

Northampton County Schools
District Plan of Action
2015 - 2017

District Name:		LEA Code:	Year:
Northampton County Schools		660	2015-2106
Superintendent Name (or Designee):	Monica Smith-Woofter	Superintendent (or Designee) Email:	smith-woofterm@northampton.k12.nc.us
District Mission	To provide each student the skills, knowledge, and values necessary to compete, contribute, and succeed through the cooperative efforts of school, family and community in a safe and nurturing environment.		
District Vision	Shaping learners and building relationships to compete, contribute, and succeed as globally productive citizens.		
<p>Data Analysis: Give a brief description of the data sources your team analyzed and the root causes uncovered during the analysis. What was learned from the data review? How did these data inform decisions for school improvement initiatives? (to include TWC, EOG/EOC results, attendance, graduation rates, among other sources of data)</p>			
<p>Northampton County Schools must close the learning gaps and help our students learn, grow, and excel. In doing so, we have identified best practices, secured evidence-based instructional resources, and begun building the capacity among all of our learners (staff, students, and leadership alike) to focus on quality teaching and learning. We have made some improvements, but certainly not enough. With our data indicating that 72.2% of our student population is non-proficient, we have taken action to remove barriers and implement necessary academic supports.</p>			

The following data sources were analyzed to determine the priority focus areas for needs improvement: 1) School Performance Data 2013-2014 School Year; 2) School Performance Data 2014-2015; 3) Northampton County Schools Public Report for Students with Disabilities 2013-2014; 4) Reading 3D Data 2013-2014 and 2014-2015; 5) Exceptional Children Program's Warning Lists for Significant Disproportionality-Discipline 2014-2015; 6) District Discipline Data 2013-2014 and 2014-2015; and 7) Approved School Improvement Plans for the 2015-2016 School Year.

Northampton's Accountability Data indicate that the district has made little improvement in increasing student achievement from the 2013-14 school year to the 2014-15 school year. NC Ready data show that there was a decline in the percent of students who are college and career ready. The percent of students in this category decreased from 20% to 18.9%. Likewise, the percent of students who were categorized as grade-level proficient decreased from 29.2% to 27.3%. The data showed that proficiency levels were beneath state levels in all tested areas. However, there were areas in which cohorts of students were beginning to show growth: Grade 4 reading at Gaston Elementary and Willis Hare Elementary Schools; Grade 5 and Grade 7 reading at Gaston Middle school; and Grade 8 reading at Conway Middle School. Although the Cohort Graduation Rate (4 year) increased from 70.7% to 84.7%, students at the high school still lacked skills needed to be deemed grade level proficient. There was a decline in proficiency in all areas tested at the high school.

In grades K-3, our reading 3D data is divided into two categories; text reading comprehension and dynamic indicators of basic early literacy skills, which are reading foundational skills. In our early literacy grades, we see a decline in proficiency across the district from 2013-2014 school year to 2014-2015 school year. In text reading comprehension, proficiency at kindergarten was 54% at Squire, 24% at Central, and 59% at Willis Hare.

Proficiency levels at first grade were 16% at Central, 14% at Gaston, and 20% at Willis Hare. Second grade demonstrated proficiency percentages of 18% at Central, 13% at Gaston, and 26% at Willis Hare while third grade's proficiency percentages were 11% at Central, 7% at Gaston, and 59% at Willis Hare. The math assessment data for K-2 displays a decline in student proficiency percentages the higher the grade level in all standards assessed. Kindergarten had an overall proficiency of 70%, first grade 41%, and second grade 35%. The problematic standard for kindergarten was Number and Operations in Base Ten while first grades' lowest performing area was Geometry. Second grade's lowest performing standard area was Measurement and Data. In order to meet Annual Measurable Objectives goals of 71.9 for reading, 71.3 for math, and 76.2 in science, we have to decrease the number of students non proficient by at least 22 percentage points each year in the those subject areas.

The Northampton County Schools Public Report for Students with Disabilities (2013-2014) focuses on the educational outcomes of students with disabilities, as well as compliance with IDEA requirements. The report indicated whether students with disabilities met or exceeded state targets as measured by 17 performance indicators. The data is shared with the Exceptional Children teachers, instructional leaders and the curriculum and instructional team to help increase the proficiency in academic performance for students with disabilities. Please reference the hyperlinks in the document EC Data Hyperlinks to Statistics. Exceptional Children Program's Warning Lists for Significant Disproportionality-Discipline 2014-2015 indicated that Northampton County Schools had a significant discrepancy for African American students with disabilities versus students without disabilities being suspended greater than 10 days. Forty-seven percent of the reportable crime and violence incidents for Northampton County were circumstances that involved "possession of a weapon", while 20% were classified as "possession of a controlled substance".

School Improvement Plans for this academic school year were analyzed, critiqued, and approved by the Board of Education on October 22, 2015. The Board of Education and central office support staff collaborated to identify and outline further supports that would complement school improvement priorities identified at the school level to maximize the impact on student achievement district-wide. The district plan provides the priority goals that are aligned to those identified additional strategies and action steps that the district support team will facilitate, ensure implementation with fidelity, and progress monitor.
