Email to Teachers receiving a 2012 EVAAS Value-Added Report

Subject: Online Access for your 2012 EVAAS Teacher Report

Body:
You can now access your 2011-2012 EVAAS teacher report on the web.

Please Note:
Due to the secure nature of this information, there are two levels of authentication needed.

Sign-in #1 (sign into the EVAAS website):
Log into the NC DPI EVAAS site using the login information provided below.

Sign-in #2 (sign into the Teacher Reports):
From the Reports menu, select Teacher Value Added. You will be prompted for a second authentication. Enter your Unique ID (UID) and your EVAAS password.

Need Help?
>   Unique ID (UID)
>   The UID is NOT the same as your EVAAS username noted below. It is the ten-digit state ID number that has replaced the Social Security number in state databases. The UID is used to access the online educator evaluation system. If you do not know your UID, contact your district finance/payroll office or human resources office.
>
>   Password
>   The password needed for the second authentication is the same password you used to enter the EVAAS website.

Other Questions?
Click on Help in the Navigation Bar at the top of the screen for information about accessing or interpreting the results.

IMPORTANT NOTE: To view the list of students linked to you, clickon 'View List of Students' above the Teacher Progress Estimates and Standard Errorstable.

Rosters for the 2011-12 Teacher Reports
The rosters that were used to generate the teacher value-added reports for the 2011-2012 school year were taken from NCWISE. The NCDPI recognizes that not all LEA/school/classroom validations were completed as requested, which created inaccurate reports. Please remember that the 2011-2012 Teacher Value-Added Reports are NOT used for teachers' evaluations. Because all the reporting for 2011-12 has closed, we will not be able to correct rosters for last year.

November 11, 2012

To improve the accuracy of the rosters in the 2012-13 school year, the NCDPI has purchased an EVAAS product that offers teachers an opportunity to verify the list of students assigned to them, as well as the percent of instructional time the teacher is responsible for. This approach will accommodate situations where multiple teachers should share the instructional responsibility for a student. This new process will be made available later in the school year, and everyone will receive more information at that time.

Want Additional Access?
Your account may have restricted access, especially to student-level data. If you would like to request additional access for your account, please contact your principal.

Please note: Replies to this message are not monitored. If you have additional questions, please select Contact Us on the login page.
