Annual Report on School Violence: 2003-2004

Introduction

In 1993, the General Assembly passed the Safe Schools Act requiring Local Education Agencies (LEAs) to report acts of crime and violence specified by the General Assembly to the State Board of Education. G.S. 115C-288 (g) requires schools "To report Certain Acts to Law Enforcement...." In 1995, the State Board of Education required individual school principals to report immediately acts of crime and violence to law enforcement and to the school system's central office. Thus, the State Board charged the Department of Public Instruction (NCDPI) with the responsibility of developing a process for collecting, analyzing and reporting crime and violence data on an annual basis.

In year, 2000 the Annual Report on School Crime and Violence (ARSV) and the Suspension and Expulsion Reports were combined, thereby reducing dual reporting of information. In 2002, the State Board of Education added three new acts of crime and violence that principals were to report to law enforcement: bomb threats, possession of alcoholic beverages, and burning of school buildings. Year 2002-03 served as baseline data for each of the aforementioned acts. The Suspension and Expulsion Report and the Annual Report on School Crime and Violence data are collected under the name of the Disciplinary Data Collection (DDC). The format for collecting data is complex, and thus is a continuously evolving process. The following steps were completed once again in the 2003-04 reporting process:

- An Annual Report on School Crime and Violence contact person was identified in each LEA and assigned the responsibility of working directly with NCDPI on completing the ARSV and the Suspension and Expulsion Reports.
- Safe and Drug Free Schools Coordinators, ARSV/LEA contacts, Safe Schools Advisory Committee, Charter Schools, Instructional Support Directors and others discussed expectations associated with reporting disciplinary data.
- Two training sessions were held prior to the submission of the 2003-04 data. The agenda for the meetings included: "Legal Issues Associated with Reporting"; "Reporting and Coding Expectations", "Understanding and Interpreting the Definitions"; and "How to Record the Data on a Disk."
- LEAs were informed of the procedures necessary to report and submit data to the Department of Public Instruction via a letter (see appendix). DDC forms were placed on the Safe Schools and Accountability Section's web pages.
- The importance of the June 30th data deadline and the emphasis on the superintendent verification form requirement were reviewed. In August 2004, tables 6B and 6C of the ARSV were sent to each superintendent and charter school to verify the accuracy of their data (see appendix).
- LEAs were encouraged to record all acts of crime and violence, as well as the number of acts resulting in suspension and expulsions, on the Discipline Data Collection disk on a daily basis. The ARSV contacts were asked to monitor the discipline data frequently in order to assist with administrative questions to coding errors.
- Again this year, the DDC disks for each school and LEA were sent directly to DPI/Alternative and Safe Schools/Instructional Support Section in order to determine that there was a school disk for each school.
- Telephone calls were made to LEAs/schools with problem data. All issues related to the data were resolved either with DPI or Technical Outreach to Public Schools (TOPS) after opening and analyzing the LEA/school data.

This document reflects the submission of all seventeen reportable offenses (coded one through seventeen) on the data collection sheets. All other acts resulting in suspension and coded as eighteen are captured in the Suspension and Expulsion Report. Those acts are not necessarily required to be reported to law enforcement (see appendix).

Superintendents, school and central office personnel are to be commended for their collaboration willingness to implement increased monitoring strategies that resulted in continuous support for the enhancements used in producing this report.

2003-2004 Annual Report on School Crime and Violence

Executive Summary

The statistical findings in this year's Annual Report on School Crime and Violence Report (ARSV) were submitted on disk by individual schools to the central office and verified by the superintendent in June and again in August of 2004 before being sent to the Department of Public Instruction for inclusion into this report. The acts included in this document represent only the seventeen reportable offenses that schools and LEAs are required to report to law enforcement as outlined in G.S. 115C-288. According to Public School Law, all reports are due to the State Board of Education by June 30 of each year. (refer to the appendix).

Background Information

The following chart reflects trend data for the total number of acts reported.

Annual Reporting Year	Total Acts	Acts Per 1000 Students**
Fourteen Reportable Acts		
1997-98	7,543	6.343
1998-99	7,539	6.237
1999-00	7,229	5.980
2000-01	7,563	6.083
Seventeen Reportable Acts		
2001-02*	9,921	7.709
2002-03	8,548	6.581
2003-04	9,800	7.371

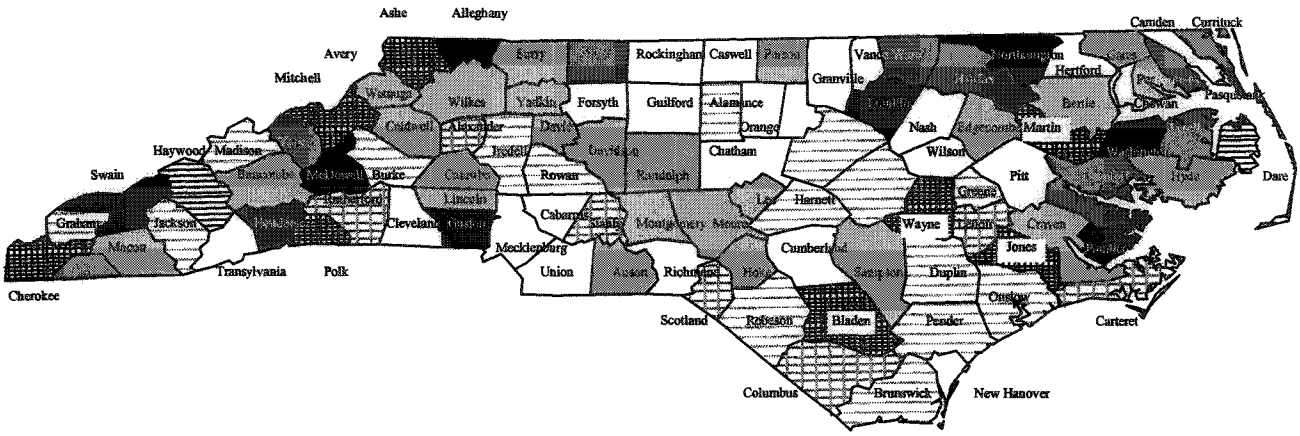
***The 1997-2001 data represent fourteen reportable offenses/acts. Beginning in year 2001-02, baseline data include reports for the three new offenses, totaling seventeen.**

****Based on the seventh month average daily membership for each year including charter schools.**

Year 2000-2001 represented an increase in the total number of acts over the past three years. A total of 2,210 schools submitted data on the fourteen reportable offenses, totaling 7,563 reports of acts. Of those 2,210 schools, 1,347 reported one or more acts. In year 2001-2002, there were 1,871 schools reporting acts of crime and violence. This was the initial year for collecting data on the newly approved acts which included bomb threats, possession of alcoholic beverages and burning of school buildings. Thus, an increase in the total number of occurrences from 8,728 for the fourteen reportable offenses/acts to 9,921 for the seventeen was noted.

The total number of acts reported increased to 9,800 in 2003-04 from 8,548 in 2002-03. These levels are lower than the 9,921 reported acts in 2001-02. In evaluating these changes, it is important to note that locations differ in both the extent of reporting (number of acts) and student population (i.e. Average Daily Membership), among other characteristics. The map below illustrates the variation in county/LEA acts reported (see Figure x1).

Figure x1. Percent Change in Number of Acts Reported



Between 2002-03 and 2003-04 by County/LEA*

% Change in No. of Acts

−85% to −50%	−50% to −25%	−25% to 0%
0 to 25%	25% to 50%	50% to 75%
75% to 100%	100% or more	

*For the 17 reportable acts. Maps do not include Charter Schools or City LEA units which are listed at the end of the executive summary.

As the map above suggests, counties varied greatly in the degree of change in acts reported from 2002-03 to 2003-04 (standard deviation=82.1). About 40% of all LEAs witnessed declines, 3 LEAs witnessed no change and the remaining 57% of LEAs witnessed increases in total number of acts reported. The median percentage change in reported acts was roughly 9.78% while the average county witnessed a 24.57% increase in acts reported. As the map suggests, this variation is due to a small number of counties with extremely large percentage changes in the number of reportings.

Figure x2 shows the percentage change in student population based on seventh month Average Daily Membership (ADM) totals for each LEA. The map suggests that, relative to one another, LEAs varied little from 2002-03 to 2003-04 in the percent change in student population (STD=2.43). About 63% noticed an increase in ADM while the remaining 37% of all LEAs noted a decrease in ADM. The median LEA experienced an increase of .76% students while the average LEA witnessed a .66% increase in student membership.

*Based on seventh month Average Daily Membership totals for each LEA.
Does not include Charter Schools or City LEA units which are listed at the end of the executive summary.

Differences in student populations across LEAs should be considered in evaluating reported acts for each LEA. Figure x3 shows the total change in the number of acts reported per 1000 students for each LEA between 2002-03 and 2003-04. About 42% of all LEAs witnessed a decrease in the number of acts per 1000 students while 58% witnessed an increase. The median change in the number of acts per 1000 students was roughly 0.54 while the average LEA witnessed an increase of about 0.35 acts per 1000 students (or 4 acts per 100 students).

2003-2004 Major Findings of Reporting Data

The 2003-2004 School Crime and Violence data are based on 100% of traditional LEAs and 96% of charter schools reporting. Two verification forms were included in the reporting process. The first required acknowledgement that the data had been reviewed for accuracy and content and was submitted with the June 30 data; the second form was added after tables 6B and 6C were mailed to superintendents for review. Thus, this year's data reflect a continued effort to improve the quality and efficiency of this report. The increased level of collaboration with the LEAs/schools and the Department of Public Instruction was apparent when reviewing the data and was reflected in the improved quality of the way the discipline data were submitted.

It is important to note that North Carolina State Law, G.S.115C-288 (g) requires schools to report certain acts of crime and violence to law enforcement. G.S. 115C-12 (21) states that the State Board of Education has the duty to monitor acts of crime and violence and to compile an annual report on the acts of violence in the public schools. G.S.115C-47 (36) charges the Local Board of Education to report all acts of school violence to the State Board of Education in accordance with G.S. 115C-12(21) (see appendix). An act represents the actual number of offenses occurring on a school property or under school supervision. In order to understand the numbers being presented in this report, it is critical to keep in mind that one incident of crime and violence may yield numerous acts. Thus the number of acts reported may be greater than the number of incidents occurring at a particular school. It is also important to note that the word "acts", "occurrences", and "offenses" are often used interchangeably. The variety reflects the varying terms used by schools systems; however, each word has the same meaning.

In the traditional grade spans PK-5 there were 1,043 acts reported during 2003-2004, in grades 6-8 there were 2,587 acts, and in grades 9-12 there were 5,121 acts reported. In the non-traditional combination elementary/middle grades there were 491, in middle/high there were 393, and for all other combination grades reporting there were 165 acts, thus, totaling 9,800 reports of acts that were submitted by all combinations of schools.

Of the seventeen reportable offenses, the following showed an absolute decrease in the total number of occurrences:

- assault on school personnel not resulting in serious injury,
- assault resulting in serious injury,
- bomb threat,
- sexual assault not involving rape or sexual offense,
- sexual offense,
- robbery without a dangerous weapon,
- burning of a school building,
- taking indecent liberties with a minor,
- robbery with a dangerous weapon and
- rape.

Of the total 9,800 acts reported, based on a population of over **1.2 million students**, the top five offenses are listed below in order (refer to Table 1):

1. Possession of a controlled substance in violation of law received with 3,848 acts.
2. Possession of a weapon excluding firearms and powerful explosives with 3,402 acts.
3. Possession of alcoholic beverage with 841 acts.
4. Assault on school personnel not resulting in serious injury with 834 acts.
5. Assault resulting in serious injury with 192 acts.

Based on a comparison of the average number of acts per school level reported in 2003-2004, this section will provide a sample of acts with the highest increases and largest decreases for each traditional grade span (refer to Table 7A) for this year:

- Of the 1,163 traditional K-5 elementary schools reporting, no acts were reported for the following four: kidnapping, robbery with a dangerous weapon, rape, and taking indecent liberties with a minor. Of the reportable offenses, possession of an alcoholic beverage, assault resulting in serious injury and robbery without a dangerous weapon showed increases over the previous year. Sexual offense saw a substantial decrease of 53.33%. Overall, there was a decrease of 9.15% in the number of offenses for grades K-5.
- Of the 395 traditional middle schools 6-8, zero occurrences were reported for three acts (death by other than natural causes, robbery with a dangerous weapon and rape); robbery with a dangerous weapon showed a 100% decrease. The act showing the greatest increase was assault involving a weapon with a 0.089 average per school level. Burning of a school building reported a significant decrease and an average number of 0.01 offenses per middle school.
- Of the 349 traditional high schools (9-12), seven offenses showed a decrease in the average number of acts between 2002-2003 and 2003-2004. The highest average number of acts per school was seen in possession of a controlled substance. Taking indecent liberties with a minor decreased by 80% over the previous year, averaging 0.003 offenses per high school grades 9-12.

Conclusion

Based on the findings for year 2003-2004, it is obvious that the schools of North Carolina are continuing to establish safe, orderly and caring learning environments for the students and staff. The decreases in most areas reflect a continued emphasis to develop and maintain safety techniques and strategies that facilitate progress.

We commend the schools for their efforts to develop strong Safe Schools Plans, Crisis Plans and School Improvement Plans. These strategies show evidence of notable decreases in the rate of assault. Although we acknowledge the reduction in the number of assaults, we sincerely believe that North Carolina's schools should continue to focus on issues of school safety and on providing a learning environment that is free of crime and violence. Thus, we encourage the following practices:

- School personnel shall continue to evaluate School Safety Plans, School Improvement Plans and Crisis Plans based on the needs identified in the Need Assessment.
- Administrators shall continue to inform the staff and community of the definitions and consequences associated with the seventeen reportable offenses.
- Schools shall maintain safe, orderly and caring learning environments.
- Schools shall continue to implement policies that ensure the welfare of all students and staff and will adhere to the "Unsafe School Policy" required by *No Child Left Behind.*
- Schools shall accurately and promptly report all acts of crime and violence to law enforcement and document such acts on the Uniform System of Collecting Data (USDDC).
- School and central office staffs shall submit discipline data to NCDPI by June 30 of each year and with an understanding that all data are monitored and verified for accuracy by the superintendent prior to submission on the of June 30.
- There continues to be concern about the timeliness of verification form submissions. Thus, the Department of Public Instruction shall begin (with the 2004-05 report) publishing a list of those LEAs not meeting submission requirements for the August verification deadline.
- The Department of Public Instruction will identify those LEAs with the highest increases in acts and provide technical assistance.
- The Department of Public Instruction will work with LEAs to develop an Action Plan to address the increases reported in 2003-2004.

This table shows the total reported statewide offenses/acts by school level and is ranked by the total number of occurrences of specified acts.
Totals are computed based on seventh month Average Daily Membership of 1,329,492 students.
* A combination elementary/middle school must include some or all of the grade levels defined as elementary (PK-5) and middle (6-8).
** A combination middle/high school must include some or all of the grade levels defined as middle (6-8) and high school (9-12).
† Other includes ungraded schools, special education schools, and schools with grades that cross more than one level (e.g. K-12).
‡ Specified acts may have multiple victims per incident.

- Table 1 and 1A show a total of 9,800 acts reported statewide in 2003-04. This represents an overall increase of 1,252 (or 14.65%) from 2002-03 (see Table 1A). However, of the seventeen reportable acts, only seven showed an increase in the total number reported. These include possession of a controlled substance, possession of a weapon, possession of alcoholic beverage, assault involving use of a weapon, possession of firearm or powerful explosive, kidnapping and death by other than natural causes.

- The statewide numbers for most of the reportable acts declined in 2003-04 compared to 2002-03: assaults on school personnel (834 vs. 891), assaults resulting in serious injury (192 vs. 211), bomb threats (191 vs. 196), sexual assaults (116 vs. 141), sexual offenses (60 vs. 85), robberies without a dangerous weapon (47 vs. 70), school burnings (24 vs. 38), taking indecent liberties with a minor (3 vs. 8), rape (1 vs. 3), and robberies with a dangerous weapon (1 vs. 3). Possession of a controlled substance in violation of the law and possesion of a weapon excluding firearms and powerful explosives were the two most commonly reported with totals of 3,848 (39.22%) and 3,402 (34.71%), respectively (see also Figure 1C). Reportings for possession of alcoholic beverage topped the number of assaults on school personnel in the statewide rankings for 2003-04 (841 vs. 835). Also, assaults involving use of a weapon (121) exceeded both possession of firearms (116) and sexual assaults not involving rape or sexual offense (116) unlike 2002-03 (see Table 1A). One additional kidnapping and death by other than natural causes was reported in 2003-04 as compared with 2002-03.

- The total proportion of reported acts represented by lower grade level schools (i.e. pre-K thru 5 and elementary/middle school combinations) declined from 18.8% to 15.65% between 2002-03 and 2003-04. Across school levels, a larger proportion of reportable acts in 2003-04 were represented by schools with grades 6 thru 8 (26.4%) and grades 9 thru 12 (52.26%) relative to 2002-03 (25.9% and 49.75%, respectively). The tables also show "regular student" offenders made up a slightly smaller proportion of reportable acts in 2003-04 compared to 2002-03 (72.43% vs. 74.54%, respectively) while "exceptional student" offenders stayed roughly the same (23.89% vs 23.54%, respectively). Lastly, the overall numbers of student and staff victims declined in 2003-04. This makes sense given the increase in only certain types of acts, namely possessions, in 2003-04.

- Tables 2A and 2B show 7,098 "regular" and 2,341 "exceptional" student offenders committed the majority of acts reported in 2003-04. These groups differed both in the types of reported acts most commonly reported, and in terms of the proportion of offenders they make up at various school levels.

- According to Table 2A, the three most commonly reported acts among regular education student offenders were possession of a controlled substance (2943 or 41.46%), possession of a weapon (2495 or 35.15%), and possession of an alcoholic beverage (702 or 9.89%). Among schools at various levels, possession of a controlled substance was most common within schools grade 9 thru 12 (2058 or 54.13%). Possession of a weapon represented the most commonly reported act among regular student offenders in schools with grades pre-K thru 5 (521 or 76.28%) and within schools grades 6 thru 8 (783 or 40.85%). Overall, most reported acts among regular student offenders occurred in school grade levels 9 thru 12 (3802 or 53.56%) and schools grades 6 thru 8 (1917 or 27.01%)

This table shows the total reported number of regular education student offenders by school level and is ranked by the total number of regular education offenders.

- Tables 3A and 3B show a total of 384 student and 613 staff victims reported in 2003-04. Staff members greatly exceed the number of students victimized by assault without serious injury (596 vs. 43). However, students outnumber staff victims in all other reportable offenses (see Table 3B for comparison). While student victims are most common in schools with grades 9 thru 12, staff victims are most common in schools containing grades pre-K thru 5.

- According to Table 3A, students were most commonly victims of assault resulting in serious injury (131 or 34.11%), sexual assault not involving rape or sexual offense (91 or 23.7%), and assault involving use of a weapon (65 or 16.93%).

A minus percent indicates a reduced incidence from the 2001-2002 school year. "NA" indicates the value is undefined.
[1]Schools included are schools in the K-5, 6-8, and 9-12 grade spans.
Number of schools in the Elem/Mid, Mid/High, and Other grade spans are not included.
*Total Number of Acts per traditional grade level divided by total number of schools. This yields the average number of occurrences in each school at that level. The percent change from the previous year is also reported. Averages are rounded to the nearest thousandth.

- Table 7A shows that the average number of acts per school for grades K thru 5 declined by roughly 9% from the 2002-03 school year. Seven of the seventeen reportable acts witnessed declines among schools grade K thru 5 in 2003-04 while four witnessed increases over the previous year. The average number of robberies without a dangerous weapon per school showed the greatest change (600%) in the number of acts for this school level, from one reported in 2002-03 to seven reported in 2003-04 (see Table 1A).

- For schools containing grades 6 thru 8 and grades 9 thru 12, the average number of acts per school increased by 16.8% and 20.4%, respectively. On average, both school levels witnessed a decrease in reportings for seven of the seventeen acts compared to similar schools last year. There were increases in six acts among schools with grades 6 thru 8 and nine increases for schools grades 9 thru 12 over the previous school year.

2003-04 NC School Report Cards

In 2001, Gov. Mike Easley and the General Assembly asked the state to issue report cards for every school to inform parents and the public about school performance, teacher qualifications, school safety, and school resources. Report cards based on data from the 2003-04 school year will be released on November 16, 2004.

The school report cards track school safety by counting the number of acts of crime and violence that occur in school, at a bus stop, on a school bus, on school grounds, or during off-campus, school-sponsored activities. Schools are required to report any of 17 different offenses to the state (for example, possession of a weapon, possession of a controlled substance, or assault resulting in serious bodily injury). The report cards provide information on the number of reportable acts per every 100 students in the school.

The report card requirements, as set by the Governor's Office, the NC Education Research Council, and the NC Department of Public Instruction, also calls for whole numbers to be displayed. The mathematical standard of rounding is to be used. Rates are derived by dividing each school's total number of reported acts by seventh month membership for the 2003-04 school year, and then multiplying by 100.

The report cards also denote those schools that have received Super Safe Schools (Triple "S") recognition as well as those schools designated as persistently dangerous.

The Board shall maintain a separate record of the number of students who are expelled from school.

Article 8C.

Local Plans For Alternative Schools/Alternative Learning Programs and Maintaining Safe and Orderly Schools.

§ 115C-105.45. Legislative findings.

The General Assembly finds that all schools should be safe, secure, and orderly. If students are to aim for academic excellence, it is imperative that there is a climate of respect in every school and that every school is free of disruption, drugs, violence, and weapons. All schools must have plans, policies, and procedures for dealing with disorderly and disruptive behavior. All schools and school units must have effective measures for assisting students who are at risk of academic failure or of engaging in disruptive and disorderly behavior.

(1997-443, s.8.29(r)(1).)

§ 115C-105.46. State Board of Education responsibilities.

In order to implement this Article, the State Board of Education:

(1) Shall adopt guidelines for developing local plans under G.S. 115C-105.47.

(2) Shall provide, in cooperation with the Board of Governors of The University of North Carolina, ongoing technical assistance to the local school administrative units in the development, implementation, and evaluation of their local plans under G.S. 115C-105.47.

(3) May require a local board of education to withhold the salary of any administrator or other employee of a local school administrative unit who delays or refuses to prepare and implement local safe school plans in accordance with G.S. 115C-105.47.

(4) May revoke the certificate of the superintendent, pursuant to G.S. 115C-274(c), for failure to fulfill the superintendent's duties under a local safe school plan.

(5) Shall adopt policies that define who is an at-risk student.

(1997-443, s. 8.29(r)(1); 1999-397, s. 2; 2000-140, s. 22.)

§ 115C-105.47. Local safe school plans.

(a)Each local board of education shall develop a local school administrative unit safe school plan designed to provide that every school in the local school administrative unit is safe, secure, and orderly, that there is a climate of respect in every school, and that appropriate personal conduct is a priority for all students and all public school personnel. The board shall include parents, the school community, representatives of the community, and others in the development or review of this plan. The plan may be developed by or in conjunction with other committees.

(b) Each plan shall include each of the following components:

(1) Clear statements of the standard of behavior expected of students at different grade levels and of school personnel and clear statements of the consequences that will result from one or more violations of those standards. There shall be a statement of consequences for students under the age of 13 who physically assault and seriously injure a teacher or other individual on school property or at a school-sponsored or school-related activity. The consequences may include placement in an alternative setting.

(2) A clear statement of the responsibility of the superintendent for coordinating the adoption and the implementation of the plan, evaluating principals' performance regarding school safety, monitoring and evaluating the implementation of safety plans at the school level, and coordinating with local law enforcement and court officials appropriate aspects of implementation of the plan. The statement of responsibility shall provide appropriate disciplinary consequences that may occur if the superintendent fails to carry out these responsibilities. These consequences may include a reprimand in the superintendent's personnel file or withholding of the superintendent's salary, or both.

(3) A clear statement of the responsibility of the school principal for restoring, if necessary, and maintaining a safe, secure, and orderly school environment and of the consequences that may occur if the principal fails to meet that responsibility. The principal's duties shall include exhibiting appropriate leadership for school personnel and students, providing for alternative placements for students who are seriously disruptive, reporting all criminal acts under G.S. 115C-288(g), and providing appropriate disciplinary consequences for disruptive students. The consequences to the principal that may occur shall include a reprimand in the principal's personnel file and disciplinary proceedings under G.S. 115C-325.

(4) Clear statements of the roles of other administrators, teachers, and other school personnel in restoring, if necessary, and maintaining a safe, secure, and orderly school environment.

(5) Procedures for identifying and serving the needs of students who are at risk of academic failure or of engaging in disruptive or disorderly behavior.

(6) Mechanisms for assessing the needs of disruptive and disorderly students and students who are at risk of academic failure, and providing them with services to assist them in achieving academically and in modifying their behavior, and removing them from the classroom when necessary.

(7) Measurable objectives for improving school safety and order.

(8) Measures of the effectiveness of efforts to assist students at risk of academic failure or of engaging in disorderly or disruptive behavior. The measures shall include an analysis of the effectiveness of procedures adopted under G.S. 115C-105.48 for students referred to alternative schools and alternative learning programs.

(9) Professional development clearly matched to the goals and objectives of the plan.

(10) A plan to work effectively with local law enforcement officials and court officials to ensure that schools are safe and laws are enforced.

(11) A plan to provide access to information to the school community, parents, and representatives of the local community on the ongoing implementation of the local plan, monitoring of the local plan, and the integration of educational and other services for students into the total school program.

(12) The name and role description of the person responsible for implementation of the plan.

(13) Direction to school improvement teams within the local school administrative unit to consider the special conditions at their schools and to incorporate into their school improvement plans the appropriate components of the local plan for:

a. maintaining safe and orderly schools; and
b. addressing the needs of students who are at risk of academic failure or who are disruptive or both.

(13a) A clear statement of the services that will be provided to students who are assigned to an alternative school or an alternative learning program.

(14) A clear and detailed statement of the planned use of federal, State, and local funds allocated for at-risk students and alternative schools and alternative learning programs.

(15) Any other information the local board considers necessary or appropriate to implement this Article. A local board may develop its plan under this section by conducting a comprehensive review of its existing policies, plans, statements, and procedures to determine whether they: (i) are effective; (ii) have been updated to address recent changes in the law; (iii) meet the current needs of each school in the local school administrative unit; and (iv) address the components required to be included in the local plan. The board then may consolidate and supplement any previously developed policies, plans, statements, and procedures that the board determines are effective and updated, meet the current needs of each school, and meet the requirements of this subsection. Once developed, the board shall submit the local plan to the State Board of Education and shall ensure the plan is available and accessible to parents and the school community. The board shall provide annually to the State Board information that demonstrates how the At-Risk Student Services/Alternative Schools Funding allotment has been used to (i) prevent academic failure and (ii) promote school safety. (c) A local board may amend the plan as often as it considers
necessary or appropriate.

(1997-443, s. 8.29(r)(1); 1999-397, s.2.)

§ 115C-105.48. Placement of students in alternative schools/alternative learning programs.

(a)Prior to referring a student to an alternative school or an alternative learning program, the referring school shall:

(1) Document the procedures that were used to identify the student as being at risk of academic failure or as being disruptive or disorderly.

(2) Provide the reasons for referring the student to an alternative school or an alternative learning program.

(3) Provide to the alternative school or alternative learning program all relevant student records, including anecdotal information.

(b) When a student is placed in an alternative school or an alternative learning program, the appropriate staff of the alternative school or alternative learning program shall meet to review the records forwarded by the referring school and to determine what support services and intervention strategies are recommended for the student. The parents shall be encouraged to provide input regarding the students' needs.

(1999-397, s. 2.)

§§ 115C-105.49 through 115C-105.52. Reserved for future codification purposes.

§ 115C-397.1. Management and placement of disruptive students.

If, after a teacher has requested assistance from the principal two or more times due to a student's disruptive behavior, the teacher finds that the student's disruptive behavior continues to interfere with the academic achievement of that student or other students in the class, then the teacher may refer the matter to a school-based committee. The teacher may request that additional classroom teachers participate in the committee's proceedings. For the purposes of this section, the committee shall notify the student's parent, guardian, or legal custodian and shall encourage that person's participation in the proceedings of the committee concerning the student. A student is not required to be screened, evaluated, or identified as a child with special needs under this section. The committee shall review the matter and shall take one or more of the following actions: (i) advise the teacher on managing the student's behavior more effectively, (ii) recommend to the principal the transfer of the student to another class within the school, (iii) recommend to the principal a multidisciplinary diagnosis and evaluation of the student, (iv) recommend to the principal that the student be assigned to an alternative learning program, or (v)

recommend to the principal that the student receive any additional services that the school or the school unit has the resources to provide for the student. If the principal does not follow the recommendation of the committee, the principal shall provide a written explanation to the committee, the teacher who referred the matter to the committee, and the superintendent, of any actions taken to resolve the matter and of the reason the principal did not follow the recommendation of the committee.

This section shall be in addition to the supplemental to disciplinary action taken in accordance with any other law. The recommendation of the committee is final and shall not be appealed under G.S. 115C-45(c). Nothing in this section shall authorize a student to refer a disciplinary matter to this committee or to have the matter of the student's behavior referred to this committee before any discipline is imposed on the student.
(1997-443, s. 8.29(b).)

115C-404. Use of juvenile court information.

(a) Written notifications received in accordance with G.S. 7B-3101 and information gained from examination of juvenile records in accordance with G.S. 7B-3100 are confidential records, are not public records as defined under G.S. 132-1, and shall not be made part of the student's official record under G.S. 115C-402. Immediately upon receipt, the principal shall maintain these documents in a safe, locked record storage that is separate from the student's other school records. The principal shall shred, burn, or otherwise destroy documents received in accordance with G.S. 7B-3100 to protect the confidentiality of the information when the principal receives notification that the court dismissed the petition under G.S. 7B-2411, the court transferred jurisdiction over the student to superior court under G.S. 7B-2200, or the court granted the student's petition for expunction of the records. The principal shall shred, burn, or otherwise destroy all information gained from examination of juvenile records in accordance with G.S. 7B-3100 when the principal finds that the school no longer needs the information to protect the safety of or to improve the educational opportunities for the student or others. In no case shall the principal make a copy of these documents.

(b) Documents received under this section shall be used only to protect the safety of or to improve the education opportunities for the student or others. Information gained in accordance with G.S. 7B-3100 shall not be the sole basis for a decision to suspend or expel a student. Upon receipt of each document, the principal shall share the document with those individuals who have (i) direct guidance, teaching, or supervisory responsibility for the student, and (ii) a specific need to know in order to protect the safety of the student or others. Those individuals shall indicate in writing that they have read the document and that they agree to maintain its confidentiality. Failure to maintain the confidentiality of these documents as required by this section is grounds for the dismissal of an employee who is not a career employee and is grounds for dismissal of an employee who is a career employee, in accordance with G.S. 115C-325(e)(1)i.

(c) If the student graduates, withdraws from school, is suspended for the remainder of the school year, is expelled, or transfers to another school, the principal shall return all documents not destroyed in accordance with subsection (a) of this section to the juvenile court counselor and, if applicable, shall provide the counselor with the name and address of the school to which the student is transferring.

TITLE OF ACT

Sec. 2. This act shall be known as the Current Operations Appropriations Act of 1993.

SAFE SCHOOLS

Sec. 139. (a) Of the funds appropriated to Aid to Local School Administrative Units, the sum of two million five hundred thousand dollars ($2,500,000) for the 1993-94 fiscal year and the sum of two million five hundred thousand dollars ($2,500,000) for the 1994-95 fiscal year shall be used to provide grants for local school administrative units for locally designed innovative local programs to make schools safe for students and school employees. These funds shall be used for grants of from fifty thousand dollars ($50,000) to one hundred thousand dollars ($100,000) per year to local school administrative units. These funds may be used for continuing or noncontinuing expenses.

A local school administrative unit may apply for a grant, or two or three adjacent local school administrative units may apply jointly for a grant. Applicants for grants shall submit to the State Board of Education an application that includes the following information:

(1) An assessment of local problems with regard to violence and harassment, including sexual and other forms of harassment, in the schools prepared by a local task force of educators, parents, students, community leaders, and representatives of social services and law enforcement, appointed by the local board of education.

(2) A detailed plan for addressing these local problems, including proposed goals and anticipated outcomes, prepared after consultation with the task force.

(3) A statement of how the grant funds would be used to address these local problems and what other resources would be used to address the problems.

(4) A process for assessing on an annual basis the success of the local plan for addressing problems with regard to violence and harassment in the schools.

The Superintendent of Public Instruction shall appoint a State task force to assist the Superintendent in reviewing grant applications. The State task force shall include representatives of the Department of Public Instruction, local school administrative units, educators, parents, the juvenile justice system, social services, and nongovernmental agencies providing services to children, and other members the Superintendent deems appropriate. In reviewing grant applications, the Superintendent and the State task force shall consider the severity of the local problems with regard to violence in the schools and the likelihood that the locally designed plan will deal with the problems successfully.

The State Board of Education shall consider the recommendations of the Superintendent in selecting grant recipients. The State Board shall also attempt to give grants to local school administrative units that are located geographically throughout the State, that have different demographic profiles, and that propose different approaches to their problems. The State Board shall select grant recipients prior to January 1, 1994.

The Superintendent of Public Instruction shall administer the grant program and provide technical assistance to grant applicants and recipients.

The State Board of Education shall report to the Joint Legislative Education Oversight Committee prior to March 15, 1994, and prior to January 15, 1995, on how the funds are being used.

(b) G.S. 115C-12 is amended by adding a new subdivision to read:

"(21) Duty to Monitor Acts of School Violence. - The State Board of Education shall monitor and compile an annual report on acts of violence in the public schools. The State Board shall adopt standard definitions for acts of school violence and shall require local boards of education to report them to the State Board in a standard format adopted by the State Board."

(c) G.S. 115C-47 is amended by adding a new subdivision to read:

"(36) To Report All Acts of School Violence. - Local boards of education shall report all acts of school violence to the State Board of Education in accordance with G.S. 115C-12(21)."

(d) G.S. 115C-81 is amended by adding a new subsection to read:

"(a4) Conflict Resolution and Mediation Models: The State Board of Education shall develop a list of recommended conflict resolution and mediation materials, models, and curricula that address responsible decision making, the causes and effects of school violence and harassment, cultural diversity, and nonviolent methods for resolving conflict, including peer mediation and shall make the list available to local school administrative units and school buildings by the beginning of the 1994-95 school year. In developing this list, the Board shall

emphasize materials, models, and curricula that currently are being used in North Carolina and that the Board determines to be effective. The Board shall include at least one model that includes instruction and guidance for the voluntary implementation of peer mediation programs and one
model that provides instruction and guidance for teachers concerning the integration of conflict resolution and mediation lessons into the existing classroom curriculum."

12. The LEA shall report each student transfer effected pursuant to this policy to the State Board of Education in its "Report on School Crime and Violence."

13. Nothing in this policy shall be construed to grant any student the right to attend a charter school, grant any student a preference in admission to a charter school or limit a student's right to transfer from a charter school.

SUBJECT: 2003-04 Disciplinary Data Collection Reporting Reminder and 2004-05 Update

---

Reporting Requirements for 2003-04

The State Board of Education is required by law to produce two reports each year involving disciplinary data: The Annual Report on School Violence and the Annual Study of Suspensions and Expulsions. Three years ago, NCDPI developed the Disciplinary Data Collection Form (DDCF) to collect the data needed to develop both of these reports as well as other federally mandated reports related to school safety.

The procedures for recording and submitting data for 2003-04 are essentially the same as those used in 2002-03. The DDCF for the 2003-04 school year is in Microsoft Excel format, and is available along with associated reporting forms on DPI's website at

http://www.ncpublicschools.org/accountability/evaluation/ddcf/index.html

and

http://www.ncpublicschools.org/safe_schools/index.html.

Instructions for submitting DDCF data and a list of frequently-asked questions and answers are also available at those websites. For those schools or LEAs using means other than the DDCF to collect and report these data (e.g., third party software programs, SIMS discipline module, etc.), data files that mimic the structure and content of the DDCF will be accepted to satisfy this reporting requirement.

2003-04 DDCF Due Date

DDCF data for all schools and associated verification forms are due from each LEA postmarked by **June 30, 2004** to:

Marguerite Peebles, Section Chief
Alternative & Safe Schools/Instructional Support Section
North Carolina Department of Public Instruction
6350 Mail Service Center
Raleigh, NC 27699-6350

Due to the confidential nature of these data, please do not email any DDCF data to NCDPI. We suggest that you put the files on a disk or CD and send them via means by which they can be tracked (FedEx, UPS, etc).

New Online System for 2004-05

NCDPI is currently engaged in a process to establish a new online data collection system to replace the DDCF beginning in 2004-05. The new system is designed to provide a more secure environment for recording and transmitting sensitive disciplinary and other data and to allow for greater accuracy, speed and detail in reporting until NCWISE is available statewide. This system will replace the current DDCF system, and will also replace two other data collection processes that have previously been gathered through other means: The Alternative Learning Programs Student Data Roster and the Safe and Drug-Free Schools reporting requirements.

Several LEAs are currently serving as pilot sites for the new system, and it is anticipated that a final release of the software will be available for use in approximately August 2004. Since this new system will replace the existing DDCF, many LEAs will have to switch to this new system for the 2004-05 school year.

This change will not affect all LEAs in the same way. Whether an LEA uses the disciplinary reporting module will depend on several factors. The following scenarios describe the three possible reporting situations that an LEA may have for 2004-05:

For LEAs that have already fully implemented NCWISE:
-Disciplinary data will be collected via the NCWISE Incident Module, so it will not be necessary to use the disciplinary module in the new online system in 2004-05. Alternative school/program administrators will still use the system for Student Data Roster Reporting, and a small amount of SADFS data will also be collected using the new system.

For LEAs that are scheduled to implement NCWISE at some point during the 2004-05 school year:

LEAs in this situation will have the option in 2004-05 of (a) using the same disciplinary data system they are using in 2003-04 (i.e., the "old" DDCF process) for one more year, (b) using the new online system, or (c) using the NCWISE Incident Module. Alternative school/program administrators will still use the system for Student Data Roster Reporting, and a small amount of SADFS data will also be collected using the new system.

LEAs in this situation should only choose option C if their scheduled implementation date occurs early in the 2004-05 school year (e.g., by September or perhaps October). Any delay in implementation, even if it is scheduled for Fall 2004, may result in a significant backlog of data to record, which could then result in problems with meeting reporting deadlines and/or data accuracy issues.

It is assumed that regardless of which method is chosen that the NCWISE Incident Module will supply data for these LEAs beginning in 2005-06.

For LEAs that are scheduled to implement NCWISE at some point after the 2004-05 school year:

LEAs in this situation will be expected to use the disciplinary module beginning in 2004-05 unless they plan to use a third-party software system or other solution to provide datafiles that mimic the structure and content of the new online system. Alternative school/program administrators will also use the system for Student Data Roster Reporting, and a small amount of SADFS data will also be collected using the new system.

Training for the New Online System

Once the pilot process for the new pilot system is finished, several training sessions for LEA and school personnel will be held in hands-on computer labs at various locations as follows:

Dates & Locations

Dates	County	Location	Contact Person
June 7th	Johnston	Princeton	edhall@johnston.k12.nc.us
June 8th	New Hanover	Wilmington	owheatle@nhcs.k12.nc.us
June 10th	Halifax	Southeast Halifax HS	smithm.se@hcs.schoolink.net
June 14th	Lee	Sanford	bwilson@lee.k12.nc.us

June 23rd	Randolph	Asheboro	cspivey@asheboro.k12.nc.us
June 29th	Buncombe	Central Office	Douglas.jones@bcsemail.org

Each training session will be held from 9:00 am to 1:00 pm.

NCDPI staff will conduct these training sessions. **Regardless of which option LEAs select for reporting disciplinary information for 2004-05, each LEA should send a representative to one of the training sessions, since the ALP and SADFS modules will be used by everyone.** A registration form for the training sessions is attached to this memo. You can register by completing the form and faxing it to Melody McLamb at 919-807-3917 by June 3.

Questions about the submission of 2003-04 DDCF data or the training sessions for the new 2004-05 system should be directed to:

Brad McMillen, Division of Accountability Services (919-807-3808; bmcmille@dpi.state.nc.us) or

Marguerite Peebles, Alternative and Safe Schools/Instructional Schools Section (919-807-3940; mpeebles@dpi.state.nc.us).

Examples of How to Record Incidents Using the DDCF

Here are four hypothetical incidents occurring at a school. The table below shows how these incidents would be recorded on the Disciplinary Data Collection Form.

Example Incident #1

On September 28, a seventeen year-old 11th grade White male student was suspended out-of-school for one week (five school days) for hitting his teacher.

Example Incident #2

On October 4, a sixteen year-old White male and a fifteen year-old White male, both of whom are in the 10th grade, get into a fight in the cafeteria. Both are suspended out-of-school for three days. The principal decides not to report the fight to law enforcement.

Example Incident #3

On October 19, a fifteen year-old Hispanic female and a sixteen year-old White female, both of whom are in the 10th grade, are suspended out-of-school for three weeks (15 school days) after being caught smoking marijuana in the bathroom.

Example Incident #4

A football game is held on the school grounds on the night of October 25. A Black female student from the "home" school attends the game, and is sexually assaulted in the stands by a Black male student from the "visiting" school. He is eighteen years old and is in the 12th grade. He is also found to be in possession of alcohol at the time. He is expelled from school and is referred to an alcohol abuse treatment program.

Instructions for Completing the Disciplinary Data Collection Form

When to Use this Form

Every time a legally-reportable offense, an out-of-school suspension[1] (short- or long-term), or an expulsion occurs at your school during the school year, a record should be entered on this form. Less serious incidents (such as those resulting in detentions, in-school suspensions and the like) do not need to be reported on this form, unless those incidents involve a legally-reportable offense, an out-of-school suspension, or an expulsion.

What to Enter on this Form

Using the instructions beginning on page 3, please provide all required information for each offender each time he/she commits any act that (a) must be reported to law enforcement or (b) results in a student offender being suspended out-of-school or expelled. Thus, an offender who re-commits a particular act or receives these disciplinary consequences on more than one occasion during the year should be listed each time any of these events occur. Be sure to document legally-reportable offenses that occur on school property[2] after normal or usual school operating hours, even if the offenders are unknown or known to be non-students. Also note as you read these instructions that some of the columns on the form apply only to student offenders, and therefore do not have to be completed if the offender is not a student.

How to Record Data

Data may be entered directly into the Microsoft Excel file provided on the aforementioned website. Data may also be recorded in another fashion as long as a Microsoft Excel-compatible datafile can be produced at the end of the year that conforms to the format of the file on the enclosed diskette (data fields in the same order, same codes used for each field, etc.). Schools are strongly encouraged to save a copy of their data before submitting it at the end of the year in the event that the data get lost or corrupted after they are submitted.

How to Submit Data

All data must be submitted through the LEA Superintendent's office (or, in the case of charter schools, through the Director/Principal's office). LEA Superintendents and Charter School Directors/Principals must send a signed copy of the Verification Form (see page 10) along with the data to certify that the data are complete and accurate. Data need to be submitted to the contact person listed below at the end of the school year.

NOTE: For schools that have no out-of-school suspensions, expulsions, or legally reportable incidents, a simple written statement should be submitted along with the data from the other schools in the LEA that lists the names and 6-digit school codes of the schools that had no incidents. That way, schools that had no incidents to report will not be incorrectly identified as schools that had failed to submit their data.

---

[1] In-school suspensions should only be recorded on this form if they are incurred as a result of one of the 17 offenses that schools are required to report to law enforcement (see page 4 for a list of these).

[2] "School property" includes school grounds, school buses, and the location of any school-sponsored event.

The data will be compiled for the agency by our contractors at North Carolina State University. Please submit data files, along with the completed Verification Form, no later than June 30, 2004 to:

Marguerite Peebles
Alternative and Safe Schools/Instructional Support Section
NC Department of Public Instruction
6350 Mail Service Center
Raleigh, NC 27699-6350

Submitting data by emailing files is **not** recommended, due to the fact that individually-identifiable student information of a sensitive nature is involved. We suggest that data be submitted on CD, floppy disk, or other medium via a carrier that can track the package (FedEx, UPS, registered mail, etc).

Use the instructions on the following pages to record data on the form. If you have questions about how to complete the form or about submitting your data, please contact:

Definitions of Offenses Required to be Reported

1. **Assault Resulting in Serious Injury**. An intentional physical attack causing the victim obvious severe or aggravated bodily injury involving (a) broken bones, loss of teeth, possible internal injuries; severe lacerations and bleeding; or loss of consciousness; and/or (b) requiring emergency medical services by trained school personnel or other health professionals (e.g. EMS) and/or hospitalization. If the offender used a weapon in an assault resulting in serious injury, report both Assault Resulting in Serious Injury and Assault Involving Use of a Weapon. Fights or affrays, where no weapon was used, resulting in no apparent or serious injuries are not required by state law to be reported, even if the incident resulted in suspensions or expulsion for the student. Local School Board policy may require reporting of fights or affrays to law enforcement. (State law G.S. 115C-391 requires that local boards of education remove to an alternative educational setting any student who is at least 13 and who physically assaults and seriously injures a teacher or other school personnel. If no appropriate alternative education setting is available, then the board shall suspend for no less than 300 days but no more than 365 days any student who is at least 13 and who physically assaults and seriously injures a teacher or other school personnel.)

2. **Assault Involving Use of a Weapon.** An assault by one person against another where the attacker either uses a weapon or displays a weapon in a threatening manner. Weapon is defined as: Any firearm or explosive device; force-impacting device; knife or sharp-edged or sharp-pointed utensil, device or tool; or any article, instrument or substance which can or is likely to produce death or great bodily harm. If a firearm or other weapon is used in the commission of any offense, the type of weapon must be identified in the WEAPON USED/POSSESSED column of the Data Collection Form.

3. **Assault on School Personnel.** An assault is an intentional physical attack by one person on another. An assault is either the actual intentional striking of another person, or an attempt to physically strike another by an intentional show of force or menace of violence sufficient to put a reasonable person in fear of immediate physical injury. This offense includes assaults on school personnel that do not involve use of a weapon and do not result in apparent serious injury. If apparent serious injury to school personnel results from the assault, report as Assault Resulting in Serious Injury. If the assault involves use of a weapon report as Assault Involving Use of a Weapon. Victims included in this category are school administrators, education professionals (e.g. teachers), classified staff members (e.g. custodial, clerical), and adult volunteers. Acts which would not be reported are things such as unintentional pushing and jostling, as in a crowd; a school staff member who is accidentally struck while attempting to break up a fight or affray; or a volunteer who is knocked down by a student carelessly rushing through a door. Verbal threats to physically attack are not included unless they are accompanied by an act that is an intentional show of force or menace of violence sufficient to put a reasonable person in fear of immediate physical injury.

4. **Bomb Threat**[3] (See G.S. 14-69.1 and 14-69.2). Making or communicating a false bomb threat in any form, including a computer message; or perpetrating a bomb threat hoax by bringing a fake explosive device, whether openly or concealed, onto school property or to school-sponsored events (both are considered Class H felonies by G.S. 14-69.1 and G.S. 14-69.2).

5. **Burning of a School Building** (See G.S. 14-60). Any person who maliciously and willfully sets fire to, burns or causes to be burned (i.e. aids, directs or procures the burning of) any school building owned, leased or used by the public schools (considered a Class F felony by G.S. 14-60).

6. **Death By Other Than Natural Causes.** The killing of a living person, done either by another or by suicide. Acts to be reported under this category include murder, manslaughter, death by vehicle, killing in self-defense, killing done by an insane person, accidental killing and suicide. Killing is to be reported if either the death or the act causing it occurred on school property, and regardless of whether the victim is associated with the school. Examples of incidents to be reported are the accidental death of a child in a school bus accident, or a victim on school property shot by someone located on or off school property.

---

[3] Because this definition is a summary of lengthy and detailed legislation, users of the definition should consult their school board attorney or the http://www.ncga.state.nc.us/statutes/toc-1.html website for further details or clarifications regarding its use.

7. **Kidnapping.** Confining, restraining or removing from one place to another a person, without his/her or the victim's or a minor victim's parents' consent, for the purpose of committing a felony; or holding a victim as hostage or for ransom, or for use as a shield. A parent taking a child in violation of a court order, although it may be a crime, is not kidnapping for this purpose.

8. **Possession of Alcoholic Beverage**[4] (See G.S. 18B-300 to 302). Any underage person who purchases, provides or sells to another, possesses or has in his/her immediate custody or control, or consumes malt beverages, fortified or unfortified wine, or spirituous liquor, in any amount or form, on school property owned or leased by the local board of education, or at school-sponsored events (comparable to a misdemeanor violation by G.S. 18B-102 and G.S. 18B-300, 301 and 302).

9. **Possession of Controlled Substance in Violation of Law**. Possession of narcotic drugs on or in the immediate control of the person. Narcotic drugs include any form of cocaine, marijuana, heroin, LSD, methamphetamine, and all drugs listed in the North Carolina Controlled Substances Act. Possession of any amount in any form must be reported. Unauthorized possession of a prescription drug (e.g., Ritalin) is included in this category. The principal should confer with law enforcement personnel when in doubt as to whether a drug is a controlled substance. Alcohol possession should be reported as Possession of Alcoholic Beverage.

10. **Possession of a Firearm or Powerful Explosive.**[5] Any unauthorized person possessing on their person or within their custody or control, or storing, or carrying, whether openly or concealed, locked or unlocked, any firearm or powerful explosive, whether operable or inoperable, on school property; or bringing such a device onto school property. Persons authorized to carry weapons on school property are law enforcement officers, firefighters, and emergency service personnel *when discharging their official duties* (State law G.S. 115C-391 requires that local boards of education suspend for 365 days any student who brings a "weapon" onto school property. Weapons are defined as any gun, rifle, pistol, or other firearm of any kind, or any dynamite cartridge, bomb, grenade, mine or other powerful explosive, as defined in G.S. 14-284.1; and this does not apply to fireworks. Superintendents may modify the suspension on a case-by-case basis, but a written explanation for the decision must be included with the school's Annual Report on School Crime and Violence). The type of any firearm(s) that is/are involved must be identified in the WEAPON USED/POSSESSED column of the Data Collection Form.

11. **Possession of a Weapon**. Possessing on their person or within their custody or control, storing, or carrying, by any unauthorized person, whether openly or concealed, a weapon, excluding firearms and powerful explosives, defined as follows: Any BB gun, stun gun, air rifle, air pistol, bowie knife, dirk, dagger, slungshot, leaded cane, switchblade knife, blackjack, metallic knuckles, razors and razor blades, any sharp pointed or edged instrument except instructional supplies, unaltered nail files and clips and tools used solely for preparation of food, instruction and maintenance. This category covers possession of all weapons, other than firearms and powerful explosives, which the law prohibits on educational property (N.C.G.S. § 14-269.2). Persons authorized to possess such weapons are law enforcement officers, firefighters and emergency service personnel when discharging their official duties. Report type of weapon unlawfully possessed in the WEAPON USED/POSSESSED column of the Data Collection Form.[1]

12. **Rape.** Rape may be statutory or forcible. Forcible Rape is vaginal intercourse committed by force and without the consent of the victim, regardless of age. Statutory Rape is vaginal intercourse committed on a child under the age of 16 by a person who is at least 12 years old and at least 4 years older than the victim, regardless of whether the victim consented. Consensual vaginal intercourse between a 13, 14 or 15 year old girl or boy and a 16 year old girl or boy is not a crime; statutory rape requires at least four years between birthdays of the victim and perpetrator. Some examples of incidents which must be reported under this category are consensual intercourse between a 19-year old and a 15-year old; consensual intercourse with a person who is mentally handicapped or incapacitated, or physically helpless, regardless of whether the victim consented; or intercourse with an intoxicated or drugged victim who is too incapacitated to give consent.

---

[4] Because this definition is a summary of lengthy and detailed legislation, users of the definition should consult their school board attorney or the http://www.ncga.state.nc.us/statutes/toc-1.html website for further details or clarifications regarding its use.

[5] Because "Bomb Possession" involves the G.S. 14-269.2 definition of a bomb or "powerful explosive" as a **felony-level weapon** (G.S. 14-269.2 (**b1**)), as differentiated from a felony "firearm" weapon (G.S. 14-269.2 (**b**)), former definitions of "possession of a firearm" and "possession of a (misdemeanor) weapon" have been revised.

13. **Robbery With a Dangerous Weapon (Armed Robbery).** Theft or attempted theft of anything of value from the person of another, or from the area under the immediate bodily control of the other, by using a dangerous weapon or by an act threatening use of a dangerous weapon. A dangerous weapon is any article, instrument or substance that is likely to produce death or great bodily harm. Forcible theft or attempted theft from a person without the use of a dangerous weapon should be reported under Robbery Without a Dangerous Weapon. Report type of weapon used in the WEAPON USED/POSSESSED column of the Data Collection Form.

14. **Robbery Without a Dangerous Weapon.** The taking or attempting to take anything of value from another's person, by force, or by an act threatening force or violence, which puts a victim in fear, without the use of a weapon. The stealing of someone's property without the use of force or from a source other than the victim's person is not included in this offense. If the taking from the person involves use of a dangerous weapon the incident is reported under Robbery With a Dangerous Weapon.

15. **Sexual Assault (Not Involving Rape or Sexual Offense).** An assault of a sexual nature. An unauthorized and unwanted, intentional, or forcible touching of a sex organ of a person of the opposite sex. Sex organs are the breasts of females and genital areas of males and females. This category includes forcibly and intentionally grabbing the clothed or unclothed breast or genitals of a person of the opposite sex, without the consent of the victim. Report attempted rape and attempted sexual offense under this category. The difference between Sexual Assault and Sexual Offense is that Sexual Assault involves forcible and intentional touching without penetration of a sex organ, and Sexual Offense involves penetration of a sex organ or anus by any object, or touching another's mouth or anus by the male sex organ.

16. **Sexual Offense.** Sexual Offense may be forcible or statutory. Forcible Sexual Offense is actual oral-genital contact, or penile-anal penetration, or insertion of any object, including a finger, into the genital or anal opening of another person's body, committed by force and without the consent of the victim. Statutory Sexual Offense is any of the above acts committed on a child under the age of 16 by a person who is at least 12 years old and at least 4 years older than the victim, regardless of whether the victim consented. Statutory Sexual Offense is also any of the above acts committed on a person who is mentally handicapped or incapacitated or physically helpless, regardless of whether the victim consented. The difference between Rape and Sexual Offense is that Rape involves vaginal intercourse only, and Sexual Offense involves oral-genital contact, penile-anal penetration, or genital or anal penetration by any object.

17. **Taking Indecent Liberties With A Minor.** Committing a sexual act with or in the presence of a child under the age of 16 years, by a person at least age 16 and at least five years older than the child, for sexual gratification, regardless of whether force was used, or whether the victim consented. Examples of acts to be reported under this category are intentional exposure of genitals in front of a child; showing a child pornography, secretly or in the child's presence; or photographing girls changing clothes or using toilets, if these acts are done for sexual gratification.

If OSS and/or ISS are used as a consequence, use these columns to record the total number of school days (not calendar days) the student is suspended. For example, if one of the consequences for an offense was a one-week OSS, you would record a 5 in the "OSS - Number of Days" column for that student. An exception to this is a mandatory "365-day" suspension, which is recorded as calendar days.

Victim Type - 1 and Victim Type - 2 and Victim Type - 3	Identity of victim affected by the offense(s) committed. Use these three columns to record up to 3 different types of victims involved. Other/Comments	Use this field to explain any uses of the "Other" codes for the previous fields, or to document any other clarifications or explanations associated with the data recorded for the particular offense(s).

Disciplinary Data Collection Form
Frequently Asked Questions (and Answers)

1. Where can I obtain a copy of the Form and the instructions?

   The form and accompanying instructions are available online by going to: http://www.ncpublicschools.org/accountability/evaluation/ddcf/index.htm . The Form is in Microsoft Excel format, and the instructions are included as a worksheet within that Excel file. The instructions are also available separately in both Microsoft Word and Adobe PDF formats. These files will be available on this website throughout the school year in case you need to get new copies at any point.

2. Do incidents reported to School Resource Officers (SROs) still count as a report to law enforcement?

   Yes, if they are duly sworn to act in the capacity of the local law enforcement agency with power to arrest, and they are authorized to serve in that capacity within the school system. If one of the 17 reportable offenses is reported to an SRO, a police activity number must be documented (as on the old Incident Record form) to insure that the offense has been reported to a legitimate local law enforcement representative.

3. What software do I need to use the electronic version of the Disciplinary Data Collection Form?

   The file is in Microsoft Excel format and is compatible with either a PC or Macintosh platform. LEAs are free to use other software programs to collect the data, as long as the data are submitted to DPI in Excel format at the end of the year.

4. How long will we need to use this Form?

   Currently, the expectation is that this form will be used until an online system is developed. This system is scheduled to be in place for the 2004-05 school year.

5. Is there any money to help upgrade locally developed software?

   No funds have been allocated for this purpose. However, LEAs have state and local allocations that could be used for these purposes.

6. What is the central office coordinator expected to do with the data before submitting it to NCDPI?

   For the purpose of reporting to the state, LEAs must:
   - **Compile reports for all of the schools**
   - **Verify that the data are correct**
   - **Submit the data to NCDPI**

7. How will schools and/or LEAs receive notification of errors?

   The Alternative and Safe Schools Section will notify superintendents about errors. Superintendents will then be responsible for notifying schools.

8. If multiple persons fill out the form at the same school, is that a problem?

   No, but some provision will have to be made for ensuring that each of the incident numbers recorded within a school is unique. In other words, where more than one person is authorized to enter discipline data, each person's running record of incidents must be identified as his/her own, particular entries. This is to ensure that:

1) No incident is recorded more than once (i.e., accidentally entered by more than one data-entry person), and
2) We can all easily and correctly total all incidents that are recorded for a school at any given time.

Perhaps the most efficient and effective system would be for each data-entry person to use his/her initials as part of each entered Incident #. For example, data entry person #1 would enter his or her incidents as 1-DS, 2-DS, etc., and data entry person #2 would enter his as 1-BM, 2-BM, etc. Besides ensuring numbers 1 and 2 above, this system would allow a school to know who entered specific incidents should follow-up of a particular recorded incident be necessary--i.e., it would offer a handy bookkeeping or accounting tool.

9. We have invested in computer software for our school system that tracks the type of information required on the Form. Should we upgrade/modify and continue to use this software for data collection?

If the LEA's software can be modified to provide DPI with the required data in the format in which it is requested, there is not a problem with continued use of the existing software programs. Some programs (such as D-TRAK) have built-in capabilities to produce the necessary data very easily. Schools using any special software programs to collect disciplinary data should check with the manufacturer to determine whether their program can produce the data that DPI requires.

10. What is the difference between this Form and the one that was in use in 2002-03?

There is no difference.

11. Is the one percent (1%) bonus for principals attached to the completion of the Disciplinary Data Collection Form? Will the 1% bonus money be available for the 2003-2004 school year?

No, unless required by the LEA.

12. Who should be responsible for completing the Form?

Individual schools and/or LEAs will have flexibility in deciding who will be responsible. The principal should verify the data before sending it to the central office. It is the primary responsibility of the Superintendent to verify that the reported data is complete and accurate when the LEA submits it to NCDPI.

13. Are we expected to report all of the offenses listed on the Form to law enforcement?

Only the 17 reportable offenses required by state law and/or State Board of Education policy are required to be reported to law enforcement. However, that does not preclude schools from reporting other offenses if they feel it is appropriate.

14. What if an incident involves an individual offender committing more than the two offenses simultaneously?

When documenting more than two offenses committed by the same individual at the same time, continue recording further offenses on the next line. Be sure to repeat the same Incident Number, Date Incident Occurred and Student Social Security Number or I.D. Number on the continuation line.

15. When should we use the "Other/Comments" field on the Form?

Whenever additional information that would clarify or further explain the recorded incident is in order.

16. Are the definitions of legally-reportable offenses (i.e., offenses coded 1-17) the same as in previous years?

Yes.

17. Are alternative schools expected to complete the Form?

Yes. They should complete the form using their school code just like any other school.

18. Should alternative learning programs complete the Form?

- **If the program is located on an official school site, incidents occurring in the ALP can either be recorded as part of the host school's discipline report or on a separate report, using the ALP's "Program Name" (e.g. Success Academy) on the line designated for school code.**
- **If a program is not located on a school site (e.g. separate facility that does not have a school code), then that program should complete their own Form, using the ALP's "Program Name" (e.g. Success Academy) on the line designated for school code.**

19. Do all discipline cases, however minor (e.g. class disruption) or however minor the consequence (e.g. detention or ISS) has to be reported? What about minor discipline incidents where we remove a student from class and require his parent to come in for a conference before the student can return to class?

No. There are only 2 categories of offenses that need to be reported on the Form:

- **Any of the reportable offenses coded 1-17, <u>regardless of the consequences that result.</u> These offenses always have to be reported on the form.**

- **Any other offense, which is coded as an "18" under this system, that results in an <u>out-of-school suspension of any length of time or expulsion</u>--i.e. any offense that results in a student getting put out of school for any length of time. Note that this condition does <u>not</u> call for reporting offenses coded as 18 that result in ISS. It was determined that having to report these cases would represent too great a reporting burden.**

20. What if our school has no incidents to report for the entire year?

If this is the case, then LEAs will need include information to that effect when they send in the data for all of their other schools at the end of the year. That way, we will know that the absence of information for that school is not because the school forgot to submit the data. Some kind of written statement is all that is required.

21. Many of the students in our LEA are attending summer school this year. Do we have to report incidents that occur in summer school?

No. Schools on a year-round calendar, however, will be expected to record incidents that occur at any time during the year when they are in session.

22. Once I have entered data into the Form, can I print it out?

Yes. However, if you simply print the Excel worksheet as is, you will end up printing out lots of blank pages in addition to your data. When printing, be sure to specify the page range to print (under the File.../Print... menu option) so that you only print only as many pages as you need.

23. If a student from another school commits an offense on my campus, which school records the data for that offense?

The determining factor for deciding which school records the offense is the location where the offense took place. The school where the offense occurred is responsible for reporting that offense on their Form. The school would simply use the appropriate code on the Form to show that the offender was a student from another school.

24. When I click with my mouse onto the column headings on the Form, I don't see a field description like it says I should. Why not?

If you are using the Form with a version of Microsoft Excel prior to version 2000 (e.g., Excel 97, Excel 95, etc.), these descriptions cannot be viewed by clicking on the column heading with your mouse. If you are using one of these older versions of Excel, you must move your cursor onto the column headings by using the arrow keys on the keyboard to view the descriptions. Descriptions of the fields are also available on the worksheet labeled "Instructions-Codes-Definitions" behind the Form.

SUBJECT: Annual Report on School Crime and Violence Table VI A

Please find enclosed a copy of the 2003-2004 Annual Report on School Crime and Violence (ARSV) Table VI A: **Total Number of Acts for Each LEA and School**. As you are aware, Table VI is a summary of the data submitted by your LEA and reflects the number of the seventeen reportable acts submitted by your district for year 2003-2004. In addition, you will find the data from each of the schools in your LEA. This data will be included on Table IV B of the ARSV as required by No Child Left Behind.

In order for the Department of Public Instruction to produce an accurate account of the disciplinary data submitted from your district for year 2003-2004, we are asking that you carefully review each line item for accuracy. If there are changes that need to be made, please submit a corrected copy along with an explanation of what changes are requested. In addition, we are requiring that you sign-off on any of the changes that are to be made, which will in essence verify the need to alter the report submitted. If the data found on Table VI are correct as printed, simply sign the attached sheet and fax it to the Alternative and Safe Schools/Instructional Support Section at 919-807-3917. All documents are to be received by **August 20, 2004.** Documents with corrections must be mailed to the attention of Melody McLamb, using the address below.

SUBJECT: 2003-04 Disciplinary Data Collection Reporting Reminder and 2004-05 Update

Previous Reporting Procedures

The State Board of Education is required by law to produce two reports each year involving disciplinary data:

- The Annual Report on School Violence and
- The Annual Study of Suspensions and Expulsions.

Three years ago, NCDPI developed the Disciplinary Data Collection Form (DDCF) to collect the data needed to develop both of these reports as well as other federally mandated reports related to school safety.

Reporting Changes for 2004-2005:

NCDPI has established a new online data collection system, The Uniformed Disciplinary Data Collection System (USDDC). This new system is designed to provide a more secure environment for recording and transmitting sensitive disciplinary and other data, and to allow for greater accuracy, speed and detail in reporting for LEAs that have not already switched to NCWISE. This system replaces the previous DDCF system and the individual data collection processes of the Alternative Learning Programs Student Data Roster and the Safe and Drug-Free Schools reporting.

In addition to reporting all suspensions, expulsions, or the seventeen reportable offenses, LEAs are to also report all school removals to an alternative program when the removal is a consequence of a disciplinary action, when alternative education is provided in lieu of a suspension, or when the student is enrolling in an alternative program or school for any other reason. This process takes the place of the Student Data Rosters for alternative programs and schools.

2004-05 NC WISE Cohort LEAs

For those LEAs who are transitioning to NC WISE during the 2004-05 school year and who want the option of using the "old" Microsoft Excel DDC Form for recording and reporting disciplinary data for one more year, that Form (along with all accompanying instructions) is now available for download:

http://www.ncpublicschools.org/schoolimprovement/alternative/safeschools/ddc/

Obtaining USDDC User IDs

For those LEAs who are using the new USDDC online system to record and report disciplinary data in 2004-05, a new process is in place for requesting User IDs to access the system. **To make new USDDC User ID requests, go to the main USDDC login page (https://usddc.ncpublicschools.org) and download the Request User ID form.** This form should be used both to request new User IDs and to request changes in security roles for existing users. The form must be completed and signed by the LEA ARSV/DDC contact person and then faxed or mailed to Brad McMillen at NCDPI as per the instructions.

New Training Opportunities
