Comments Attached: _____Yes _____No

Principal/Evaluator Signature
(Signature indicates question above regarding comments has been addressed).

Date

Note: The teacher's signature on this form represents neither acceptance nor approval of the report. It does, however, indicate that the teacher has reviewed the report with the evaluator and may reply in writing. The signature of the principal or evaluator verifies that the report has been reviewed and that the proper process has been followed according to North Carolina State Board of Education Policy for the Teacher Evaluation Process.

Standard VI: Teachers Contribute to the Academic Success of Students

The work of the teacher results in acceptable, measurable progress for students based on established performance expectations using appropriate data to demonstrate growth. A teacher's rating on the sixth standard is determined by a student growth value as calculated by the statewide growth model for educator effectiveness.

For the 2011 – 2012 school year, the student growth value is a weighted measure:
70% based on the student growth value for the individual students taught by the educator
30% based on the student growth value for the entire school

For the 2011-2012 school year, the student growth value for a teacher in a currently non-tested grade or subject is 100% based on the student growth value for the entire school.

All local school boards shall use student growth values generated through a method approved by the State Board of Education.

Does not meet expected growth	Meets expected growth	Exceeds expected growth
The student growth value for the teacher is lower than what was expected per the statewide growth model.	The student growth value for the teacher is what was expected per the statewide growth model.	The student growth value for the teacher exceeds what was expected per the statewide growth model.

Note: Standard VI is included in the observation rubric as part of the overall teacher evaluation; however, ratings for this Standard are *not* completed by the evaluator. No further work is needed with Standard VI to complete the observation.
