reviewed and disseminated yearly and shall be presented yearly to all school employees and volunteers who have significant contact with students.

SEXUAL HARASSMENT

Bear Grass Charter School, Inc. believes that all employees and students are entitled to work and study in school-related environments that are free of sexual harassment. To this end, Bear Grass Charter School, Inc. prohibits employees and students from engaging in sexual harassment and advises employees and students that when evidence of sexual harassment is established, disciplinary action may be taken, up to and including dismissal (for employees) and suspension (for students).

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

A. Submission to the conduct is made, either explicitly or implicitly, a term or condition of an individual’s employment, academic progress, or completion of a school-related activity; or

B. Submission to or rejection of such conduct is used as the basis for employment decisions affecting such individual, or, in the case of a student, submission to or rejection of such conduct is used in evaluating the individual’s performance within a course of study or other school-related activity; or
C. Such conduct has the purpose or effect of unreasonably interfering with an employee’s work or performance or a student’s educational performance, or creating an intimidating, hostile, or offensive environment.

Examples of sexual harassment include, but are not limited to, deliberate, unwelcome touching; suggestions or demands for sexual involvement accompanied by implied or overt promises of preferential treatment or threats; pressure for sexual activity; continued or repeated offensive sexual flirtations, advances or propositions; continued or repeated verbal remarks about an individual’s body; sexually degrading words used toward an individual or to describe an individual; or the display in the work place or school setting of sexually suggestive objects or pictures. Sexual harassment does not include personal compliments welcomed by the recipient, or social interactions or relations freely entered into by employees or prospective employees or appropriate social interactions between students. In the case of consensual relations between students, there may be reason to question the consensual nature of the conduct if one or both of the students are very young or there is an age disparity between the students.

It is possible for sexual harassment to occur at various levels: between peers or co-workers, between supervisors and subordinates, between employees and students, between students, or imposed by non-employees on employees and/or students. Romantic or sexual advances toward students by employees or romantic or sexual relationships between school employees and students are never appropriate, whether or not they are consensual or otherwise outside the definition of sexual harassment. Such relationships are prohibited. Employees engaging in inappropriate relationships with students will be subject to disciplinary action, up to and including dismissal.

Any employee who has reason to believe that another employee is inappropriately involved with a student, as described above, shall report this information to the principal and/or the Board of Directors.

An employee who fails to inform the principal or the Board of Directors of a reported or suspected inappropriate relationship between an employee and a student may be subject to disciplinary action.

All complaints of sexual harassment and all incidents of sexual harassment of which school principal and/or the Board of Directors have actual knowledge shall be promptly and thoroughly investigated according to the following procedure:

A. All investigations of sexual harassment shall be confidential. Information shall be given only to those individuals who need to have access to it in order to appropriately investigate and address the complaint. The principal shall act as the compliance coordinator and will be primarily responsible for assuring that sexual harassment complaints are investigated.

B. A student who believes that he or she has suffered sexual harassment may report the matter to the school principal. However, any teacher or other school employee who receives from a student a report of alleged sexual harassment or otherwise becomes aware of such conduct shall immediately report the same to the school principal. Failure by the employee to do so may subject the employee to disciplinary action. If the school principal is the alleged offender, such report by the student or by other school employees shall be made to the Board of Directors.

C. An employee who believes that he or she has suffered sexual harassment may report the matter to the principal or Board of Directors. However, any school employee who occupies an organizationally superior position relative to an employee who receives from such employee a report of alleged sexual harassment or otherwise becomes aware of such conduct shall promptly report to the principal or the Board of Directors. Failure by such employee to do so may subject the employee to disciplinary action. If the school principal is the alleged offender, such report by the student or by other school employees shall be made to the Board of Directors.
D. In any case involving alleged sexual harassment by the principal, reports shall be made to any member of the Board of Directors.

E. The principal shall promptly and thoroughly investigate allegations of sexual harassment and recommend to the Board of Directors an appropriate course of action. The Board of Directors shall review the recommendation and implement an appropriate course of action. The actions taken should be reasonably calculated to end any harassment, eliminate a hostile environment if one has been created, and prevent harassment from occurring again. Incidents of sexual harassment shall be deemed to be serious disciplinary infractions.

F. The Board of Directors may establish such guidelines and additional procedures deemed necessary for the purpose of implementation of this policy.

G. If for any reason, the complainant is not satisfied with the administrative response, he/she may file an appeal with the chairman of the Board of Directors. Such an appeal should be filed by the complainant within 30 days of being informed of the principal response to the complaint.

H. The Board of Directors specifically prohibits retaliation against any individual who makes a complaint or reports an incident of sexual harassment or who participates in an investigation or grievance proceeding initiated under this policy.

I. Nothing in this policy precludes the school from taking disciplinary action against a student or employee where the evidence does not establish sexual harassment but the conduct otherwise fails to satisfy the school’s high expectations for appropriate conduct.

It shall be the responsibility of the principal to inform school employees and students regarding this policy.

PROHIBITED RELATIONSHIPS WITH STUDENTS

All employees of Bear Grass Charter School, Inc., including student teachers, substitute teachers, and contractors hired to perform instructional or professional services, are prohibited from dating, courting or entering into a romantic or sexual relationship with any student enrolled in the school, regardless of the student’s age. Employees engaging in such inappropriate conduct will be subject to disciplinary action, up to and including dismissal.

Any employee who has reason to believe that another employee is inappropriately involved with a student, as described above, shall report this information to the Principal and/or the Board of Directors. An employee who fails to inform the Principal and/or the Board of Directors of a reported or suspected inappropriate relationship between an employee and a student may be subject to disciplinary action.
DRUG-FREE WORKPLACE

It is the policy of Bear Grass Charter School, Inc. that a drug-free workplace shall be maintained. The Board of Directors prohibits the unlawful manufacture, transmission, conspiring to transmit, distribution, dispensation, possession, use, or being under the influence of any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, anabolic steroids, alcoholic or other intoxicating beverage, counterfeit substances, other intoxicants of any kind, or any other controlled substance as defined in Schedules I through V of Section 202 of the Controlled Substances Act (21 U.S.C. § 812) and further defined by regulation at 21 CFR 1300.11 through 1300.15. In addition, no employee shall exude the odor of any alcoholic beverage or controlled substance while acting within the course and scope of his/her employment. The Board of Directors prohibits the possession, use, transmission, or conspiring to transmit drug paraphernalia.

This policy shall govern each employee before, during or after school hours, while on any property owned or leased by the Board of Directors, at any time during which the individual employee is acting in the course and scope of his/her employment, and at any other time that the employee’s violation of this policy has a direct and adverse effect upon the performance of his or her job.

No employee shall be impaired by the excessive use of prescription or nonprescription drugs in the workplace. The proper use of a drug authorized by a valid medical prescription from a legally authorized health care provider shall not be considered a violation of this policy when the drug is taken by the person for whom the drug was prescribed. Any employee with prior knowledge that the use of a prescribed medication under a doctor’s direction or an over-the-counter medication could alter the employee’s ability to perform the duties and responsibilities of his/her position must notify the principal. An employee is responsible for finding out from a health care professional the effects of any prescribed drug being taken. Failure to take such action may result in disciplinary action under this policy.

If in the opinion of the principal, an employee’s action and/or behavior are considered unsafe as a result of the proper use of medication, the employee may be sent home. A conference shall be conducted with the employee prior to the employee’s resuming his/her duties. Prior to the employee returning to work, the employee must provide written assurance that:

A. The medication’s use has been terminated; or

B. The medication has been adjusted / modified to avoid impairment.

Each employee shall be given a copy of this policy and shall be responsible for knowing and adhering to the requirements of this policy.

An employee having reasonable grounds to believe that another employee is using or in possession of any illegal drug, or is under the influence of or in possession of alcohol while in the workplace, or is impaired by the use of prescription or nonprescription drugs while on duty shall immediately report the facts and circumstances to the principal. Any employee who has been convicted of violating any criminal drug statute shall notify the principal within five (5) days of such conviction.

Violation of this policy shall subject an individual to personnel action by the Board of Directors up to and including termination of employment and referral for criminal prosecution.

Where there are reasonable grounds to believe that an employee is in violation of the Drug-Free Workplace Policy, the principal may require that the employee submit to a medical examination, including a drug or alcohol assessment. The drug or alcohol assessment will be conducted to determine whether the employee has been under the influence of illegal drugs, under the influence of alcohol while on duty, or impaired by the use of prescription or nonprescription drugs while on duty. If the drug or alcohol assessment is positive and there is no legitimate medical explanation for the results, the employee may be subject to disciplinary action, including termination of employment. Any drug testing shall conform with state law governing administration of controlled substance examinations.
Any employee who refuses a drug or alcohol screening test may be terminated.

Unless otherwise specified in a written contract, any employee who anticipates retirement must notify the human resources office thirty days prior to his or her intended retirement date, except in cases where conditions of health or other extenuating circumstance make shorter notices necessary. There shall be no mandatory retirement age for school employees.

RETENTION, CAREER STATUS AND NONRENEWAL

Bear Grass Charter School, Inc. acknowledges that the most important aspect of attaining excellence in education is the quality of the teaching staff and administrative staff. With that in mind, Bear Grass Charter School, Inc. hereby adopts as policy and states its determination to strive for such excellence and further declares its intent to employ only those teachers
and administrators who possess, have exhibited, and who continue to strive for excellence in their preparation for, performance of, and contribution toward the educational process.

Proficient performance shall be considered the minimum acceptable standard of performance for teachers and administrators in the school; however, proficient performance shall not constitute any assurance to any teacher or administrator of rights to, or consideration for, employment or reemployment or career status for teachers.

Subjective and objective appraisals of preparation for, performance of, and contribution toward the educational process and the needs of the school shall be considered in making decisions to employ or reemploy teachers or administrators, or grant career status to teachers.

**Basis for Nonrenewal**

Bear Grass Charter School, Inc., may refuse to renew the contract of any probationary or other non-tenured teacher or school administrator or to reemploy any teacher or school administrator who is not under contract, for any cause it deems sufficient; provided, however, that the cause may not be arbitrary, capricious, discriminatory, or for personal or political reasons, or because the teacher or administrator engaged in activities that are protected by the United States Constitution.

**Career Status**

It is the policy of Bear Grass Charter School, Inc. to award career status to teachers or award contract extensions to administrators who have exhibited excellence in their performance through the maintenance of consistently high standards of performance. The awarding of career status is not an entitlement based upon length of service, but a status which may be earned through the exhibition of high performance during a teacher’s probationary period. Bear Grass Charter School, Inc. seeks performance in excess of proficient and seeks to employ and retain professionals who are performing at the highest levels of competence.

If a probationary teacher is eligible for career status and the recommendation is not to give career status the probationary teacher has the right to a hearing.

Probationary teachers, not in the final year before teacher is eligible for career status, recommended for nonrenewal have the right to petition for a hearing. A hearing may be granted.

**Notice of Nonrenewal**

Bear Grass Charter School, Inc. shall provide written notice to a probationary teacher no later than May 15th of the intent to recommend nonrenewal. Also, the teacher must be notified in writing of the right to request and receive written notice of the reasons for nonrenewal.

If the decision has been made not renew the contract of a non-tenured teacher for the following school year, the principal shall notify the teacher by June 15. However, if a teacher submits a request for information or a hearing, the Board of Directors shall provide notification by July 1. If the Board of Directors has decided that it will not renew the contract of a school administrator for the following school year, the Board of Directors shall notify the school administrator by June 1.

**LICENSURE**

A professional employee must hold at all times a valid North Carolina license appropriate to the position in which he or she is employed. Licensure renewal is the responsibility of the individual, not of the school. Renewal activities for all professional employees shall have prior approval by the principal. Any courses or activities undertaken shall directly relate to the employees’ position responsibilities and shall have suitable content level. A record of all approvals; satisfactorily completed renewal activities; and timely submission of certificate renewal data to the State Department of Public Instruction shall be maintained in the Personnel file. Any employee allowing a license to expire must have it reinstated prior to the beginning of the next school year. An expired license is a basis for dismissal.
HIGHLY QUALIFIED TEACHERS

By June 30, 2006, all teachers, regardless of hire date, must meet the qualifications and competencies established by federal and state law, policy and regulations, including the requirements of No Child Left Behind.

******End of Employee Handbook******
QUALIFICATIONS REQUIRED FOR INDIVIDUAL POSITIONS: (G.S.115C-238.29F(e))

List the qualifications and appropriate licenses that each position must have to perform the job function(s). Describe the plan to meet the licensure requirements for teachers and paraprofessionals as prescribed by state law and No Child Left Behind. If individuals have already been identified for specific positions, please provide their qualifications and/or resumes in the appendices.

Staff Qualifications include the following:

**Professional Staff**

The Principal and Assistant Principal will possess teaching and administrative licensure from the State of North Carolina.

Teachers will possess the following minimum teaching credentials.

- Bachelor of Arts or Science
- Certification appropriate to the grade level in which duties and responsibilities are required (Middle Grades, Secondary, Exceptional Children)

Secondary Teachers will have a subject matter concentration in the area of teaching responsibility.

It is anticipated that as many as teachers as possible will be employed who possess a graduate degree. A minimum of one third of the teachers should have a graduate degree. This will ensure that the school meets the percent required to secure accreditation (assuming all others are met) from the Southern Association of Schools and Colleges.

Every effort will be made to ensure that the faculty reflects at each grade span (6-8, 9-12) a range of cohorts and teaching experience so that staff strengths can be maximized and a leadership succession plan can be put in place. Thus, every effort will be made to have as equal representation as possible of the following age and experience ranges:

- 21-30 or 1-9 years of teaching experience
- 31-40 or 10-19 years of teaching experience
- 41-50 or 20-29 years of teaching experience

The Guidance Counselor will possess teaching and guidance licensure.

Instructors provided by Martin Community College to provide Advanced Placement will possess graduate degrees in the area in which the Advanced Placement Courses are focused. The Advanced Vocational Courses will possess appropriate training, background, certification and/or work experience in the course area of focus.

**Support Staff**

**Teacher Assistant**

A minimum of two years of post high school education and/or commensurate experience in skill development through prior employment as a teacher assistant for a period of five years.

**Library/Media Assistant**

A minimum of two years post high school education and/or commensurate experience in information science technologies.
Clerical

A minimum of two years post high school education and/or commensurate experience in skill development through prior employment as a school office employee.

Custodial

A minimum requirement of a high school education and/or commensurate work experience in skill development through prior employment as an institutional custodian or maintenance employee will be required.

ENROLLMENT

Provide a plan indicating how the school will reasonably reflect the demographic composition of the district in which the charter school will be located or of the special population the school seeks to serve: (G.S.115C-238.29F(g)(5))

The proposed school will abide by the charter school legislation, G.S. 115C-238.29F(g)(5), as stated below:

A charter school shall not discriminate against any student on the basis of ethnicity, national origin, gender, or disability. Except as otherwise provided by law or the mission of the school as set out in the charter, the school shall not limit admission to students on the basis of intellectual ability, measures of achievement or aptitude, athletic ability, disability, race, creed, gender, national origin, religion, or ancestry.

In the following tables, please list for each year and grade level, the numbers of students that the school reasonably expects to enroll. In addition, please indicate any plans to increase the grade levels offered by the school. Explain the analysis utilized to determine these specific enrollment figures

The numbers in the following tables are projections, or estimates, and do not bind the State to fund the school at any particular level.

For the first two years the State will fund the school up to the maximum projected enrollment for each of those years as set forth and approved in the projected enrollment tables. However, in subsequent years, the school may increase its enrollment only as permitted by G.S. 115C-238.29D(d), that is, an increase of 20% per year based on the previous year’s enrollment. Any increase above 20% must be approved by the State Board of Education in accordance with G.S. 115C-238D(d).

Financial Data

The budgets were prepared using assumptions for minimum and maximum enrollment figures. The minimum enrollment figures represent amounts needed for solvency and the maximum enrollment figures represent what we think is an ideal school size. Although realistic revenue and expenditure projections were used, we understand projections are not always the same as actual results. We plan to use the services of a CPA firm as well as business leaders to help us implement sound financial management systems and effective internal controls. As with any new business venture, sound financial decisions are one of the keys to success.

The start-up expenditures to furnish a fully functional school will be approximately $100,000.00 between February, 2012 and August, 2012. These expenditures will include costs for desks, books, lunchroom seating, computer equipment, athletic equipment, and athletic uniforms. These expenditures will be financed by loans from financial institutions, loans from individuals, and grants. The loans will be repaid over a yet to be determined number of years.

MARKETING PLAN (GS 115C.238.29F(g)(1-7))

Marketing to potential students and parents is vital to the survival of a charter school. Reaching the full capacity for enrollment will be critical to obtain the necessary financial resources to keep your school viable and operating efficiently. In addition, it is required by law that charter schools provide equal access to all students. Read the charter school State Statute regarding admissions GS 115C.238.29F(g) (1-7) carefully. Describe how the board will market the school to all populations (including various community ethnic groups, teachers and other employees, and the general public) to ensure that the school fully complies with the State Statute to mirror the diversity of the local education agency.

The Bear Grass Charter School, Inc. Board of Directors and administrative leadership understand the challenges of student recruitment. Our marketing activities will make every attempt to ensure the greatest possible outreach and dissemination of information about the Bear Grass Charter School, Inc. in order to create a diverse school population. These activities will include but are not limited to the following:

1. Program announcements will be made to churches, community organizations, and government entities.
2. Information sessions will be strategically held throughout the potential attendance area at local libraries, churches, and community centers.
3. Public service announcement on radio and public access television will be utilized in order to market the school to families in the listening and viewing audiences.
4. Flyers will be distributed and posted at strategic locations including shopping malls, churches, community organizations, supermarkets, local businesses, etc.
5. Posters with relevant information regarding the Bear Grass Charter School, Inc. will be placed in restaurants and any other locations available to the public.
6. Interviews and press releases will be made with the local print and broadcast entities.

**SCHOOL AUDITS:**

**PROGRAM AUDITS:** GS 115C-238.29B(b)(6)  
Describe the procedure and method for evaluating the overall effectiveness of the proposed charter school program as related to the mission of the school.

Bear Grass Charter School, Inc. recognizes the importance of the ABC Accountability Program and the No Child Left Behind (NCLB) Act, and agrees with the State Board of Education’s recent decision to raise student performance standards to help prepare students to meet today’s challenges and skills, especially in the increasingly more competitive academic environment. Bear Grass Charter School, Inc. will therefore, adopt these standards as the minimum academic standards of the school. As such, end-of-grade and end-of-course test results will be closely evaluated and monitored by Bear Grass Charter School, Inc.’s principal, directors, and teachers, and be shared with all Bear Grass Charter School, Inc.’s staff members. Individual student progress will be closely monitored by the classroom teacher through routinely documented students’ daily classroom participation, academic activities, and the students’ learning progress throughout the course of the year. Annual parent, student and staff surveys will be conducted to assist in the identification of the school program’s strengths and weaknesses. Such parent surveys will include “Parent Conditions Surveys” to assess the school program’s achievements. Community feedback at open-house meetings will also be evaluated, and when possible, be documented with “Community Surveys” and polls.

**FINANCIAL AUDITS:** GS 115C-238.29F(1)(1)  
Describe the procedure and method for conducting an independent financial audit for the proposed charter school.

Financial audits will be conducted in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States.

The audit will be performed by:

H. Edwin Gray PA  
820 Evans Street  
Greenville NC 27834  
Phone: 252-758-7300  
Fax: 252-758-7301

**HEALTH AND SAFETY REQUIREMENTS** (G.S. 115C-238.29F(a))  
Describe how the school plans to adhere to the requirements of the health and safety laws and regulations of the federal and state governments. Address how the proposed charter school will meet the following requirements:

- **Safety**  
The Bear Grass Charter School, Inc. will maintain a safe learning environment by requiring all personnel to participate in emergency response training. A system of emergency codes will be established to effectively communicate the
situation to the staff. Evacuation maps will be posted in every classroom and office suite in the buildings. Drills will be performed to train the students on proper procedures during an emergency situation.

- **Immunization of Students**

Bear Grass Charter School, Inc. will require all attending students to be immunized according to North Carolina rules delineated in 15A NCAC 19A.0400.

In order to assure full compliance with all state and federal recommendations and regulations and to lessen the possibility of any student missing class due to non compliance, the following immunization policy shall apply:

1. Upon enrollment in the school, the family shall be requested to present the student's immunization record.
   - If the record is available it will be reviewed by an appropriate school staff member. If the student is in full compliance, the record will be copied and filed with the appropriate agency. Students who are exempt from immunizations and who provide a state approved exemption will be considered in compliance.
   - If the student is in partial compliance, the parent/guardian will be given a checklist of necessary immunizations the child must complete prior to attending class. They will then be referred to their medical care provider or the Martin County Health Department. If non compliance persists, follow up phone calls and/or cards will be made/sent to the student's caretaker. One week prior to the beginning of classes a final notice will be sent.
   - Non compliant students who can provide neither a complete record nor sufficient documentation from a recognized agency or practitioner will be denied admittance to the school.

2. Parents/guardians will be strongly urged to complete the full, recommended immunization schedule.

3. The Bear Grass Charter School, Inc. shall maintain on file immunization records for all students which contain information required for a certificate of immunization as specified in G.S. 130-A-154, and these records may be inspected by officials of the county or state health departments. When a child transfers to another school, the school from which he is transferring shall send a copy of the child's immunization record to his/her new school at no charge.

All school employees whose job description involves direct contact with children will receive training specific to infection control with regard to bloodborne pathogens prior to the opening of school. Employees will be responsible for attending health and safety orientation annually.

Direct contact staff will be encouraged to obtain Hepatitis B vaccinations. If a staff member chooses not to be vaccinated, a refusal form shall be signed by the staff member and filed in the employee’s staff file.

**Exposure Control**

All blood and body substances are considered potentially infectious and will be handled in the same manner to prevent transmission of infectious agents. Personal protective equipment (PPE) will be kept available in each classroom of the school. This will consist of latex gloves, non-allergenic gloves, and resuscitation mask. Gloves will be worn during head lice checks and at any time contact with blood or body substances is likely. Mouth to mouth resuscitation will be performed using a resuscitation mask. 1. Any staff or child who is diagnosed as having bloodborne diseases, such as AIDS, HIV, HBV, etc., shall be allowed to continue to attend duties/school unless it is determined that the staff/child is too ill to attend or presents a health risk to others. In any case of communicable disease, strict adherence to control measures as defined by OSHA and the North Carolina Department of Environment, Health and Natural Resources, Division of Health Services will be observed.
2. When an employee or child is diagnosed with a bloodborne pathogen, the following procedure will be followed:

a. Strict confidentiality of the infected individual will be observed. Only the panel outlined below and those individuals delineated by the panel will be advised of the individual’s condition. All involved will sign a statement of confidentiality.

b. A determination from the individual's physician will be obtained as to the individual's ability to return to school/duties. If the individual is determined to be able to return to school/duties, a panel that consists of the staff or in the case of a child, the child's parents, the staff or child's physician, the Principal, and a member of the Safety Committee will be formed. This panel will determine who needs to be aware of the individual's condition, and the infection control measures to be followed. In the case of an employee, determinations will also be made regarding the modification of the employee's duties to provide for increased safety of all employees and students, if necessary.

- **Diabetes care plans**

To Whom It May Concern:

I am writing this letter to lend my support to the proposal being submitted requesting permission for the Bear Grass Charter School to operate as a public charter school.

Mr. Jerry Rogerson and Mr. Phil Hodges have met with us here at East Carolina University seeking to discuss ways in which this newly formed charter school (if approval is granted) could form a partnership with us on projects of mutual interest. There are several reasons why this request is a thoughtful and appropriate course of action. In the statements below, I describe what I consider to be some of the most persuasive arguments.

- **The fundamentals needed to establish this partnership are already in place.** We have a well-recognized partnership with the school systems in eastern North Carolina—namely the Walter and Daisy Carson Latham Clinical Schools Network. This partnership has been in existence for over 20 years. As a school in Martin County, Bear Grass Charter School would, by virtue of its location have partnership status with us.

- **East Carolina University is always looking for receptive school sites in eastern North Carolina where our teacher education candidates may learn to practice.** The planners of this enterprise have assured us that they would welcome our students. Since there is a critical need in the eastern region to provide this training to prospective K-12 teachers we are grateful that they intend to not only continue but also strengthen this collaboration with us.

- **The College of Education faculty at East Carolina University has a long and fruitful history of collaboration with K-12 schools in the eastern region of North Carolina.** The leadership of this proposed school is anxious to have our faculty work with them on development, demonstration and research projects designed to improve teaching, inform teacher education and contribute to the knowledge base in education. These kinds of relationships between K-12 schools and higher education represent the development of an infrastructure that will not only offer our future teacher candidates high quality places to learn but will also support the improvement of instructional practice.

For all of the reasons stated above, I enthusiastically endorse this proposal and pledge to work collaboratively with faculty, department administration and Bear Grass Charter School officials to engage in a positive and productive partnership—one that provides a win-win for all involved.

To Whom It May Concern:

I am pleased to write this letter of support for the Bear Grass Charter School (BGCS) proposal. Having been in a number of meetings to discuss the goals for the school, I am excited about the ways that faculty and students from my department can have an impact on and benefit from this effort. In the following paragraphs, I discuss some ways that the Department of Mathematics, Science, and Instructional Technology Education (MSITE) plans to partner with BGCS.

In discussions with the leadership for the proposed BGCS, it is clear that the vision and goals for the school dovetail nicely with the interest, expertise, and experience of several MSITE faculty members. With a common goal of getting grade 6-12 students excited about and equipped for science, technology, engineering, and mathematics exploration and careers, we envision ways in which to partner in mutually advantageous ways. One of the primary areas of interest is the use of rigorous, standards-based curricula for the study of mathematics (initially) and science (eventually). Two primary partners from mathematics education – Drs. Preston and Sinicrope – have extensive experience with the implementation of these curricula in schools. Further, these curriculum materials make appropriate use of technologies and provide a seamless way of preparing students in both the content and tools of the 21st Century. Use of these curricula and associated technology provides another avenue for partnership – professional development for using the curriculum materials and the study of same. To this end, we are excited about the inclusion of common planning times for content teachers and the possibilities for lesson study, vertical alignment, etc.

We view the smallness of the proposed school as a strength. School effectiveness research points to efficacy of small schools. From a practical standpoint, with small faculty groups, we envision a greater ability to have a common set of goals and a school environment where teachers are supporting instruction from grade level to grade level. Having a school setting where the curriculum and instruction are in line with best practices has the potential to provide a rich context for our pre-service teachers. The intent is for us to have field experiences for our students that would include observation of instruction, common planning with teachers, and instruction with individuals or small groups of students.

Finally, MSITE faculty members view the partnership with BGCS as an excellent environment for research into the teaching and learning of mathematics and science. We believe that this research has the potential to inform a broad group of educators and stakeholders and to inform our own instruction as we learn from teachers, pre-service teachers, and grade 6-12 students.
In summary, I am excited about the Bear Grass project and support it whole-heartedly. If you have any questions about the role and expertise of MSITE faculty, please do not hesitate to contact me.

To Whom It May Concern:

The Walter and Daisy Carson Latham Clinical Schools Network is a partnership between East Carolina University and 34 public school systems in eastern North Carolina. The school systems include: Beaufort, Bertie, Camden, Carteret, Clinton City, Craven, Cumberland, Dare, Duplin, Edenton-Chowan, Edgecombe, Franklin, Gates, Granville, Greene, Halifax, Harnett, Hyde, Johnston, Jones, Lenoir, Martin, Nash/Rocky Mount, Northampton, Onslow, Pamlico, Pitt, Roanoke Rapids Graded, Sampson, Tyrrell, Washington, Wayne, Weldon City, and Wilson. The network also works individually with area charter schools if it is mutually agreeable.

Within the network, there are 500+ schools with more than 200,000 students and over 2000 trained clinical teachers who participate in partnership efforts. The network has been in existence since the 1996-1997 academic year when all teacher education programs at ECU were restructured from a 10-week student teaching requirement to a year-long Senior Year Experience.

As a member of Martin County Schools, ECU already had a partnership with Bear Grass School, which we intend to continue if Bear Grass Charter Schools is approved. As part of the Latham Clinical Schools Network, Bear Grass has been a site for ECU candidates to do clinical field work as they progress through their teacher education program. Candidates are routinely placed at Bear Grass school for their early field experiences (20-30 hours of school-based time) and for their Senior Year Experience internship (student teaching), which exceeds 500 hours of school-based learning and teaching.

The key functions of our partnership with public and charter schools are:

- Provide a network in which public schools, community colleges, and East Carolina University can collaborate
- Seek to enhance recruitment, retention, and renewal of teachers from pre-service to in-service
- Provide quality field placements and clinical experiences for teacher education candidates
- Facilitate the implementation of innovative practices, new initiatives, and research in both public schools and universities

East Carolina University is a constituent institution of the University of North Carolina. An equal opportunity/affirmative action university which accommodates the needs of individuals with disabilities.
• Provide continuous professional development for public school and university partners

The key areas of the partnership are:

**Latham Clinical Schools Network Partnership Advisory Board (LCSN)**
The board consists of representative faculty from each of the 20 undergraduate teacher education program areas, a liaison from each of the 34 public school systems, teachers and principals from network schools, and staff from the Office of Clinical Experiences. Meetings are held once a month to enhance partnership communication and collaboration.

**Office of Clinical Experiences (OCE)**
The OCE facilitates and manages all undergraduate teacher education clinical placements, serves and supports the 34 public school systems in the LCSN, delivers Clinical Schools Network Training for clinical teachers and supervisor of interns, and provides continuous professional development opportunities for clinical teachers and university supervisors.

**Annual Clinical Teacher Conferences (CTC)**
The Latham Clinical Schools Network facilitates an annual conference for the clinical teachers who have a Senior II intern in the fall/spring semester in which the conference occurs. Interns substitute for their clinical teachers as a courtesy and the teachers are engaged in a day of professional development with faculty from the university.

The benefits of the network are:

• Collaborative power of 34 public school systems and the largest professional educator preparation institution in the State of North Carolina
• Quality field placements for pre-service teachers with trained clinical teachers in diverse public school settings
• A shared responsibility for the recruitment, induction, retention, and renewal of teachers in eastern North Carolina
• Authentic clinical experiences in which university faculty, public school faculty, teacher education candidates and public school students can interact

The following items indicate the types of activities that are carried out within the network on a yearly basis.

• Over 500 Senior Year Experience interns placed within the Network
• Over 3500 undergraduate practicum students placed within the Network
• "Latham Awards for Excellence in Teaching" Medals and $1500.00 cash awards given to four graduating teacher education seniors
• Clinical Schools Network Training Sessions for faculty and clinical teachers
• Clinical Teacher Conferences for clinical teachers and university faculty
• Professional Development Sessions for clinical teachers and faculty on a variety of topics

East Carolina University’s College of education and its teacher education program are committed to continuing partnership with the proposed Bear Grass Charter School. The resulting charter could actually allow an opportunity for in-depth study of curriculum, focused professional development, and innovation in student teaching experiences and supervision.

As a public charter school, Bear Grass will be considered a continuing partner in the Latham Clinical Schools Network. Please feel free to contact me if you need any further information about our intended partnership with Bear Grass Charter School.

Sincerely,

Re: Bear Grass Charter School

Dear Mr. Cumbee:

Martin Community College (MCC), a public comprehensive community college, has an open-door admissions policy and serves primarily residents of Martin County and segments of Bertie and Washington Counties. MCC provides quality post-secondary curriculums leading to certificates, diplomas and Associate degrees, including the Associate in Arts, Associate in Applied Science, and Associate in General Education. As one of the colleges in the North Carolina Community College System (NCCCS), MCC participates in the NCCCS Transfer Articulation Agreement with institutions in the University of North Carolina System, which facilitates the transfer of credits earned at MCC to universities in North Carolina.

MCC has collaborative programs with public and private high schools, including Martin County High Schools, Bertie County High School, and Lawrence Academy. Our current collaborative programs include Dual Enrollment, Learn and Earn, and Huskins.

As President of MCC, I am excited about the opportunity to serve Bear Grass Charter School students, and I assure you that our staff and faculty would also be pleased and excited to serve them. We will collaborate with the leadership of the Bear Grass Charter School to ensure that its students have the same opportunities at MCC as other high school students in our service area. Collaboration between MCC and Bear Grass Charter School would be beneficial to both institutions and would strengthen and broaden the educational opportunities available to Bear Grass Charter School students.

I look forward to working with Bear Grass Charter School. If I can be of assistance or answer any questions, please feel contact me at 252-792-1521, ext. 223 or at abritt@martincc.edu.

Sincerely,

Dear Board Members:

This is my fourth term as a member of the Martin County Board of Education. I have followed the charter school effort since its inception in North Carolina and have attended many charter school meetings sponsored by the North Carolina Boards Association. It is my belief that the charter school approach will greatly improve educational opportunities for all our children.

The citizens of the Bear Grass community have always supported the public schools in their area. They demonstrate a strong community involvement in the academic progress of their children. They feel that the Bear Grass Community Charter School will greatly enhance these educational experiences and better prepare their children for an ever-changing work force.

I support the Bear Grass Community Charter School and ask that you give favorable consideration to their application. I feel that the charter school will benefit Martin County as a whole as well as the Bear Grass Community.

Sincerely,

To whom it may concern:

As a Martin County Commissioner, I am well aware of the issues surrounding the Board of Education's move to consolidate the four Martin County high schools into two. I oppose this proposed consolidation. An argument has not been successfully made as to why there is a financial reason to do this and the damage to the communities of Bear Grass and Jamesville would be irreparable. These small communities thrive largely because of their schools and closing them will damage their fragile economies and lower housing prices. Martin County has enough problems. I hope it does not become necessary, but if it does, I would support their application for a charter school.

Sincerely,

Butch Lilley
Martin County Commissioner

To whom it may concern:

Please allow me to pledge my full support of the Bear Grass Charter School effort. The Bear Grass community has always been a shining example of parental involvement and volunteer effort. I have no doubt that a charter school in this community would be one of the best in North Carolina given the overwhelming support of parents and community leaders.

I pray the effort is successful in securing a charter. I have two children in elementary school and I hope that one day they are fortunate enough to attend a Bear Grass Charter School. Given the sad state of "public" education in this area, I foresee having to seek alternatives to public school for my children if this "charter" effort is unsuccessful.

I continue to be an avid and vocal supporter of the Bear Grass Charter School effort. I am willing to do everything in my power to see this effort become a reality.

Sincerely,

Dear Charter School Board,

Metrics, Inc. is a contract pharmaceutical development company located in Greenville, NC. Our 230 employees are largely degree chemists, biologists and pharmacists. Our company has a very strong interest in encouraging students to pursue degrees in science and mathematics; our future depends on our employee base. I have served on numerous boards in the area, including the Education Cabinet of the Pitt-Greenville Chamber of Commerce, and considering the growth of technological jobs in the Greenville area in the past 20 years, I realize how important it is to stress math and science to middle and high school students. We must do something differently in order to spark the interest of more of our students.

The Bear Grass Charter School promises to do just that. One of the school’s goals will be to develop special interest programs in middle school, with tours and on-site demonstrations, exposing students to the technological world and generating a lifelong interest in science and math. They will have career fairs and projects that will introduce them to potential careers that use math and science. When they leave the 8th grade, more students will think “science and math are cool; science and math are fun.” They will take the courses in high school with more interest and more of them will think about going to college for degrees in math and science. Scientists are not born, they are inspired. We will inspire them.

For several years I have conducted tours of Metrics, Inc.’s laboratory facilities and discussed careers with Bear Grass chemistry classes. I have seen several of their students go into college programs such as math, biology, chemistry, and pharmacy. Generating interest does work. I now have employees that were Bear Grass graduates. Metrics will commit to a major renovation of the laboratory at Bear Grass School, upon approval of the charter, and to sponsoring special programs to generate more interest in science and math. Metrics is a major sponsor of the Go-Science Museum coming to nearby Greenville. I will make sure that Bear Grass students benefit greatly from this endeavor.

We want to do something different and exciting at Bear Grass Charter School. I ask for your support in making that happen. Thank you,

Sincerely,

Phil Hodges

Dear Mr. Cumbee:

Please consider this letter as continued evidence of the unqualified support of the Board of Commissioners of the Town of Bear Grass for the conversion of the current Bear Grass School into a charter school. It is our profound belief the proposed charter school will afford the students of the Bear Grass School attendance district unparalleled educational opportunities while ensuring they remain in the nurturing, caring environment of a community based school.

State Board Members:

Bear Grass Fire Rescue would like to take this means to acknowledge our full support to the establishment of a Charter School in the Bear Grass Community. Bear Grass School is the heart of our community. Our community is built around our children, their education and well being. The citizens of the community are involved and provide outstanding support to the school as they know this community is built around the school and its activities. If the Martin County Board of Education succeeds in closing the Bear Grass School, the Bear Grass community will suffer extensively. We feel our only option to continue to have a thriving community is for the citizens, civic groups, churches and businesses to bond together and support a Charter school effort.

Our department has 43 active volunteers that donate their time and energy to provide rescue and fire services to Bear Grass and surrounding communities in Martin County. We are blessed to have this number of active volunteers willing to serve the community in this manner. Their dedication is due in part to the activities that surround the school; PTA meetings, band concerts, ballgames, dances, fundraisers, and social functions that bring the students, parents, families and citizens of the community together. Our department organizes the annual Christmas Parade in conjunction with the Bear Grass School. Following the parade, we have a Brunswick stew fundraiser which usually raises approximately $2000 to update equipment for the department. All of these activities keep the parents and citizens involved in our children and their education; therefore, promoting higher grades, improved behaviors and attitudes, lower dropout rates, and encouragement for post secondary education. The Bear Grass area is one area of Martin County that has continued to grow. We feel that the growth of our community is due to the Bear Grass School and community involvement that supports the school.

The loss of a school in the Bear Grass community will destroy the community economy and will be detrimental to our services ability to continue to recruit willing volunteers to provide fire and rescue services to protect our area. We pledge our support to the establishment of a Charter School in the Bear Grass community and ask that the State Board of Education support our request for the approval of a charter school.

Sincerely,

Greg Harrison, Chief

Dear Board Members:

I am writing this letter in support of the Bear Grass Community Charter School application. It is my belief this charter school will be a great asset for the citizens and students of Martin County. The long-term results, because of your willingness to afford rural communities this opportunity, will be economically beneficial to not only Martin County, but the surrounding communities as well.

The advance academic program that will be offered is an aspect of education that has needed more attention. The highly advanced technology, which will be available through this charter school, will better prepare our students for an ever-changing world.
