Reminders:

(1) Public School Building Bonds - Semi-Annual Cash Zero-Out January 28, 2005:

DPI is required to periodically zero-out the Public School Building Bond funds (PRC 078). We will be using the Life-to-date (LTD) draws versus the LTD expenditures reported in our system for the NOVEMBER reporting period, to calculate the dollar amount to be taken back from your local bank account. We will do this cash zero-out for a funds requirement date of January 28, 2005 (i.e., the date funds will be withdrawn from your designated bank account).

We must receive any MANUAL expenditure adjustments that are needed to adjust the Cash Zero-Out in our office by Friday, January 21st, marked "Adjustment to Zero-Out". The effect of this zero-out process is to align your LTD cash and LTD expenditures by project. If you have any questions about your allotment or project balance, or the zero-out process, please contact Richard Smith at (919) 807-3729.

(2) FY 2004-2005 Chart of Accounts Changes: Please be aware that the \$1,800 Math, Science, & Special Ed Bonus (PRC 094) was not funded in the FY 2005 budget. (6) State Board Meeting Highlights: The State Board of Education held its annual planning meeting, as well as its regular meeting, this month. On the planning agenda, the Board considered several items, including the status of the South, Board operational issues, and involvement of partners in the policy-making process. At its regular monthly meeting, the Board approved on first reading waivers to the calendar law for LEAs that requested waivers under the inclement weather provision. Members also received other waiver requests for information this month and action in February. In addition, the Board approved Disadvantaged Student Supplemental Funding for Robeson County and approved the report from the Select Committee on Lateral Entry. The report from the Business Education Technology Alliance also was presented. Complete Highlights are posted online at <http://www.ncpublicschools.org/sbehighlights/>

(7) Education Week Magazine Article: **QUALITY COUNTS 2005: FOCUS ON SCHOOL FINANCE:** Quality Counts 2005, the ninth annual report card on public education in the 50 states, focuses on changing school finance systems and the growing push to link funding to student performance. Education Week's study of the 50 states and the District of Columbia finds that 31 states are considering major changes in how they pay for education or allot money to school districts. Sixteen states are embroiled in litigation challenging the school finance systems they now have in place. The report includes finance snapshots for each state. It also examines how states raise revenue for education, support their "at risk" students, and compensate their teachers. The report also highlights the shift in focus from questions of "equity" to "adequacy," as

states begin to explore what it would cost to meet the education goals spelled out in state constitutions. The report found that 30 states have had adequacy studies conducted, some of which are still underway. For this year's report, Education Week commissioned Bruce D. Baker, a finance expert at the University of Kansas, to categorize various adequacy methods and their findings across state studies. Education Week also conducted an in depth analysis of adequacy studies in three states: Kentucky, Maryland, and New York. As always, the report grades the states on the health of their education systems based on indicators related to student achievement; standards, assessments, and accountability; efforts to improve teacher quality; school climate; and resources. <http://www.edweek.org/qc05>

**(1) Reemployed Retirees Exempt from the Cap Substituting:** The Retirement System stated in a memo to the Finance Officers and Personnel Administrators, dated August 27, 2004 that earning of a retiree exempt from the cap, who is reemployed as a substitute, would be subject to the 11.7%.

We have been informed that this statement has been retracted and this is no longer a requirement. Effective immediately, LEAs are not required to contribute 11.7% of substitute pay to the Retirement System. If you have made payments for substitute teachers, we do not expect refunds to be distributed. The effective date of this retraction is effective from this point forward.

**(2) 11.7% Matching Retirement Rate:** This higher matching retirement amount, coded to Object 228, is only due on what is referred to as "covered salaries". At the website below, you may access the letter that was sent from the Retirement System concerning the new matching rate. In this letter there are several payment items that are NOT included in "covered salaries" and therefore should NOT be matched at the higher rate. Longevity is one of the excluded pay items.

<http://www.ncpublicschools.org/fbs/retireexemptcap04.html>

DPI has posted any expenditures coded to 5910-009-228 to 5910-009-225 on our system. Please correct your GL and know that you should not pay the higher matching rate on excluded payment types.

**(3) MSA/Cash Management Training:** There is one remaining MSA/Cash Management training date available on March 24th. Seats are still available. Please forward this information to any staff members that would benefit from this training. There is no registration fee for the class, but you must register to attend. On-line registration is available at the following site:

<http://hrms.training.dpi.state.nc.us/default.asp>.

Class description:

This class is geared toward those who work in an LEA finance office - Finance Officers and finance staff. The class consists of "hands-on" training in the MSA/DBS General Ledger System. Instruction is targeted to the beginner or new user. For questions about the LEA training, contact Richard Smith at [rismith@dpi.state.nc.us](mailto:rismith@dpi.state.nc.us) or Nancy Harris at [nharris@dpi.state.nc.us](mailto:nharris@dpi.state.nc.us).

**(4) February Refunds:** Please note that any refunds or adjustments to be posted effective in the February processing period MUST be submitted in the BUD system by Monday, March 7th, for Processing Period 08. Processing Period 09 may default on your system. You must change the period to 08 before sending your batch. Please contact Nancy Harris at [nharris@dpi.state.nc.us](mailto:nharris@dpi.state.nc.us) if you have any questions.

**(5) Financial Management Report Card:** Each LEA will receive a report card of their financial management performance for the 2003-04 fiscal year. This report provides details of the performance in each of the areas assessed for the State Board Awards.

The Criteria used to determine the State Board Awards for Excellence in Financial Management are posted on the FBS website under "What's New".

<http://www.ncpublicschools.org/fbs/>

**(6) Additional Transportation Funding for Fuel:** We are keenly aware of the high cost of fuel this year. In the December 1 allotment to bus garages, line (12) included additional funding to allow for an increase in fuel from \$1.00 per gallon to \$1.20 per gallon. The 2004-2005 transportation budget was initially built using a statewide average cost per gallon of \$1. At the time allotments were done, it became apparent that fuel costs would exceed that amount significantly and would average - even if prices started coming down - at LEAST \$1.20 per gallon. It appears now that the average cost per gallon for the year will be closer to \$1.40. To date the statewide average for the school year is about \$1.38.

We will not do an additional allotment until sometime next month when the cost can be better projected.

For planning purposes, if the average rises to \$1.40 per gallon (which is a good guess at this point) then the adjustment to go from \$1.20 to \$1.40 would be the same amount as listed in line (12) of the allotment data sheet to increase from \$1.00 to \$1.20.

Questions should be directed to Derek Graham, Section Chief, Transportation Services.

**(1) State-Adopted Textbooks:** Please be aware that all state-adopted textbooks should be ordered through the state textbook warehouse. This includes all modified textbooks as well. State adopted textbooks are exempt from eprocurement rules and should not be ordered through eprocurement. If you have questions, please call Drew Fairchild at 919-715-5373 or Ben Matthews at 919-807-3501.

**(2) FY 2004-2005 Chart of Accounts Update:** An update to the Uniform Chart of Accounts was downloaded on Friday, March 4, 2005 to your AS400 for you to receive in BUD (Run SURF). Please note that the following new codes have been added: (State) 1-5930-054-146 Teacher Assistant when Substituting; (Federal) 3-5920-050-372 Employee Tuition Reimbursement; and (Child Nutrition) 5-6560-035-529 Misc Contracts - Renovations. If you have any questions pertaining to the chart or concerning proper use of these funds, please contact the School Business Division at (919) 807-3700. If you have questions concerning receiving your Chart of Accounts in BUD, please contact the DPI Helpdesk at (919) 807-4357.

The Uniform Chart of Accounts and Summary of Updates are also available on DPI's website. You may access, search, or print the Chart of Accounts from the website; or purchase a copy through Publications. If others on your staff need the chart for a specific program, they can print those specific pages. The website address is: <http://www.ncpublicschools.org/fbs/coa/index.html>.

**(3) Year-End and Invalid Account Codes:** It is not too early to start thinking about year-end close-out time. Time to clean-up any errors on the MFR data. There are still many LEAs who are reporting invalid account codes in their monthly financial data. Your financial software edits the expenditure accounts at the point of data entry. You set your system parameters to give either a "Warning" or an "Error" when an invalid code is used. Please notify your staff that the "Warning" should not be ignored. Using invalid codes causes you problems with your datafile posting and with your MFR reporting. You should download updated files from the BUD System weekly to ensure that you have the most current information.

DPI sends each month, via netview, an "MFR Error Messages" report (PGA10RP4-E) listing any errors detected in your MFR data; and a Monitoring Letter listing any expenditures submitted through datafile to invalid codes, with the valid codes where DPI posted the expenditures. If you disagree with the code used by DPI to post the datafile expenditure, then you must submit a UTR in the BUD system, moving the expenditure FROM the valid code that DPI used TO the valid code that you choose. If you have any questions about the invalid code information on the Monitoring Letter, please contact Richard Smith at 919.807.3729 or [rsmith@dpi.state.nc.us](mailto:rsmith@dpi.state.nc.us).

**FYI:**

**New E-Rate Contact:** Due to reorganization at the NC Department of Public Instruction, Financial and Business Services will now handle the E-Rate responsibilities. Please contact Stephanie English at 919/807-3686, or by email, [senglish@dpi.state.nc.us](mailto:senglish@dpi.state.nc.us), for assistance with this program.

**Bill Status Report:** A Bill Status Report of all education-related bills that have been filed in the General Assembly is attached.

**Missing BUD Batches:** If you transmitted any BUD batches or budgets/amendments on March 17, please make sure that you did get a communication back on them. DPI's AS/400 lines were down for a brief period on March 17 which means we may not have received your BUD transmission. We have already received calls from several LEAs. Please contact Kathy Horky at [khorky@dpi.state.nc.us](mailto:khorky@dpi.state.nc.us) if you need DPI to pull the missing files from your backup files. Please provide the following information:

For adjustment batches:  
Transaction Type  
Batch Number  
Batch Creation Date

For Budgets/Amendments:  
PRC #  
Fiscal Year  
Whether it is an Initial Budget or an Amendment  
Amendment #

**(1) Additional Fuel Allotment:** Transportation Services has authorized an additional \$4.5 allotment for county LEA's to help compensate for the rapidly increasing cost of diesel fuel. It will be contained in Allotment Revision # 20 on April 13th. The amount for each LEA will be the same as Fuel Cost Adjustment #2 listed on line #12 of the December 1 document "2004-2005 Transportation Funding Information" previously mailed to transportation directors, finance officers and superintendents.

**(2) FY 2004-05 Chart of Accounts:** The following codes have been added to the Chart of Accounts and downloaded to the BUD system today:  
1-5100-012-182 Substitute Pay (Classroom Instruction ONLY), and 1-6410-068-332 Travel. If you have any questions concerning these updates, please contact Richard Smith at [rsmith@dpi.state.nc.us](mailto:rsmith@dpi.state.nc.us) or (919)807-3729.

**(3) Workers' Compensation Insurance:** By now most of you have been advised that the North Carolina School Board Trust has made the decision to no longer offer workers' compensation coverage to North Carolina School Districts for future fund years, effective July 1, 2005. Many of you have been calling DPI for information on how to proceed with obtaining workers' compensation coverage for your locally funded employees after July 1, 2005. NC Statue requires LEA's to purchase or self-insure locally funded employees. Consequently, it is our recommendation that you put your workers' compensation coverage out for bid in order to obtain the best possible coverage and pricing structure. Please request from the School Board Association your detailed workers' compensation loss information for the past 5 years. Additionally, it is necessary that you provide accurate payroll information to avoid future audit penalties. If you would like more information on how to bid your workers' compensation coverage, please contact Eileen Townsend at [etownsen@dpi.state.nc.us](mailto:etownsen@dpi.state.nc.us) or (919) 807-3522.

**(4) New School Number Assignment Request Form:** Effective immediately, please use the New School Number Assignment Request form to request new school numbers. The form is a MS Word document, it can be typed online and printed out to fax or mail. It has been added to the School Attendance & Student Accounting manual: <http://www.ncpublicschools.org/fbs/sasa/schnorequestform.doc>.

**(5) Bill Status Report:** A Bill Status Report of all education-related bills that have been filed in the General Assembly is attached.

**FYI:**

**(2) Change in Existing Charter School Funding Policy** - This is a reminder that the LEA's initial allotment will be reduced for any allowable growth in the charter schools ADM from their LEA over the planning ADM. In past years, the Charter Schools were funded up to a 10% growth from a State Reserve and anything in excess allowed over that 10% was treated like a new charter and funding was reduced from the LEA's initial allotment. This year, all of the growth in the charter school over planning will be reduced from the LEA's initial allotment. Please refer back to your FY 2005-06 Planning Allotment letter. Contact School Allotments at (919) 807-3739 if you have questions.

**(3) REMINDER: SCHOOL BUS IDLING SURVEY:** Transportation directors were emailed a survey from Ben Matthews regarding the current status of local policies and procedures aimed at reducing school bus idling. Reduced idling is good for the environment, children's health and conserving fuel. This survey will be the basis for providing accurate information to the State Board, the General Assembly, the State Budget Office and the Department of Environment and Natural Resources. The survey is due April 15th. Contact Ben Matthews (919) 807-3500.

**(4) Missing BUD Batches:** If you transmitted any BUD batches or budgets/amendments on March 17, please make sure that you did get a communication back on them. DPI's AS/400 lines were down for a brief period on March 17 which means we may not have received your BUD transmission. We have already received calls from several LEAs. Please contact Kathy Horky at [khorky@dpi.state.nc.us](mailto:khorky@dpi.state.nc.us) if you need DPI to pull the missing files from your backup files. Please provide the following information:

For adjustment batches:

Transaction Type  
Batch Number  
Batch Creation Date

For Budgets/Amendments:

PRC #  
Fiscal Year  
Whether it is an Initial Budget or an Amendment  
Amendment #

**(8) State Board Meeting Highlights:** Last week, the State Board of Education approved a revision of Initial Licensure and Continuing Licensure Requirements to facilitate the employment of teachers. The revisions would replace the current Initial License with a Standard Professional License 1 and the current Continuing License would be replaced with the Standard Professional License 2. To be issued a Standard Professional License an individual must have three years of satisfactory teaching experience, at least one of which must be in North Carolina; and have the

recommendation of the employing LEA; complete any professional development activities prescribed by the LEA; and satisfy North Carolina testing requirements or hold National Board Certification or submit documentation of the ability to positively impact student achievement or satisfactorily complete the NC High, Objective, Uniform, State Standard of Evaluation for the license areas. The Board also approved a revision of its Healthy Active Children Policy to include a requirement for 30 minutes of daily physical activity in grades K-8 that will occur during the school day. This physical activity may include, but is not limited to, physical education, energizers, recess and intramurals. To read more about these items and other Board actions, please read the Board meeting highlights, which will be posted online by Tuesday afternoon at <http://www.ncpublicschools.org/sbehighlights/>.

**(1) Public School Building Bonds - Semi-Annual Cash Zero-Out May 27, 2005:**

Our department is required to periodically zero-out the Public School Building Bond funds (PRC 078). We will be using the Life-to-date (LTD) draws versus the LTD expenditures reported in our system for the April 2005 reporting period, to calculate the dollar amount to be taken back from your local bank account. We will do this cash zero out for the funds requirement date (FRD) of May 27, 2005 (i.e., the date funds will be withdrawn from your designated bank account). We must receive any expenditure adjustments in our office by Friday, May 20, 2005, that should be posted prior to the Cash Zero-Out.

Please bring your expenditures up-to-date through the April 2005 reporting period (i.e., Life-to-date (LTD) cash drawn through April 2005 should equal LTD expenditures through April 2005). The effect of this zero-out process will be to align your LTD cash and LTD expenditures by project. If you have any questions about your allotment or project balance, or the zero out process, please contact Richard Smith at 919) 807-3729.

**(2) Please Use the NEW local PRCs:** In 2002 the NCASBO Blue Ribbon Chart of Accounts Committee recommended a standardized list of local PRCs. The use of the new PRCs was optional in FY 2002-2003. However, the new codes were mandated in FY 2003-2004.

It has come to DPI's attention that LEAs are continuing to use the old PRCs, which may impact your local per pupil numbers. In order to help LEAs identify if they are still using old PRCs, we added new verification messages to the MFR - Verification Messages Issued Report (PGA10RP4-V).

If you are still using the old PRCs, please do an AJE (adjusting journal entry) in your GL to move the expenditures and revenues to the correct code.

The local PRCs that were reassigned are:

- Impact Area Grants (Local Use) (used to be PRC 070) - Use PRC 308
- Head Start (Local Use) (used to be PRC 071) - Use PRC 309
- Smart Start Programs (Local Use) (used to be PRC 073) - Use PRCs 401 - 409
- Indian Education Act (Local Use) (used to be PRC 076) - Use PRC 310
- Medicaid Reimbursement for Health Related Services (Local Use) (used to be PRC 079) - Use PRC 306
- Before and After School Care Programs (Local Use) (used to be PRC 081) - Use PRC 701
- Community Schools (Local Use) (used to be PRC 082) - Use PRC 704

If you have any questions about your MFR error messages or verification messages, please email Richard Smith at [rismith@dpi.state.nc.us](mailto:rismith@dpi.state.nc.us).

**(3) Education Building Installs New Identification System:** On April 11, 2005, a new visitor ID system was installed in the lobby of the Education building. All visitors will be expected to show a valid driver's license or picture ID to enter the building. Visitors will then electronically sign in and receive a picture ID sticker to wear while in the building. Please be prepared for this security measure when you or your staff visits the Education building in Raleigh.

**(3) Transportation Budgets:** You are reminded to be very professional in the management of your transportation budgets. You may be aware that one of the LEAs is being investigated for the misuse of funds from this area and we want to be sure this is a unique event. So, please be sure that you are taking time to insure appropriate oversight in this area, especially in this time of escalating fuel and equipment costs. Questions, please call Ben Matthews, Director of School Support at 919-807-3501 or email him at [bmatthew@dpi.state.nc.us](mailto:bmatthew@dpi.state.nc.us).

**(4) Workers Compensation First Report of Injury-Form 19:** Most of you are aware of the enormous cost associated with our workers compensation claims and the administration of this program. Recently, we have been advised that about 54% of our school systems have been utilizing the Key Risk First Report of Injury submission available on the Internet at [www.keyrisk.com](http://www.keyrisk.com).

You will find that submitting First Report of Injury (FR-19) claims electronically will save you time. The claim will electronically register with the Key Risk adjuster and submission in this format will save DPI money. Key Risk currently charges DPI \$25.00 for First Response of Injury claims faxed or mailed to them. Reports submitted online

are not charged to our account. Consequently, I urge you to take the time to discuss this matter with your workers' compensation administrator or the individual responsible for filing workers' compensation claims with Key Risk and request that First Report of Injury claims are submitted electronically. With questions on how to submit claims electronically please contact Key Risk or Eileen Townsend, Section Chief, DPI at (919) 807-3522 or [etownsen@dpi.state.nc.us](mailto:etownsen@dpi.state.nc.us).

**(3) Year-End Close-Out and Invalid Account Codes:** It is getting near year-end close-out time. Time to clean-up any remaining errors on the MFR data. There are still many LEAs who are reporting invalid account codes in their monthly financial data. Your financial software edits the expenditure accounts at the point of data entry. You set your system parameters to give either a "Warning" or an "Error" when an invalid code is used. Please notify your staff that the "Warning" should not be ignored. Using invalid codes causes you problems with your datafile posting and with your MFR reporting. You should download updated files from the BUD System weekly to ensure that you have the most current information.

DPI sends each month, via netview, an "MFR Error Messages" report (PGA10RP4-E) listing any errors detected in your MFR data, usually transactions from your general ledger that are recorded to invalid codes; and a Monitoring Letter listing any expenditures submitted through datafile to invalid codes, with the valid codes where DPI posted the expenditures. If you disagree with the code used by DPI to post the datafile expenditure, then you must submit a UTR in the BUD system, moving the expenditure FROM the valid code that DPI used TO the valid code that you choose. If you have any questions about the invalid code information on the Monitoring Letter or valid account codes, please contact Richard Smith at 919-807-3729 or [rsmith@dpi.state.nc.us](mailto:rsmith@dpi.state.nc.us). **(1) Please Verify Your BUD Transactions:** SIPS had line problems on Monday, June 13. If you sent any BUD items (adjustments/202s, federal budgets or federal amendments), there is a chance that DPI did not get your file(s). Please make sure that you receive communication forms back on all BUD transactions transmitted to DPI.

Please contact the Customer Support Center via phone – (919) 807-4357 or email - [help@dpi.state.nc.us](mailto:help@dpi.state.nc.us) if you need assistance in verifying whether or not DPI received your BUD file(s).

**(2) AS/400 OPERATIONS REMINDERS:** To ensure your AS/400 communication lines are working and your distribution lines are clear, please do the following commands **at least daily:**

- Type: **WRKSBS** on an AS/400 command line, press <ENTER>  
Check QSNADS subsystem to make sure it is active. If QDSNX is listed, the subsystem is active. Transfers of network file to/from your system will **NOT** work unless this subsystem is active.
- Type: **WRKDSTQ** on an AS/400 command line, press <ENTER>.  
For any queue not having a status of Waiting, type 3 (Hold Queue) in the option column and press <ENTER>. Then, type 6 (Release Queue) in the option column and press <ENTER>. If the status goes to Rty-Fail, please call the Customer Support Center (919-807-4357) at DPI for assistance.
- Type: **WRKCFGSTS \*LIN SIPS\*** on an AS/400 command line, press <ENTER>.  
Check that status is ACTIVE for SIPSAS4001, SIPS400CTL and SIPS400CTL

Verifying the lines are up and available and your distribution queue is clear will help DPI access your files and will help minimize calls from DPI at year-end. Please contact the Customer Support Center via phone – (919) 807-4357 or email - [help@dpi.state.nc.us](mailto:help@dpi.state.nc.us) if you need assistance with the above commands.

**(3) Please Use the NEW local PRCs:** In 2002 the NCASBO Blue Ribbon Chart of Accounts Committee recommended a standardized list of local PRCs. The use of the new PRCs was optional in FY 2002-2003. However, the new codes were mandated in FY 2003-2004.

It has come to DPI's attention that LEAs are continuing to use the old PRCs, which may impact your local per pupil numbers. In order to help LEAs identify if they are still using old PRCs, we added new verification messages to the MFR - Verification Messages Issued Report (PGA10RP4-V).

If you are still using the old PRCs, please do an AJE (adjusting journal entry) in your GL to move the expenditures and revenues to the correct code.

The local PRCs that were reassigned are:

- State Textbooks (Local Use) (used to be PRC 061) - **Use PRC 130**
- Impact Area Grants (Local Use) (used to be PRC 070) - **Use PRC 308**
- Head Start (Local Use) (used to be PRC 071) - **Use PRC 309**
- Smart Start Programs (Local Use) (used to be PRC 073) - **Use PRCs 401 - 409**
- Indian Education Act (Local Use) (used to be PRC 076) - **Use PRC 310**
- Medicaid Reimbursement for Health Related Services (Local Use) (used to be PRC 079) - **PRC Use 306**
- Before and After School Care Programs (Local Use) (used to be PRC 081) - **Use PRC 701**
- Community Schools (Local Use) (used to be PRC 082) - **Use PRC 704**

If you have any questions about your MFR error messages or verification messages, please email Richard Smith at [rsmith@dpi.state.nc.us](mailto:rsmith@dpi.state.nc.us).

**(4) Allotment Revisions:** Please remember to print a copy of Allotment Revision 24 from your AS400 because it will be replaced by Allotment Revision 25 on Friday, June 17, 2005. Please call School Allotments at (919) 807-3739 if you have questions.

**(5) Abstinence Grant- FY 2004-05:** We have finally received the approved contract for the FY 2004-05 Abstinence funds. These funds will be allotted to all LEAs with approvals in Allotment Revision 25 that is being processed today, June 15, 2005. The Allotment Revision report will be available for printing on June 17, 2005. These funds will rollover in BUD and can be budgeted as carryover in FY 05-06. Please contact Karen Peng at (919) 807-3750 if you have questions concerning the allotments.

**(6) Federal Reversion Warning:** On May 13, 2005, Superintendents and Finance Officers were notified of any federal funds your LEA might revert for the federal grants ending on June 30, 2005. Please remember that funds must be spent by June 30, 2005 for Vocational Education Program Improvement (PRC 017), Vocational Tech Prep (PRC 023), Learn and Serve (PRC 064), and Title IV - 21st Century Community Learning Centers (PRC 110). Please contact Monique Johnson, School Allotments, at (919) 807-3684 if you have questions.

**(7) Eckerd Youth Camp:** Payment for the 4th quarter Eckerd Youth Camp invoice and any prior month adjustments is due today June 15, 2005. Please make sure that the check has been written and sent to DPI. If your payment is not received by June 20, 2005, your At-Risk allotment will be reduced in a clean-up revision prior to the end of the fiscal year. If you have questions, please contact Karen Peng, School Allotments, (919) 807-3750.

**(8) Salary Administration Staffing:** Please be aware that due to an unexpected illness we have only one salary analyst, Marie Houston, in the Information Analysis Section. We understand that as the year end comes near the LEAs have increasing needs in the salary area and we are temporarily realigning staff to try and accommodate the needs. Please be patient as we try and provide the service to which you have become accustomed.

## **BUD Year End Information:**

1. Starting June 13 until July 1, we will receive and process the BUD adjustment/202 batches at 1:00 PM and 8:00 PM each day. If you send an adjustment batch by 1:00 PM, you can conceivably receive your communication form back that same afternoon. Hopefully, this change will allow LEAs more time to correct denied batches. **Please be sure and receive your files daily if you know that you have sent BUD batches to DPI for processing.**
2. You may send BUD 202's to DPI until midnight on July 1, 2004 for FY 2005 batches. However because July 2 is a Saturday, and we know that you do not want to be in the office on Saturday while we check your distribution queues, **it would be helpful if you can get your BUD batches to DPI by 3:00 PM.** If you need to send BUD batches after 3:00 PM, please E-Mail [Systems\\_Accounting@dpi.state.nc.us](mailto:Systems_Accounting@dpi.state.nc.us), so we can verify that we do have your batches to process. We will not be able to process "lost" batches after we are closed.
3. For your salary corrections, please keep BUD 202 information for July-May voucher dates in separate batches from June voucher corrections/refunds. This will help you get your information processed quicker. **Remember that we cannot process BUD batches with June voucher dates until we get your June data on July 1.**
4. We recommend that you keep your adjustment batches small.
5. Please remember the salary system cannot process multiple changes to a voucher on the same day. You must wait for one change to clear before submitting another change to that same voucher. The exception to this will be your June vouchers since we will process all June voucher changes in one day on July 2.
6. Starting July 1, the BUD system will default Year Ending June 30, **2006** in the adjustment batches. In order to avoid this, you will need to change the Year Ending date to **2005 on the menu (AUMU) BEFORE** creating a new batch for FY 2005.
7. We are sending BUD communication forms back to you daily, including the Federal budgets/amendments. Please receive and review your 202 batch communication forms daily to ensure that we did process your 202 batches and did not reject them. You must correct rejected batches and send the corrected batches back to DPI by July 1.

Please contact [Systems\\_Accounting@dpi.state.nc.us](mailto:Systems_Accounting@dpi.state.nc.us) if you have any questions regarding BUD processing for year end.

**(1) Matching Retirement Rate:** With the July 1st accrual submission deadline looming, and the House (**6.82%**) and Senate (**6.83%**) budget recommendations for matching retirement being different, DPI is recommending that the LEAs use the Senate's higher rate of **6.83%** as the matching retirement rate for the 11th and 12th Installment accruals. We are making this recommendation to help prevent over expended allotments from occurring after June 30th when Installments are posted and the Accruals are reversed. This is an option that the LEAs may choose to use to avoid possible refunds if the higher Senate rate is adopted in the conference committee. We will keep you posted, and notify you of the final rate once negotiated. If you have questions contact Paul LeSieur at 919.807.3700, [plesieur@dpi.state.nc.us](mailto:plesieur@dpi.state.nc.us) or Alexis Schauss at 919.807.3708, [aschauss@dpi.state.nc.us](mailto:aschauss@dpi.state.nc.us).

**(2) Reminder to Monitor Administration Expenditures:** Five Federal PRCs [Vocational Education (017), Safe & Drug Free Schools (048), Title I (050), Language Acquisition (104) and Reading First (106)] have administration expenditure limitations. These limitations are monitored at June 30. In addition, indirect cost charged to federal programs is compared against your approved rate. If administrative expenditures and/or indirect cost charges exceed allowable amounts, you may be subject to an audit exception by your independent auditors. Please contact Margaret Wall (919-807-3682 or [mwall@dpi.state.nc.us](mailto:mwall@dpi.state.nc.us)) or Stephanie English (919-807-3686 or [senglish@dpi.state.nc.us](mailto:senglish@dpi.state.nc.us)) in the Monitoring & Compliance Section if you have questions.

**(3) Datafile Transmission Reminder:** In order to ensure that we receive all of the installment accruals with the June datafile transmission, and to prevent us unnecessarily contacting those of you who will have no accruals, we are requesting your help.

If you do not pay your employees on traditional installments, and therefore will not have installment accruals, please email Ally Barfield at [abarfiel@dpi.state.nc.us](mailto:abarfiel@dpi.state.nc.us) no later than close of business on June 28th. Simply put "No accruals - LEA (plus your three digit LEA number)" in the subject line. We appreciate your help!

**(4) Monthly Reports for June:** Please remember that transmission of your monthly June expenditure data, MFR, retirement and accrual files will commence at 12:01 a.m. July 1st. Please make sure that your communication lines are available for this transmission.

You will receive a confirmation email from us once DPI receives all of your expected files. It is imperative that someone be on site on the morning of July 1 to receive this confirmation, as we will also be contacting those LEAs whose data we have not received.

Please note that although your system may indicate that a transmission has occurred, it may not actually reach our systems. If your data has not been received, someone will need to be on site until the files are received.

Help us to close out your fiscal year!

**(5) IMPACT OF PROPOSED BUDGETS ON LEAs:** How is your LEA's planning allotment affected by the budgets proposed by the Governor, Senate and House? Go to the Financial and Business Services website at [www.ncpublicschools.org/fbs/](http://www.ncpublicschools.org/fbs/) under "What's New" and click on the link to bring up the Excel spreadsheet. Then simply type in your LEA number and you can review the planning allotment for 2005-2006 along with how those planning allotments are impacted by the budgets proposed by the Governor, the Senate and the House. This information does not reflect proposed salary or benefit adjustments. It also does not reflect allotments for Improving Student Accountability and ABC Incentive Awards since those funds are distributed based on test scores which are not yet finalized. If you have any problems, contact the School Allotments Section at (919) 807-3739.

**(6) 2005-06 LOW WEALTH AND SMALL COUNTY PLANNING ALLOTMENTS or LOW WEALTH FORMULA CALCULATIONS:** To see your Low Wealth and/or Small County planning allotments or Low Wealth formula calculation, go to the Financial and Business Services website at [www.ncpublicschools.org/fbs/](http://www.ncpublicschools.org/fbs/) under "What's New" and click on the link to bring up the Excel spreadsheet. Then simply type in your LEA number and you can review the planning allotment for 2005-2006. This information does not reflect proposed salary or benefit adjustments. If you have any problems, contact the School Allotments Section at (919) 807-3739.

**(1) Clarification of the Continuing Resolution message sent to Finance Officers on Friday July 5, 2005.**

Unfortunately, some information in our previous communication related to the continuing resolution is being misinterpreted. We would like to make sure we clarify a few items:

- LEAs may fill vacancies. There is no restriction on hiring at the LEA level.
- LEAs should be cautious when filling positions if there is a difference in the Senate and House budgets or if the budgets have reductions outlined on the comparisons sent out previously (we have attached a document reflecting agreed upon reductions and disagreed upon allotment adjustments). Use the "worst case" amount in planning at this time. (See next bullet to determine the lowest anticipated funding level)
- LEAs can count on the funding received in their Planning Allotments if the Senate and House budgets reflect no change in the funding levels. Refer to the following web address to view the changes based on the Senate or House budget.  
[http://www.ncpublicschools.org/fbs/schlbus/allotments/whatnew\\_budgetcomparison.xls](http://www.ncpublicschools.org/fbs/schlbus/allotments/whatnew_budgetcomparison.xls)
- It is important to remember that the House Budget does not eliminate the discretionary reduction. Therefore, you will need to be prepared to return a portion of your allotment to eliminate this possible reduction.

**To better understand the explanations below, see the attached document (Agreed Upon Reductions and Disagreed Upon Allotment Adjustments) reflecting items agreed to and disagreed to in the Senate and House budgets.**

- If an allotment category has no change from Planning to Senate or House budgets on the Budget Comparison worksheet, located under the "What's New" section of the FBS website, then there will be no change to funding level and the planning allotment can be used as expected funding.
- If the Senate and House agreed to increases or decreases in the budgets on the Budget Comparison worksheet, located under the "What's New" section of the FBS website, then the amounts reflected on the budget comparison can be used for planning.

- If the Senate and House disagree on amounts to increase or decrease on the Budget Comparison worksheet, located under the "What's New" section of the FBS website, then use the "worst case" amount on the budget comparison can be used for planning.

**Compare your FY 2004-05 funding levels on your final allotment revision worksheet to the lowest possible funding level at the website above.**

- This will give you an indication of how you should proceed in planning at this time and the ability to fill your vacancies.
- You control your budgets and can determine the best way to plan your hiring and spending for the 2005-06 school year.
- The only restriction we suggest is you use the "worst case" cut by either the Senate or House. That could be your allotment for the 2005-06 school year.
- We have made these documents available to you to ensure you have the best possible information to make decision for your school system.
- It is important to remember that the House Budget does not eliminate the discretionary reduction. Therefore, you will need to be prepared to return a portion of your allotment to eliminate this possible reduction.

**(2) NOTICE: Employer Matching Retirement Rate:** Per the Retirement system, the legal employer matching retirement rate is still 5.815%. Regardless of the matching rate used to produce the DPI Accrual file, any actual payrolls run prior to the passing of the budget must still be matched at the existing 5.815% rate. Once the budget is passed, you will receive additional information from DPI and/or the Retirement System on any adjustments that might be necessary. If you have questions contact Paul LeSieur at 919.807.3700, [plesieur@dpi.state.nc.us](mailto:plesieur@dpi.state.nc.us) or Alexis Schauss at 919.807.3708, [aschauss@dpi.state.nc.us](mailto:aschauss@dpi.state.nc.us).

**(3) June Reports Netviewed:** Please note that the June state and federal expenditure reports which were netviewed to you this week are referred to as our "Cash Closeout Reports". These reports represent only the regular June 2005 expenditures, and do not reflect installment accruals.

The installment accruals will be posted by next week, and June reports reflecting accruals will be netviewed to you at that time. Please be sure to print out all of your yearend reports.

**(4) Adjustment and Refund Processing:** Fiscal year 2004-05 processing as the current fiscal year has now been closed. When you are refunding or adjusting expenditures for FY 2004-05, you are required to use BUD and indicate that the adjustments are prior year adjustments. Submitting hard copy checks and/or paper

FPD 202 forms for this fiscal year are not necessary nor desired, unless specifically requested from you by a member of the Information Analysis and Reporting staff.

If you are making adjustments or refunds for exceptions remaining for FY 2003-04 fiscal year or earlier, you are required to submit hard copy checks and/or paper FPD 202 forms. The BUD system only recognizes one prior fiscal year at any given time.

The current fiscal year is now 2005-06 for all BUD processing. If you have questions contact Alexis Schauss at 919.807.3708 or [aschauss@dpi.state.nc.us](mailto:aschauss@dpi.state.nc.us).

**(5) Annual Transportation Report Due:** Reminder: Transportation directors are aware that the "TD-1" annual transportation report for 2004-2005 is due to DPI Transportation Services by August 1. This important information is required in order to determine state transportation funding for 2005-2006. Finance Officer, Superintendent and Transportation Director signatures are required. If you have questions contact Derek Graham at 919.807.3571.

**(6) FY 2005 13th Month MFR Rescheduled:** Due to the time frame of the FBS Summer Conference, we are rescheduling the pick up of your 13th Month MFR data. DPI will access your preliminary 13th month MFR file on Monday night, July 25.

Please be sure to do the following before building the 13th Month MFR File:

- 1) Book the Period 12 zero-out entry to your GL in June (Period 12).
- 2) Correct all of your MFR errors, including local account codes.
- 3) Review the AFR/MFR Recommendations posted on the Financial and Business Services web page to ensure accurate reporting of your Per Pupil expenditures: <http://www.ncpublicschools.org/fbs/afr-mfr04.html>

Please email your MFR questions to:

**(7) Prior Year Allotment Overdrafts:** Please note that the dollar amount of the exception for overuse of months in any allotment category under the "Months Allocated Versus Months Used" area of this report is based on the statewide average salary for that allotment category. The amount you need to refund is based on the employee you choose to refund for the number of months over used.

**(8) Allotment Overdrafts:** Allotment overdrafts for FY 2004 are being downloaded to you today. Please note that if you still have remaining exceptions, they need to be refunded, along with the associated penalties as soon as possible. These

refunds must be done on manual 202 forms, and require a hard copy check to accompany them. BUD only recognizes one prior fiscal year in processing.

Allotment overdrafts for June, FY 2005 (which do not reflect your accruals) will be downloaded to you early next week. Any allotment overdrafts and/or associated penalties are to be handled through BUD, and marked as prior year batches. These overdrafts are to be handled as soon as possible.

We have run preliminary allotment overdraft reports based on your accrual information, and projected allotment overdrafts are quite large. When you make your installment payments, you need to be sure to process prior year BUD batches at the same time to cover any overages you may have as you go.

You are reminded that using State funds to pay for expenditures in excess of your resources is against State law. Please be sure that you are in compliance and covering any unauthorized usage immediately.

**2005-06 Substitutes Pay Ranges:** Substitute rates were affected by the Calendar Bill (HB1464), where it states that the "substitute rates and annual leave pay outs shall be calculated based on a 22 day month". The substitute minimum rates are as follows:

**Non certified:** 50% of (A00 Daily rate / 22 days)

$\$2,551/22=115.95$

$115.95 \times 50\% = 57.97 = \$58$

**Certified:** 65% of (A00 Daily rate / 22 days)

$\$2,551/22=115.95$

$115.95 \times 65\% = \$75.37 = \$75$

Substitute Maximum rates is the daily rate for a A00 calculated at 22 days

$\$2,551/22=115.95$

**Please note that these are only minimum and maximum dollar amounts allowable from State funds. LEAs may choose to pay anywhere within the range as long as a non certified substitute is not paid more than a certified substitute.**

**Hospital Insurance 05/06 Calculation:** We have attached a calculation of the Hospital Insurance for FY05/06 for your convenience.

**July MFR's Netviewed:** Please note that DPI will be netviewing MFR's for the month July-FY'06 this week on Thursday, August 18th. - 1) correct your data

There is a FINAL pick up scheduled for Monday night, September 12th! This will be the FINAL PICK UP!!!!

Please contact Kendall Jordan if you have any questions/concerns.

**(2) HB 1491 INSURANCE FOR SCHOOL SOCIAL WORKERS:** Under this new legislation, school districts are required to reimburse social workers for their increased premiums, if the LEA requires an employee to increase auto liability limits under their personal policies. If a school district does not require social workers to purchase additional limits under their personal automobile policies, then claims arising out of a social worker's use of their personal automobile on school business (which exceed the social worker's workers personal automobile insurance limit) could potentially be covered under the LEA's coverage with the NC School Board Trust or another automobile liability provider.

Before requiring your social worker to increase their auto liability coverage, LEAs may want to check with your auto insurance provider. Hired and Non-owned insurance provisions under an LEA's automobile contract may already provide adequate limits and coverage.

**(3) Clarification on the School Closing Date:** Communication was recently sent out concerning the school calendar requirements. The 6th item on that communication stated

\* If the State Board of Education has not granted a calendar waiver based on the 10-year inclement weather history, what is the latest closing date for the current school year? The school closing date shall not be after June 10th.

This item was referring to the original calendar dates set by the local board of education. However, all schools must have 180 instructional days in the school year and there is no waiver for this requirement. If there are circumstances that result in instructional days being missed and there is no ability to make up the days before June 10th, a local board of education may move the closing date past June 10th in order to fulfill the 180 day requirement. The last school day must be prior to July 1.

**(4) Assistance Team non salary expenses:** Effective July 1, 2005, all non salary expense items in the PRC037 chart of accounts were removed. Assistance team members were notified that they are now required to submit all travel and other reimbursement directly to DPI Curriculum area, Attn: Jackie Colbert, Director. Any expenditures received on the non salary object codes in State PRC037 through datafile will be denied and a refund will be required.

**(5) 2006 Federal Advanced Placement and International Baccalaureate Fee Program:** The U.S. Department of Education has awarded North Carolina funding that permits the payment of registration fees for the 2006 administration of AP & IB examinations. Review the attached AP Fee Reduction Memorandum and attachment concerning the allotment of these funds. If you have questions contact Wandra Polk at 919.807.3817 or [wpolk@dpi.state.nc.us](mailto:wpolk@dpi.state.nc.us).

**(6) Class Size Averages and Individual Class Size Ratio:** The North Carolina General Assembly has adjourned for this year and there are no changes in class size maximums for the 2005-06 school year. Attached you will find information regarding LEA-wide class size averages and individual class size ratios. If you need additional information regarding class size, please refer to Chapter 4 of the School Attendance & Student Accounting manual. Every few weeks the home page will feature a photo and article related to school transportation in North Carolina. The Institute for Transportation Research and Education at NCSU maintains the School Bus Safety Web site with funding from the Governor's Highway Safety Program. Questions or comments should be directed to Laurie Vandiford Hobbs at [lav@unity.ncsu.edu](mailto:lav@unity.ncsu.edu).

**(9) NC WISE HAS NEW STATUS PAGE:** A new status page is available on the NC WISE Web site. The page provides users with information on recent system-wide problems, issues and workarounds if available. The page is updated frequently allowing personnel to monitor the status of software problems. Using the Help Desk Education Automation Tool (HEAT) System, the NC WISE Help Desk closely monitors the types of errors that users report. When multiple calls are received for a particular issue, the NC WISE Help Desk posts the issue to the Status Page. Related information will be provided and updated frequently until a problem has been resolved. To access the Status Page, please go online to [http://www.ncwise.org/ncwise\\_status\\_page.htm](http://www.ncwise.org/ncwise_status_page.htm). This adjustment must be made at the individual 221 object code levels. (Fund, purpose, PRC, object code level - you do not need to post it to the individual school code levels) SunPac and ISIS users have query reports that will calculate the matching difference by individual budget code. Please use these reports to accrue the adjusting invoices to your next payment to the retirement system. Remember, the adjustments **MUST** be made at the individual 221 object code level. There is NO single adjustment budget code as was available last year. If you have any questions please contact Ally Barfield at 919-807-3715 or [abarfiel@dpi.state.nc.us](mailto:abarfiel@dpi.state.nc.us).

(3) **Change in IRS Mileage Rate:** The Office of State Budget and Management has distributed a memo detailing a change in the IRS mileage rate. I have attached the memo for your review. **(1) Federal Initial Allotments:** The Federal Initial Allotments uploaded to MSA on Wednesday, September 21, 2005 in Allotment Revision 4. Please see the attached Federal Initial Allotment Formula File for more information on which PRCs were uploaded. This file also notes whether 100% or an installment of funding was allotted. Only LEAs/Charters with approved applications and budgets received funding. Please contact the School Allotments Section at (919) 807 -3739 if you have any questions.

**(2) Matching Retirement Adjustment:** The North Carolina Retirement System recently sent a letter to all Finance Directors (see attached) stating that the difference that has resulted between the employer matching amount paid and the employer matching amount calculated at the new 6.82% rate should be adjusted by no later than October 31, 2005. **(3) Discretionary Reduction:** The Discretionary Reductions were processed in Allotment Revision 4 on Wednesday, September 21, 2005. Please remember that the amount of the reduction on Allotment Revision 4 will differ for the Discretionary Reduction Worksheet for the position and the months of employment allotments because the Worksheet calculates the reduction at the Statewide Average Salary and the Allotment Revision calculates the reduction at the LEA's Average Salary. The reduction on the worksheet USES the Statewide Average Salary because this is the salary used to fund the State Public School Fund Budget. The allotment after the Discretionary Reduction should match the last column on the Discretionary Reduction Worksheet. If you have any questions, please contact the School Allotments Section at (919) 807 – 3739.

**(4) Make It A Goal: Revert NO Federal Money:** Please pay close attention to your FY 2003-04 federal grant funds and help our state revert zero, no, nada, zilch, nil federal funds. Funds for grants with a 15 month term must be spent by September 30, or the funds revert. Funds for grants with a 27 month term must be encumbered by September 30 and those encumbrances must actually be liquidated by December 31, or the funds revert. If you have any questions, please contact School Allotments at (919) 807 - 3739.

**(5) MSA Cash Management Training:** MSA and Cash Management training is being offered this year on the following dates: November 1, 2005, January 18, 2006, and March 28, 2006-LEA's only; and December 7, 2005 - Charter schools. There is no registration fee for the class, but you must register in order to attend. On-line registration is available at the following site: <http://training.dpi.state.nc.us/>. Class description: "Surviving the School Business Jungle" - DPI Systems Training. This class is designed for those who work in an LEA or Charter schools finance office - Finance Officers and finance staff. The class consists of "hands-on" training in the MSA/DBS General Ledger System and the Cash Management System. Instruction is targeted to the beginner or new user, or as a refresher. Questions for the LEA training, please contact Richard Smith at [rsmith@dpi.state.nc.us](mailto:rsmith@dpi.state.nc.us) or (919) 807-3729; and questions for charter school training, contact Karen Frazier at [kfrazier@dpi.state.nc.us](mailto:kfrazier@dpi.state.nc.us) or (919) 807-3738.

**(6) Flood Insurance:** A letter dated 9/7/2005 was sent to school finance directors from Janice T. Burke from the Department of State Treasurer regarding Flood Insurance. If you are an Insured Member of the Public School Insurance Fund, please be advised that a certificate of insurance has been prepared for your LEA and provided to the Department of State Treasurer.

Please keep in mind that if your school property is located in Flood Zones "A or V," coverage is only available from the National Flood Insurance Program (NFIP) through FEMA. Insurance offered by the Public School Insurance Fund for Flood Zones "A & V" is excess coverage over NFIP and subject to the special flood deductible equal to all flood insurance that would have been available in the flood occurrence as if the community participated in the national flood insurance program. Please review your flood plan maps as drawn by FEMA and secure coverage accordingly. Contact Eileen Townsend, Section Chief, Insurance if you would like more information or a copy of the Certificate of Insurance sent to the State Treasurer's office. **Sales Tax Refunds and How it Should be Handled:**

- 1) The State tax paid in 2005-06 will be redirected in 2006-07 (when LEAs would normally receive the reimbursement) to the State Public School Fund. So you would apply in 2005-06 for the State tax paid in 2004-05 (4.5 cents), but you would not apply in 2006-07 for the State tax paid in 2005-06.
- 2) The amount redirected is based on previously filed reports. You will not be able to apply for a refund of your State sales taxes paid in FY 2006-07. In fact, you will not have to file any report related to State sales taxes.
- 3) The 'intent' of the General Assembly action was to redirect the 4.5 cents to the State Public School Fund and allow you to apply to get reimbursed the 2.5 cents (local). The language in the Budget Bill (Section 7.51) does eliminate your ability to apply for any sales tax refund; however, we do think the language will be modified in the short session to allow you to apply for reimbursement of the 2.5 cents (in other words, keep your records because you will be able to apply for the local sales tax paid next year).

If you have any additional information on sales tax refunds you may contact Alexis Schauss at (919) 807-3708 or Paul LeSieur at (919) 807-3701.

**First Month ADM Adjustments**

ADM adjustments will be handled as in the past. A letter or e-mail requesting us to review your ADM from your first month principal monthly report is required for an adjustment to be made to your allocations. You must have 100 in ADM or 2% increase over your initial allotment ADM to be eligible receive additional funding.

Please refer to the Allotment Policy Manual for additional information regarding how to apply for and what you may receive if your LEA meets the requirements for additional ADM increases in the first or second month of school.

**(6) Travel Directive Amendment:** In compliance with Governor Easley's directive to restrict state employees' travel, OSBM issued a set of travel directives establishing a "no travel" policy with limited exceptions. Please review the attached memorandum. The travel directive issued by the State Budget Office on September 12, 2005 has been extended to October 31, 2005. To the maximum extent possible, agencies should engage in energy conservation practices.

**(7) Employment Security Commission Invoices and Statements:** The ESC is currently preparing year end invoices and unemployment statements. These will be mailed to your LEA on or about November 15, 2005. However, you will be able to access the information early using your online ESC account. It will be available the week of October 24, 2005. (You will be reminded and notified of the exact date as it approaches.) The individual in your LEA assigned to receive communication about unemployment from the ESC will receive the year end information.

It is important that the year end statement be reviewed, prepare the worksheets that you will receive from DPI, and mail your unemployment payment check back to us. (Instructions about this process will be forthcoming)

The ESC will not grant us any waivers for late payments. We are committed to provide them with full payment by January 9, 2006.

Please call or email Tarsha Silver 919.807.3521 or [silver@dpi.state.nc.us](mailto:silver@dpi.state.nc.us) with any questions.

**(8) 2006-07 Calendar Waiver Deadline:** The deadline to request a LEA-wide or individual school calendar waiver for the 2006-07 school year is November 1, 2005.

LEA-wide waivers must be requested annually. A list of LEAs eligible to request a LEA-wide waiver due to their 10 year history of inclement weather is on the FBS website at <http://www.ncpublicschools.org/fbs/calendar04.html> "10 Year Closing History". Those LEAs who would like to request a waiver should complete the Waiver Request Form "06-07 by LEA" found on the same webpage.

Individual School or Program waivers are renewed on the same cycle as the school improvement plan. All schools must request a waiver, even those under SB 656, Innovative Education Initiatives Act. Those LEAs who would like to request a school waiver should complete the Waiver Request Form "06-07 by Individual School or Program" found on the same webpage.

The State Board of Education will act on calendar waivers once each year. **Missing the November 1 deadline will delay your request for one year.**

**(1) Salary System News:** DPI has inserted the September vouchers (Pay Period 3) in the salary system as of October 10, 2005.

Please Note: DPI is experiencing problems with our server. Your patience is appreciated while we work to resolve the issues.

**(2) Revisions To Property Risk Control Services:** The Governor's call for fuel conservation has prompted Public School Insurance Fund to review our school inspection travel practices, and to find better ways to do our part in the conservation effort. To achieve this goal and maintain our commitment to provide quality loss control services, we have revised our survey inspection method.

Risk Control Specialists will begin to utilize teleconferencing as a means to identify concerns prior to conducting physical Risk Control Field Inspections. They will contact maintenance directors, finance officers and personnel they have worked with in the past via phone to begin oral communication of how inspections will be conducted. We will strive to inspect properties based on prior recommendation concern, and will continue to inspect any properties you request. Property, where we have not had loss control issues in the past, will be inspected as time permits.

This revision reduces the number of visits to a school system; the number of miles traveled; and allows us to cover more than one school system in a planned trip.

Teleconferencing will again be used to convey the results of our property survey back to your school system; together we will develop improvement plans.

It is our hope that this revision will continue to focus on servicing your school needs and require less of your time and resources. If you have circumstances that require our service outside of this plan, please contact your Risk Control Specialist. Or, you can contact Joseph Gramer at DPI 919-807-3532.

Your insurance coverage will not be affected by this revision. Please let us hear from you with any problems or concerns.

Please share this information with your Maintenance Director.

**(2) Travel Directive:** On September 30, 2005, at the direction of Governor Easley, OSBM issued a directive restricting statewide travel. Since its issuance, circumstances surrounding fuel availability have improved. In light of these changed circumstances, OSBM is rescinding the Memo of September 30, 2005, but continues to ask that all future travel be managed in a prudent manner. See attached Memorandum from David McCoy, Office of State Budget Management.

**(1) SALARY SCHEDULE INCREASE:** As you are aware, the Governor has authorized an increase in the teacher salary schedule. The following provides more detailed information on the effect.

Each step on the Bachelor's teacher salary schedule (A Schedule) will be increased by \$75.

The master's and NBPTS schedules will continue to be tied to the Bachelor's schedule with the 10% and 12% differential, respectively. Therefore, the Master's steps will be calculated as 10% x (Bachelors +\$75).

The Assistant Principal Schedule will continue to be 1% higher than the Master's schedule and the Principal's schedule will continue to be tied to the Assistant Principal schedule.

As a result Masters and NBPTS certified individuals will receive higher than the \$75 per month.

All individuals who are required to be paid from the State Certified Salary Schedules will receive the raise.

The effective date is the 5th pay period (which may not necessarily be November 1 for your LEA). DPI will adjust the salary system for the 5th pay period data, therefore, ALL 5th pay period certified data should reflect the new salary schedules and no proration should take place.

Your allotments will be reflected accordingly and more details on this will be sent shortly.

Attached are the new teacher/instructional support schedules. The new school based administrators salary schedules will be posted before the end of the week.

## Substitute Pay

Effective 5th pay period Substitutes Pay Ranges:

The substitute minimum rates are as follows:

Non certified: 50% of (A00 Daily rate / 22 days)

$\$2,626/22=119.36$

$119.36 \times 50\% = 59.68 = \$60$

Certified: 65% of (A00 Daily rate / 22 days)

$\$2,626/22=119.36$

$119.36 \times 65\% = \$77.59 = \$78$

Substitute Maximum rates is the daily rate for a A00 calculated at 22 days

$\$2,626/22=119.36$

Please note that these are only minimum and maximum dollar amounts allowable from State funds. LEAs may choose to pay anywhere within the range as long as a non certified substitute is not paid more than a certified substitute.

**(2) DUE NOW - Matching Retirement Adjustment:** The North Carolina Retirement System requests that all differences between the employer matching amount paid and the employer matching amount calculated at the new 6.82% rate be adjusted by no later than October 31, 2005. The adjustment may be included with your regular October reporting or it may be submitted earlier as a separate adjustment. If you choose to submit it as a separate adjustment, please mail it to the attention of Janice Wilkins with the North Carolina Retirement System and include a note stating that it is to adjust the July and August retirement matching. If you have any questions about the adjustment amount owed by your LEA, please contact Janice Wilkins at 919-508-5348. If you have any questions about making the adjustments by fund to the individual 221 object codes, please contact Ally Barfield at 919-807-3715 or [abarfiel@dpi.state.nc.us](mailto:abarfiel@dpi.state.nc.us).

**(3) POTENTIAL NCIH SITES FOR JULY 1, 2006 to JUNE 30, 2007:** School districts that are considering adding a North Carolina Information Highway (NCIH) site during FY 2006 (July 1, 2006 to June 30, 2007) and wish to be incorporated into the state's next consortium application for NCIH E-Rate funding should contact Stephanie English by November 15, 2005. Contact information is [senglish@dpi.state.nc.us](mailto:senglish@dpi.state.nc.us) or 919/807.3686.

If you choose to participate as a consortium member, you will need to provide DPI with a signed Letter of Agency (LOA). DPI will e-mail this document to you. DPI and ITS

(NC Office of Information Technology Services) will then prepare and file the necessary documents for the E-Rate funding. Providing DPI with a signed LOA does not mean you MUST involve your school district in NCIH during FY 2006, you can choose to not to participate.

For information on NCIH technical requirements, please contact Brian Layh at [brian.layh@ncmail.net](mailto:brian.layh@ncmail.net) or 919/754.6622.

Many of you may be asked to complete the survey. The completed surveys must be returned to School Planning by Tuesday, January 17, 2006. For more information, please contact Kenneth Phelps, School Planning, NCDPI, at 919-807-3561, or by email, [kphelps@dpi.state.nc.us](mailto:kphelps@dpi.state.nc.us).

**(3) State Board Adopts Reduced Idling Incentives:**

On Thursday, November 3 the State Board of Education revised the Allotment Policy Manual as follows: **"In order to be eligible to receive any mid-year transportation allotment resulting from increased fuel prices, an LEA must have a reduced idling policy in place at the beginning of the school year. For the 2005-2006 school year, the policy must be in place no later than January 10, 2006. The local policy must, at a minimum, prohibit all unnecessary school bus idling on school grounds and prohibit the warming up of buses longer than 5 minutes. As always, any increase in allotments will be subject to the availability of funds."**

The North Carolina School Boards Association has provided a sample policy and administrative procedure that meet the requirements.

There are also videos and a driver training PowerPoint that may be of use in explaining the reduced idling issues to local boards of education. All of these idling materials are

available at <http://www.ncbussafety.org/ldling.html>. Transportation directors should mail locally adopted policies to DPI Transportation Services. Please contact Derek Graham with questions at [dgraham@dpi.state.nc.us](mailto:dgraham@dpi.state.nc.us).

**(4) E-Rate Training Session Scheduled:** An E-Rate training session will be held via the North Carolina Information Highway, on Monday, November 14, from 12:30 - 5 pm. **(1) Governor's Salary Increase:** The School Allotments Section is recalculating the allotments to include the Governor's salary increase that was effective November 1, 2005. This allotment will be processed in Revision 11 and will upload to MSA on November 30, 2005. Allotment Revision Reports will be available on the AS 400 for printing on December 2, 2005. The following process will be used to calculate the increases:

**Position and Months of Employment Allotments** - The average salaries used to calculate the dollars for the position and months of employment allotments will be increased by \$525 for Teachers, Instructional Support, Career and Technical Teachers (per 10 month position), and Assistant Principals (per 10 month position). The average salary for Principals will be increased by \$600 (per 12 month position).

**Categorical and Dollar Allotments** - The funding generated from the salary increase on positions paid out of categorical and dollar allotments will be used to increase the budget for these categories. The formula will be recalculated and funding factors will be increased accordingly.

If you have any questions, please contact the School Allotments Section at (919) 807 - 3739.

**(2) 2006-07 School Calendar and Veteran's Day:** Many of you are completing your 2006-07 school calendars and the following question has arisen from several LEAs:

The Department of Public Instruction has received communication from the General Assembly legal staff on the response.

Yes, LEAs shall be required to designate a holiday on the same day the State of North Carolina designates the holiday (Friday or Monday). There shall be no instructional day or staff workday on this observed day.

**(1) Transportation Allotment Update:** The Dec. 1 transportation allotment adjustment data were mailed to local superintendents, transportation directors and finance officers. The actual allotment will be issued by the NCDPI's School Business Section to finance officers later this month. Over \$280 million dollars is allotted for transportation operations for 2005-06. Additional fuel allotments will be issued to LEAs that have an adopted reduced idling policy that will be in place by Jan. 10. County and City LEAs should work together to make sure that EACH LEA has an adopted policy in order to ensure that the complete fuel allotment is received.
