0:00 way

0:05 ok on June thirtieth

0:09 in July 1st 2014 teachers selected to participate

0:13 in the governor's teacher network came together at the Sheraton Imperial Hotel

0:17 Indoor

0:17 face to face training to meet the DPI step who will support them throughout

0:21 the project

0:22 participants networked over lunch meeting team members from across the

0:26 state

0:27 DPI step provided additional information about home base

0:31 and project priorities for the GP and work developing their plans are action

0:36 participants learned about expectations throughout the year

0:39 including using action research sharing their work back in their districts

0:42 and developing tools and resources for Home Base I'm really excited about the

0:47 work I'm doing the government is a network

0:49 I'm actually down when I'm Collins shark tank me

0:52 the thing a project I'm really trying to help her did

0:55 develop their communication skills their lives you know and love them they would

0:59 prefer that but that the credit products I think it's going to help teachers

1:02 because they were happy

1:03 in integrate technology as well as had just hit the great product GTN will

1:09 harness the power of home-based to put high-quality instructional materials

1:12 and professional development in the hands of teachers throughout the state

1:16 teachers designing professional development prepared an elevator speech

1:20 which is a quick summary up their action research and how it will benefit

1:23 educators and students

1:25 the speeches will serve as an introduction to the project as they

1:28 share their work with others

1:33 let's face it allocating histories for

1:36 and classrooms are buoyed interaction I kids crazy

1:39 it often leads to you despite her home and love as hard

1:43 gathers teacher network my job is to research the instructional practices

1:47 that will work in your social studies class for

1:49 more than ever we need strategies that we eat today

1:53 kids all abilities skills eighty for the future

1:56 this research seeks to find those strategies for all this

2:00 secondary teachers that wanna see like brought back to such disaster

2:04 held day 2 brought more opportunities to network

2:10 and collaborate with other GT and participants as teachers began to fine

2:13 tune and focus their work
2:15 to align with specific content areas or instructional improvement meet
2:19 Governor Pat McCrory joined the teachers for lunch where he thanked the
2:22 participants for their commitment to student
2:24 and spoke on the driving force behind the governor's teacher network
2:28 improving education in North Carolina this have to do with helping teachers
2:32 who were all too big goals to help students because there there are number
2:35 one priority
2:36 they're your number one priority but in order to help teachers sometimes we hit
2:41 me that teachers help other teachers show that leadership
2:44 so program was developed in which we thank
2:47 frankly say can you help with lesson plans
2:51 can you help with basic training can you help with classroom materials
2:56 can you help with basic computers other teachers that are still learning
3:01 and we wanted to get the best to the best in
3:04 all our schools possible use this money to show leadership to help
3:09 mentor other teachers to make other teachers better
3:12 that's why you're in this room today teachers will receive a stipend
3:17 up ten thousand dollars for their work Academic Services staff
3:21 will service supported mentors monitoring progress and quality have
3:24 resources developed
3:26 all teachers across North Carolina will benefit from the knowledge
3:29 and resources this initiative will provide welk
