

Kindergarten

COUNTDOWN

Will your child turn 5 years old
on or before Aug. 31, 2009?

If so, NOW is the time to register for Kindergarten!

Follow these easy steps to enroll:

- 1- Contact your local school district to determine what elementary school your child will attend and what information you will need for registration. Remember to ask if your child's elementary school will hold a special day for kindergarten registration and orientation.
- 2- Get your records in order. Most districts will require:
 - a certified copy of your child's birth certificate;
 - your child's updated immunization record;
 - a completed Kindergarten Health Assessment form (available at local school districts and health departments); and
 - proof of residency (i.e. current utility bill, property deed or rental lease).
- 3- Bring all appropriate documents to your child's assigned school and register!

Registering early saves time and stress and helps schools prepare for North Carolina's youngest new students!

For more information, contact your local school district.
